EDUCATIONAL NOTICES.

Rules for the Examination of Candidates for Vernacular Masterships in Bengal.

1. Candidates for vernacular masterships may present themselves for examination at

any first grade normal school.

2. The examination shall be held in December every year, concurrently with the annual examination of the normal schools of the first grade, and the same papers of questions that

are set to the students of the normal schools shall be set to the candidates for masterships.

3. The examination shall be conducted in three different standards of study corresponding to the three years' course of the normal schools, and all candidates that pass shall be arranged in three grades, each grade having the sub-division of high, medium, and low, according to the proficiency of the candidates.

4. A candidate who obtains 60 per cent. of the total marks and upwards shall be entitled to a certificate of high proficiency in each grade; one who obtains 45 per cent. and less than 60 per cent. shall have a medium certificate; and one who obtains 33 per cent. and

less than 45 per cent. shall have a low proficiency certificate.

5. No vernacular master shall, after January 1877, be appointed to the head vernacular mastership of any middle class school who cannot produce a certificate of having passed the teachership examination in the first grade without the special sauction of the Circle Inspector.

Candidates who pass in the second and third grades shall be eligible to assistant vernacular masterships in middle schools, and to all vernacular teacherships in lower schools

and girls' schools.

- Candidates who desire to appear at the examination must send in to the head-master of any first grade normal school, or the Deputy Inspector of his district, an application containing the following particulars on or before the 1st of October each year:-
 - His name. (1.)
 - (2.) His age.
 - (3.) His father's name.
 - Residence (i.e., village, district, &c.).

 Normal school where he wishes to be examined. (4.)
 - (5.)Grade of teachership for which he is a candidate.
 - (7.)Certificates as to character and antecedents.
- No fee will be charged to any candidate for the examination for the present, but it will be in the power of the ('ircle Inspector to refuse admission to any candidate whose antecedents may appear objectionable.
- 9. No candidate who is below 16 or above 35 years of age shall be eligible to the examination.

FORT WILLIAM, the 1st May 1876.

H. Woodbow, Director of Public Instruction.

Rules for the award of Normal School Scholarships.

Young men of the age of 15 years and upwards, who passed the vernacular scholarship examination, may be admitted into normal schools without any further examination.

2. In the event of a sufficient number of admissions not being made under rule 1, it will be in the power of the head-master of the normal school, acting under the orders of the Director of Public Instruction and the Circle Inspector, to invite by public advertisement such candidates as may desire to be admitted, and to subject them to an examination of equal difficulty with that for vernacular scholarships.

3. The examination under rule 2 is to be held so soon, after the result of the vernacular scholarship examination is known, as may be most conducive to the benefit of the normal schools, and not later than the 1st February each year. The annual examination will

ordinarily be held in December.

- 4. A limited number of normal school scholarships will be awarded to those students who most distinguish themselves at the annual examination in December. Such scholarships will be of the value of Rs. 3 a month each; but a scholarship may be raised to Rs. 4 a month if the holder of it distinguishes himself in the examination of the following year. No normal school scholarship will be awarded to any student who shall not have studied at the normal school for at least one year.
- 5. Scholarships will be liable to forfeiture or reduction for misconduct or want of sufficient progress in study on the part of the holder, with the sauction of the Circle Inspector.
- 6. Deductions from scholarships for absence from school shall be made in accordance with the rules and practice of the Education Department.
- 7. The following allotment of scholarships for the first grade normal schools is sanctioned for the present :-

| | | | | | | Ks. |
|------------|---------------|-----|-------|-------|-------|-----|
| Hooghly No | ormal School | ••• | ••• | • • • | ••• | 200 |

| Cuttack | ditto | ••• | | ••• | | 100 |
| Ranchi | dit to | ••• | | ••• | | 100 |

8. Scholarships not taken up at one normal school under these rules may be trans-

ferred to another normal school with the sanction of the Director of Public Instruction.

9. On the application of scholarship-holders, the Director of Public Instruction shall be competent to sanction the transfer of a scholarship-holder from one normal school to another; but such transfer will be sanctioned only upon very strong grounds, such as illness, removal of relatives, &c.

10. Students of normal schools who may not enter them as scholarship-holders shall be eligible for normal school scholarships if they acquit themselves creditably at the annual examinations of the normal schools. Those who actually hold vernacular scholarships will be allowed to retain their scholarships in addition to the normal school scholarships.

11. The head-master of each first grade normal school shall forward, on or before the 1st March of every year, through the Circle Inspector, to the Director of Public Instruction the number of scholarships of each grade awarded to the scholars undergoing training in his school.

12. Scholarship-holders shall not be required to pay any tuition fees, but all other pupils of the pundit's department shall pay a fee of eight annas a month at Hooghly, Calcutta, Dacca, and Bauleah, and four annas a month at the five remaining schools.

FORT WILLIAM, the 1st May 1876. H. Woodnow, Director of Public Instruction.

SCHEDULE.

An Act for constituting and regulating the Banks of Bengal, Madras and Bombay.

Whereas the Bank of Bengal is now consti-Preamble. tuted and regulated by Act No. 1V of 1862, as amended by Acts No. VI of 1862 and No. XIX of 1870, and its capital consists of twenty-two millions of

rupees, in shares of one thousand rupees each;
And whereas the Bank of Madras is now constituted and regulated by Madras Act No. VI of 1866, as amended by Madras Act No. I of 1871, and its capital consists of five millions six hundred and twenty-five thousand rupees, in shares of one thousand rupees each;

And whereas a Bank named the Bank of Bombay was constituted and regulated by Bombay Act No. X of 1863, as amended by Bombay Acts No. XV of 1866 and No. I of 1867; but such Bank has been wound up and the said Bombay Acts are now obsolete and should be expressly repealed;

And whereas on the tenth day of December 1867, a joint-stock Banking Company was registered and incorporated at Bombay, by virtue of the Indian Companies Act, 1866, under the name of "The New Bank of Bombay, Limited," with a Memorandum of Association and Articles of Association then also registered, and prescribing the constitution and regulations for the management of such Bank;

And whereas the Government of India now holds two thousand two hundred shares in the

said Bank of Bengal, and five hundred and sixty-two and a half shares in the said Bank of Madras; and, under the provisions of the said Act No. IV of 1862 and Madras Act No. VI of 1866, is bound to appoint, and has power to remove, certain of the directors of the said Banks of Bengal and Madras respectively, and has also power to give a proxy to any person whom the Governor General in Council may appoint, to attend and vote at any meeting of the proprietors of each of the same Banks;

And whereas the Government of India has determined to sell its said shares and to surrender its said powers; and it is expedient to relieve the said Government from the said duty of appointing directors, and to repeal the said enactments and to consolidate such of them as relate to the said Banks of Bengal and Madras respectively with the changes rendered necessary or desirable by such sale, surrender and relief;

And whereas it is expedient to reduce the said capital of the Bank of Bengal by two millions of rupees and to reduce the said capital of the Bank of Madras by six lundred and twenty-five thousand rupees, and to divide the capital so reduced of each of the same Banks into shares of five hundred rupees each;

And whereas it is expedient that the said New Bank of Bombay, Limited, should be reconstituted and regulated, in manner in this Act provided, under the name of the Bank of Bombay;

It is hereby enacted as follows:--

NOTE.

Wind Resultant.—The resultant wind direction and its comparative predominance are calculated from the whole number of wind observations recorded during the month. The relative predominance in the direction of the resultant is given as a percentage of the whole number of observations. The direction is computed in the usual way by Lambert's formula.

Cloud.—This column gives the average proportion of clouded sky, a cloudless sky being indicated by 0, and one completely overcast by 10.

The mean barometer, as likewise the dry and wet bulb thermometer means, are derived from the twenty-four hourly observations made during the day.

The dew-point is computed with the Greenwich constants. The figures in column 10 represent the humidity of the air, the complete saturation of which being taken at unity. The receiver of the lower rain-gauge is 1½ feet, and that of the anemometer 70 feet 10 inches above the level of the ground. The velocity of wind, as indicated by Robinson's anemometer, is registered from noon to noon.

PUBLIC WORKS DEPARTMENT.—BENGAL.

DISTRICT ROAD FUND.

NOTIFICATION. No. 156.

The 6th May 1876.

Under Section 89 of Act X of 1871, the following annual accounts and reports of the District Road Committees of Chittagong, Noakholly, and the Chittagong Hill Tracts, of works done and in progress during the past cess year 1874-75, together with the remarks thereon of the Commissioner of the Chittagong Division, are published for general information.

G. A. D. Anley, c.s.,

Offg. Asst. Secy. to the Govt. of Bengal, P. W. D.

No. 65L, dated Chittagong, the 13th December 1875.

From-T. M. Kirkwood, Esq., Chairman of the District Road Committee. To-The Commissioner of the Chittagong Division.

I HAVE the honor to submit a report of the Road Cess Committee's operations during the cess year 1874-75 in this district. The detailed account current of the receipts and expenditure of the District Road Fund during that year, a copy of which has been already forwarded to you with this office No. 13L, dated the 2nd ultimo, having been approved and passed by the Committee convened on the 2nd instant for that purpose, is forwarded in Appendix A.

2. The original District Road Committee was during the year abolished, and the present Road Cess Committee, consisting of five official and ten non-official members, were appointed by the Government Resolution of the 28th December 1874. I give below a list of the names of the members, showing against each the number of meetings held since his appointment and the number at which he has attended.

8. Mr. Veasey, acting as Magistrate-Collector, was Chairman up to the beginning of February, when I took over charge of the district. On the 27th April last Baboo Nobin Chundra Sen, Deputy Collector in charge of Road Cess Office, was elected Vice-Chairman of the Committee. Much good work has been done at the meetings; some of the native nonofficial members have taken considerable interest in the subjects discussed, especially Sheik Abdool Malum, Baboo Gopee Mohun Ghose, and Baboo Kanto Prosad Hazari.

The following table shows, side by side, the estimated and actual receipts of the year:—

| | • | | Estimat | ed re | ceipta. | Actu | al re | ceipta. |
|----|--------------------------------------|-------|---------|-------|---------|--------|-------|---------|

| | Grand total | ••• | 53,469 | 3 | 11 | 57,726 | 4 | 0 |
| | | | | | | | | |

It will be seen that the actual receipts have exceeded the estimate by Rs. 4,257.

4. Of the Rs. 474 shown as miscellaneous cesses, Rs. 329 are the proceeds of the one per cent. road cess levied on some of the recently settled Government estates, the rest being made up of fines realized from the proprietors of estates for non-submission of returns called for under section 6 of Act X of 1871.

The caual and ferry tolls for the present year, 1875-76, fetched at public auction a much higher figure than was anticipated, and the deposit payments on this head account for much of the excess shown.

The Rs. 756 shown as fines and refunds represents the unexpended balance refunded by persons who had received petty advances for works undertaken by them.

5. The following table shows, side by side, the estimated and actual expenditure of the vear :-

| | Balance | | ••• | •••• | | 5,592 | | 10 |
| | Grand total | ••• | ••• | | | 57,726 | 4 | 0 |

Thus it will be seen that the total actual expenditure falls short of the estimate by Rs. 1,250. This is owing to the fact that though Rs. 500 were during the year advanced for petty works, and Rs. 1,400 for repairing village roads, the accounts of the final expenditure of these sums had not been received up to the close of the year, so that they are not shown under the head of expenditure.

The entire amount shown as cost of establishment employed on assessment and collection of revenue and as contingencies on that account was disbursed on account of the establishment now engaged in the assessment of the road cess-an operation which, instead of extending over three months, as was estimated for, will probably extend over, more approximately, three years. On the subject of the progress of these assessments and the cost of making them a separate report was, on the 16th November last, submitted. It will suffice here to note that Government has ordered that this establishment is to be paid from the ordinary funds of the Committee so long as they can bear the charge, and that when that cannot be done, Government will advance to the Committee the cost of the establishment at Rs. 1,250 per mensem for a period not exceeding eighteen months. Up to the close of the year Government had accordingly advanced to the Committee Rs 2,499-4-1 on this account; this sum is not shown on either side of the Committee's accounts. Record of the transaction remains in the treasury, and the amount is to be refunded out of the first year's collections of the cess.

The works on the very urgently required new roads (a) from Chittagong to Ramgurh on the Fenny, 50 miles, and (b) from Hathazari, on that road, to the Hill Tracts boundary, where it will meet the road from Rungamuttee, the head-quarters of the Hill Tracts district, 20 miles, were pushed on with the utmost energy our funds admitted of, and occasioned an excess outlay on original works to the amount of Rs. 2,023, which is more than set off by the

savings under headings 6, 7, and 9.

6. On the 13th August it was estimated that the balance available for the year 1875-76 would be Rs. 8,500. But this estimate was framed under the impression that an amount of Rs. 3,372 paid to the road cess assessment establishment subsequently to the middle of April last, the date up to which the Committee had previously agreed to pay from their funds the cost of that establishment, would have been at once recovered in cash from the advance promised by Government; the terms of the more recent orders, however, forbid as yet the

recovery of this amount.

7. Up to April last all the works of the District Road Committee were undertaken by the Executive Eugineer, but under the Government Resolution No. 1209 of the 8th March 1875, it was resolved at a meeting held on the 27th April last that a separate road establishment, at a total annual cost of Rs. 4,800, should be entertained under the Committee. Original works of importance were to be placed under the supervision of the Executive Engineer of the division, and for this the Committee proposed to pay to Government a sum equivalent to 4½ per cent. on the outlay on works so supervised. This proposition was agreed to by Government. The percentage on an outlay of Rs. 11,417 since April last amounts to Rs. 513, while for the use of the Department Public Works establishment from October to March we paid Rs. 1,258.

8. The Committee much regret the extra drain which has been put on their already insufficient funds by the maintenance for some months of the cess assessment establishment an outlay from which they can expect no return for another two years, and which reaches the (to them) very important sum of Rs. 7,000. They believe the figures given in paragraph 5 will show how carnestly they have set themselves to the work of effecting every possible economy, while they are determined to push on the works so much required by this district

with all the energy of which their inadequate funds admit. It is with satisfaction that they perceive that their work establishment charges are but 12 per cent. on the value of the work executed by that agency (Rs. 3.3:2 on Rs. 27,756,*) and that they find their canals showing such an expanding revenue. These sold for Rs. 7,410 for the year 1875-76, as against Rs. 6,000 for the year 1874-75 and Rs. 4,653 as the average of the last five years.

9. The work done during the year is summarized below; further details are to be found in Appendix B:-

(1)—Widening, straightening, and bridging the road from Chittagong to Ramghur, distance 50 miles (from 12th mile to 15th mile).

(2)—Construction of a new road from Hathazari towards the Hill Tracts, distance

20 miles (from 2nd mile to 3rd mile).

(3)—Widening and straightening the road from Chittagong to Ooknia Ghat on the Naaf, distance about 100 miles, called the Arakan road (from 34th mile to 38th mile), with

some bridging.

- (4) Construction of the road from Chittagong to the house of Sheik Abdool Malum, one and a half miles (one mile constructed). Towards this road the above mentioned gentleman contributed half the cost, or Rs. 5,074, and now offers a further sum of Rs. 400 towards the Rs. 2,000 still necessary for its completion. The Port Fund has been charged with the other moiety.
- (5)—Construction of bridges on a road from Cox's Bazar to Ramoo, distance about 10 miles.

(6)—Part construction of a road on Kutubdeah Island (one mile).
(7)—Purchase of three boats for the ferry from Kumeria to Sundeep Island, which is managed directly by the Committee.

(8)—Compensation for the resumption of Bagkhali ferry.

(9) -Providing the gate in Boalkhali canal with wing walls and angle irons.

- (10)—Deepening the Banskhali and Boakhali canals.
 (11)—Repairs to the completed portious of the main roads shown above as under construction and to several small works, mostly lying within a circle of ten miles round the town of Chittagong.
- An unprecedented flood swept across a part of this district early in August last; I regret to say that it here and there caused much damage to the masonry works on our roads;

the damage it did to the earthwork, though considerable, is repaired with little difficulty. completely swept away one bridge on the 29th mile of the Arakan road, and damaged the wing walls of many bridges on all the roads, especially on the Hill Tracts road.

11. Our estimated income for the present year is Rs. 29,792, including Rs. 5,592 the balance in hand at the close of year 1874-75. Our estimated expenditure disposes of the

whole of this sum.

12. The Committee have rightly, I consider, determined to concentrate their operations more than has hitherto been the case. It appears to them that a road is of comparatively little use until it is open from end to end, and they have therefore resolved not to prosecute original works in the centre and south of this long straggling district to any extent until the important roads they have undertaken in the north are complete. The southern and central portions of this district are rich in water routes, but the fifty miles which lie north of the river Kurnasoolee is almost without these. They have therefore adopted the policy, in which I fully concur, and to which their slender resources compel them if they would confer any real benefit on the district, of starving as far as possible all other localities until the road from Chittagong to Ramghur on the Fenny and the road to the Hill Tracts boundary are accomplished facts. It can scarcely be doubted that the effect of the road to Ramghur will be to open up a considerable tract of country in than Futtekcherry, embracing an area of some 200 square miles, which is at present, as far as I know, the only considerable tract in this district which admits of cultivation and has not been utilized. This portion of the district is at present but very thinly populated, and the means of locomotion are confined to narrow and broken foot-paths through jungle. The opening of this road would be certain to bring with it speedily the cart traffic, which is even now springing into existence on the thirteen miles completed at the southern end. Fifteen years ago the Dacca road, which runs through the north of the district parallel with the Ramghur road but separated from it by an impassable range of hills, had not a cart on it; its wheel traffic is now very heavy, and each of the villages along the roadside can show a score of carts.

The Hill Tracts road is scarcely less important. Its length in this district will be about twenty miles and in the Hill Tracts about fourteen miles. It branches from the Ramghur road twelve miles north of the town of Chittagong; Rungamuttee, the head-quarters of the Hill Tracts, will thus be brought within about forty-six miles of Chittagong. The tract of country through which the road passes has no good water-routes. It will give the hillmen great opportunities of visiting the markets of regulation districts, and will no doubt add considerably to the prosperity of the country through which it passes. On these two roads then, the Ramghur and the Hill Tracts, we mean to concentrate our energies until we bring

them to a successful completion.

13. The matter which we hold to rank next as most urgent is the improvement of the waterways in the centre of the district. We have at present a most serviceable line of canals connecting the Kurnafoolee at Chittagong with the Sungoo, and the Sungoo with the Matamorce, in thana Chakoria (Cox's Bazar sub-division). The total length of the line is about forty miles. The increase of traffic on this route may perhaps be judged from the fact that while in 1874-75 those canals were farmed out for Rs. 6,000, they sold at the end of that year for 1875-76 for Rs. 7,410. Nevertheless in its present state this route is not complete; the waters are tidal and heavily laden with silt, which causes us much trouble, and necessitates frequent closures, remission of revenue, and expenditure. We have it therefore in contemplation to place locks at the entrance from the Kurnafoolee, as well as on either side of the Sungoo, and also at the southern terminus. But the expense will be heavy, and although some time may elapse before we can find the funds for the execution of this project, we apprehend that the time now expended in deliberation upon it will not be wasted if we can devise some efficient and economical method of effecting our purpose as soon as funds are available.

We also have under deliberation the opening up of the old and now almost unused 14. Moiskhali canal connecting the port of Chittagong directly with the Bay of Bengal at a spot where the sea is, owing to the island of Sundeep, much less open and dangerous to boats than it is at the mouth of the Kurnasoolee. The length of this canal would be about seven miles; it would cut across the long tongue of land which now separates the windings of the Kurnafoolee from the sea. The cost, however, would be considerable, probably not

less than Rs. 75,000, as the canal to be really efficient must be locked at both ends.

15. These are the projects which immediately press upon us. But it may not be out of place to note here the other lines of communication which, though second in importance to the above, are still very greatly needed.

Dividing the district into three portions, we have-

North of the Kurnafoolee.

(1)—Nazir Hat to Bibi Hat and Fennoa tea gardens (already in existence, requires

improvement) eight miles (a).
(2)—Nazir Håt to Ranjan and Lamboo Håt on the Kurnasoolee, twenty-sour miles (a).

(8)—Ranjan to Chowdhry Ghat on the Hulda, twelve miles (a).

II.—Sudder sub-division south of the Kurnafoolee.

- (4)—Ten miles of the Arakan road at the southern end and some bridging, ten miles (a).
- (5)—Puttes to Anwarsh, eight miles (b).

- (6)—Pathurghatta (opposite the town of Chittagong) to Jhalda, Parkee, and Gohira, along the south bank of the Kurnafoolee, and the sea face, eighteen miles (a).
- -Chandpore on the Sungoo, to Patanee on the Arakan road, twenty miles (b).
- S)—Chandpore on the Sungoo, due south, vid Juldee to Chunnna, twenty miles (b).

(9)—Four good bridges across the forty miles of canal.

III.—Cox's Bazar Sub-Division.

- (10)—Arakan road from sudder sub-division boundary to Ookhia Chât on the Naaf, fifty miles (a).
- (11)—Cox's Bazar town to Ramoo on the Arakan road, ten miles, partly done (a).
- W.B.—Roads which should be 12 feet broad are marked (b), roads which should be 16 feet broad are marked (a); no roads in this district need be more than 16 feet broad at the top. All the roads in this district are unmetalled.

We have thus before us (including the incompleted portions of the Ramghur road, thirty-five miles, and of the Hill Tracts road, seventeen miles) about 182 miles of unmetalled road sixteen feet wide with heavy bridging, and forty-eight miles of unmetalled

road twelve feet wide with heavy bridging.

- 16. Besides this, there are the canal improvements already spoken of, and many small or roads and feeders. These latter are now being much attended to. The removal of village roads and feeders. These latter are now being much attended to. encroachments is insisted on, zemindars and village headmen are compelled to look to their repair, jungle on either side is cut, and bridges which can be crossed in safety are being constructed. Provided the rest of the road is put in good repair, we now offer to construct the bridges on these village roads up to such a limit as that portion of our income which we annually set aside for this purpose will allow of. Some native gentlemen, amongst whom I may mention Sheik Abdool Malum and Deputy Collector Baboo Goluck Chunder Rai, are aiding us with liberal contributions towards the construction of roads in the neighbourhood of their villages. In several cases it is found that Mahomedan gentlemen and villagers have bequeathed lands for the maintenance of certain bridges and roads near their homes. Hitherto the object of the bequest has often been forgotten or neglected either wilfully or through the difficulties which in such a case numerous shareholders present; we are taking steps to enforce the observance of the obligation imposed, offering as an alternative to take over and manage the lands so bequeathed, if such an arrangement should be more convenient to the shareholders.
- 17. What we are at present each year enabled to effect in the way of opening communications is deplorably incommensurate with what should be done, but we can but husband to the utmost such funds as we have and carefully seek to expend them to the utmost advantage.

The following are further details respecting these works :-

- 1. Ramghur Road.—The widening and straightening of this road has been carried out for about 2½ miles between 12th and 15th miles, having a width of 16 feet at top. It has also been turfed. One wooden bridge of 21 feet span with masonry abutment and wing walls, and masonry abutments and wings to a wooden bridge, 46 feet span, have been constructed on the 14th mile. This road has received surface repairs between the 3rd and 15th miles; 33 wooden bridges have been repaired and 8 tarred. It is proposed that during the year 1875-76 the road should be widened and straightened from the 15th to 19th mile, and surface repairs effected from 3rd to 14th miles. Existing bridges will be thoroughly repaired and some of the timber bridges tarred.
- 2. Hill Tract Road.—This road has been constructed three-quarters of mile in length and 16 feet on the top from the village Rohobullapore to Goherah. It has been turfed throughout the three miles complete, and has received surface repairs. Three wooden bridges and one masonry bridge have been repaired, and two wooden bridges tarred. The bridging for the three miles of road is not yet complete. This road will during the year be extended about three miles from Goherah village to the old Ranjan road, and a timber bridge of 64 feet span will be placed over the khal on the third mile. Surface repairs will be executed:
- 3. Arakan Road.—This road has been widened and straightened to sixteen feet on the top from 34th to 38th mile, and about half a mile on the 31st mile. It is not passable for vehicles beyond the 30th mile owing to the absence of bridges. The wooden auperstructure over the masonry work of bridge No. 41, 100 feet span, and a culvert No. 43, of 5 feet 9 inches span, on the 30th mile, have been completed. It is not contemplated that new works will be taken in hand in 1875-76, except renewing five wing walls to the culvert and bridges Nos. 22½, 23, and 25 on the 16th and 17th miles, which have been damaged more or less by the floods which swept through the district in the first week of August. The road has received surface repairs from the east bank of the Kurnafoolee to the 29th mile, and is now in good order. Eighteen wooden bridges with wing walls have also been repaired. Surface repairs to the road from the east bank of the Kurnafoolee river to the 38th mile will be made during 1875-76, and the wooden bridges repaired and coal-tarred.
- 4. Moishkhali Strand Road.—This road from the village Gohaildanga, towards Abdul Malum's house at Halishohur, about one mile in length, with a width of sixteen feet to the top, has been constructed and turfed, and is perfectly passable for vehicles. The road has received surface repairs, and two masonry bridges have been plastered with Portland cement. Stone facing has been put on to the slope of the road 107 feet ×8 feet at Gohaildangs to protect the embankment from the encroachment of the river Kurnafoolee. Surface repairs will be executed on this line of road during the year 1875-76, and it is hoped to complete the remaining half mile to Abdul Malum's house. Rs. 2,000 is required for this, towards which Abdul Malum has offered Rs. 400.

- 5. Road from Cox's Bazar to Ramoo.—Two wooden bridges, each 6 feet by 16 feet, were constructed at a cost of Rs. 115-8. Another wooden bridge, 21½ feet by 12 feet, was constructed on masonry abutments at a cost of Rs. 97-9-6. This road has also been repaired within the limits of the Cox's Bazar municipality. Earthwork by the sides of five bridges was repaired. One wooden bridge, No. 1, 37½ feet by 16 feet, was made on masonry abutments at a cost of Rs. 258-8-2, of which Rs. 20 were advanced before October 1874. Another wooden bridge, No. 2, 29½ feet by 16 feet, was made on masonry abutments at a cost of Rs. 202-5-2. A third wooden bridge, No. 3, 21½ feet by 16 feet, was made on masonry abutments at a cost of Rs. 180-12-11. All these bridges have been strongly constructed of jarool planks, 2½ inches to 3 inches thick. The bridges appear to have been constructed on a scale larger than the traffic or funds warrant; a breadth of twelve feet is ample.
- 6. Sluice gate on the Boalkhali Canal.—Angle irons have been fixed for strengthening the gate and wing walls, and a terrace floor constructed.
- 7. Surface repairs to the following minor roads have been completed:—Robertgunge road, Mahajun Hât road, Tipperah Pass, Nusseerabad, Kaloor Ghât, Bakoleah, Halishohnr, Moiskhali towing path, Anwarah, Paroikorah, Chandpore, Sakeerahpole, Dhulghat, towing paths on the banks of Boalkhali canal and Rangoneah roads. Sixteen wooden bridges have been repaired and twenty-three bamboo revetments have been put to the ends of bridges on the Chandpore road; wooden bridges, four on the Robertgunge road, one on the Sakeerahpole road, four on the towing paths on the banks of Boalkhali canal; two bamboo bridges on the Mahajan Hât road, and one bamboo bridge on the Rangoneah road have been repaired and constructed; two wooden bridges on the Anwarah road have been tarred, seven wooden bridges on the Kaloor Ghât road repaired. These roads will receive surface repairs during the year 1875-76. Necessary repairs to the wooden bridges will be executed.

- The Committee is little better than a farce; the Road Cess Act and the business done under it are regarded as purely Government measures, and the Chairman and Vice-Chairman are the real managers of the whole. Non-official members take little or no interest in the matter of local improvements, and of official members, the Executive Engineer has not been here once during the year. Some difficulty has been experienced in getting together a quorum for the transaction of business as required by the Road Cess Act, and meetings had to be adjourned on several occasions in consequence. A meeting was convened on the 3rd instant to consider the annual accounts for the past year under sections 88 and 89 of the Act, but as no quorum was found, the accounts are submitted under the Chairman's countersignature, because to call a new meeting to elect a Sub-Committee and again call a Committee to pass the accounts, will take two or three months more. The Committee is an irresponsible body, and hence care little about the accounts.
- 5. The following works have been carried out during the cess year ending 30th September 1875:-

Construction of 38 bamboo bridges and deepening the Attiatolly canal have been completed.

Excavating a canal and constructing spurs to prevent encroachment of Chaprassee khal

BOGULA PROSAD MOJUMDAR,

Vice-Chairman,

No. 12R., dated Rungamuttee, the 80th October 1875.

From—A. W. B. Power, Esq., Officiating Deputy Commissioner, Chittagong, To—The Commissioner of the Chittagong Division.

I HAVE the honor to forward herewith the annual accounts of the District Road Fund for the year 1874-75, commencing from 1st October 1874 and ending with 30th September 1875. The account of income and expenditure for that period stands as follows:—

- 2. The sum of Rs. 3,600 shown as balance at credit of deposits was added to the funds of this district in May 1874 by a mistake in the Accountant-General's office. It is shown under that head by the order of the Controller, Public Works Accounts, Bengal. The Treasury Officer and the Accountant-General have been requested to adjust the mistake at their earliest convenience.
- 3. At the commencement of the year there were Rs. 14,447-0-9 outstanding on account of advances made to Myoni Tipras and others as per Bengal Government letters No. 3071 of 18th May 1872 and No. 1563 of 18th June 1873, received with Commissioner's endorsements No. 257 of 23rd May 1872 and No. 548 of 30th June 1873. At the close of the year there is a balance of Rs. 8,071-4-6 shown as advances outstanding. Out of which a sum of Rs. 1,661-0-9 was advanced to sufferers during the heavy floods in July and August last, and to Public Works Department for surveying the road from Rungamuttee towards Chittagong, leaving Rs. 6,410-3-9 recoverable on account of Road Fund from Myoni Tipras and others. The greater portion of this amount may be recovered during the working season of 1875-76.
- 4. It was proposed in the hudget estimate for 1874-75 to execute works amounting to Rs. 25,568-15-3, but pending a professional survey all works were postroned, the expenditure, which amounts to Rs. 12,245-12-6, has thus fallen short of the original estimate, the balance, Rs. 13,323-2-9, is available for the current year, 1875-76.
- 5. Communications, Original Works.—Roads and Bridges.—South-Eastern Trunk Road, Lushai branch.—The following works have been executed during the year under review:—An embankment 15 feet in breadth has been made on about two and a half miles of marshy land between Rungamuttee and Chittagong, 600,000 cubic feet of earth excavated at a cost of Rs 1,318-5-4, débris and boulders removed from a part of that road extending over a mile, and the road widened from two to six feet. Cost Rs. 200.
- 6. Ditto.—About 300,000 cubic feet of earth exeavated from Manickcherry Moin, thus enlarging the cutting and reducing the height of that hill by ten feet. Cost Rs. 600.
- 7. Ditto.—Twenty-five bridges, consisting of large trunks of trees, and 67 small bridges constructed on that road. Cost Rs. 630-1-4.
- 8. Ditto.—The roads at Runghmuttec (head-quarters) have been improved and widened at a cost of Rs. 329-3-6.
- 9. Ditto.—About three and a half miles of road from Feskicherra towards Demagiree were improved by deeper cuttings in the sides of rocky hills by felling trees, uprooting stumps, and sunn grass, and removing them from the road; 20 bridges of large logs of wood planed on the top constructed. Cost Rs. 1,492-8.
- 10. Ditto.—On the road from Ruma, the head-quarters of the Sungoo sub-division, towards Rungamuttee, large trees have been cut and removed, stumps of trees and sunn grass cleared, making a foot-path to an extent of 32 miles. Cost Rs. 3,104-2-8.

- 11. Communications, Original Works.—River and Canal Works.—The channel at Utanchutta rapids, between Rungamuttee and Demagiree, has been deepened and improved by cutting a passage through the rocks. At present boats with a cargo of twenty maunds can with ease go to Demagiree. Cost Rs. 306-13-3.
- 12. Minor Original Works.—The masonry revetment on the side of the head-quarters road has been plastered with soorkee and whitewashed at a cost of Rs. 227-5-6. The large well in the bazar at Rungamuttee has been plastered with soorkee and whitewashed at a cost of Rs. 79-15, and a masonry spring well has been constructed for Rs. 419-15, aggregate cost Rs. 499-14. These wells are a great boon to the station, inasmuch as they afford a supply of pure water, and since they have been in working order no outbreak of cholera or dysentery has occurred. The frequent outbreaks which formerly took place were attributed to bad water alone. The masonry ghât at Rungamuttee has been repaired and plastered with soorkee, and whitewashed. Cost Rs. 246-4-6.
- 13. Repairs and Maintenance.—Roads and Bridges.—Three miles of road from Chunder-ghona towards Rungamuttee have been repaired by earthwork, amounting to 40,000 cubic feet, and by levelling. Cost Rs. 118-5-4. Twenty miles of road from Rungamuttee towards Chittagong repaired at a cost of Rs. 279-10-8; about two miles of road from Ruma, the head-quarters of the Sungoo sub-division, towards Rungamuttee repaired. Cost Rs. 33-2-5.
- 14. Establishment.—Special allowance of Mr. A. DeRozario, Inspector of Police, Rs. 600; salary of Charifoo, mohurir, Rs. 130, and of two overseers Rs. 150. Need no remarks.
- 15. Tools and Plant.—Rs. 1,935-11-9 spent for the purpose of purchasing tools for the use of the frontier police for constructing roads, clearing jungle, and for general purposes (vide Commissioner's letter No. 812 of 11th October 1873), and Rs. 24-14-2 paid for repairing tools, require no fresh comments.
- 16. Before detailing the works proposed to be undertaken during the year 1875-76, it is necessary to state that the construction of most of the works during 1874-75 on the two roads, first from Rungamuttee towards Chittagong, and second from Ruma, the headquarters of the Snngoo sub-division, to Rungamuttee, have been postponed in order that they may be professionally surveyed and estimates framed by a professional engineer. A subengineer is at present employed in surveying the first-named road; as soon as he completes his work he will be deputed to the other road; but as it cannot be exactly ascertained when he will have finished and to what extent his estimate will amount, all money available for district roads for 1875-76 has been shown in lump sums in the budget estimate above named. I here take occasion to notice the immense damage caused to the Rungamuttee and Chittagong road by the unprecedented rainfall in July and August last, and the consequent floods. Extensive hardships have taken place. Out of 87 temporary wooden bridges, each from 20 to 100 feet in length, which were constructed at much cost and labour over hill streams in previous years, 58 bridges have been washed away, and 17 bridges have been removed from their original positions. Large portions of road along the sides of steep and rocky hills and' along the beds of nullahs whose course had been diverted were submerged, and in many such places no vestige of the road can now be traced. Large boulders and débris have fallen on the road from the hills above, and embankments have been swept away here and there. It is hoped that these damages may be repaired before the next rainy reason, otherwise much inconvenience will be caused by the interruption of communications.
 - 17. The following works are proposed in the budget estimate for the year 1875-76:-
- 18. Communication, Original Works.—Roads and Bridges.—South-Eastern Trunk Road, Lushai Branch Road No. 5 (vide Bengal Government Circular, Public Works Department, No. 59 of 14th September 1875.—Constructing one mile of road at a cost of Rs. 1.000 from Rungamuttee towards Chittagong, by cutting in the sides of rocky hills and by changing the courses of nullahs near Gagra Moin and Champatholly.
- 19. Ditto.—Constructing six miles of road at a cost of Rs. 3,000 from Rungamuttee towards Chittagong, by raising the earthwork 3 feet high and 15 feet broad.
- 20. Ditto.—Cutting 500,000 cubic feet of earth from the hill near Rungamuttee, so as to make the road practicable in future for wheeled carts, at a cost of Rs. 1,500.
- 21. Ditto.—Cutting 400,000 cubic feet of earth at Rs. 1,200 from Manickcherry Moin for the above purposc.
- 22. Ditto.—Cutting rocky sides of hills and changing the bed of Sauscherry nuliah at a cost of Rs. 600.
- 23. Ditto.—Improving the roads at the head-quarter station of Ruugamuttec by widening them from 10 feet to 15 feet. Cost of throwing 100,000 cubic feet of earth Rs. 300.
- 24 Minor Works.—Constructing a dam at Rungamuttee for Rs. 478-8 to collect clean water (vide Commissioner's letter No. 70H. of 14th May 1875).
- 25. Ditto.—Constructing a circuit and staging bungalow at Rungamuttec, portion payable from Road Fund, Rs. 762 (vide Bengal Government letter No. 8935 of 7th August 1875).
- 26. Constructing 67 temporary bridges for Rs. 2,680, at Rs. 40 each, on the road from Rungamuttee towards Chittagong.

- 27. Ditto ditto Road No. 7, ditto ditto.—Constructing thirteen miles of road out of 66 miles from Ruma, the head-quarters of the Sungoo sub-division, towards Rungamattee, by cutting and removing jungle, uprooting stumps and roots of trees, and digging out weeds and sunn grass. Cost Rs. 6,500.
- 28. Ditto ditto.—Constructing a road at the head-quarter of the Sungoo sub-division 15 feet broad. Cost of throwing 150,000 cubic feet of earth Rs. 450.
- 29. Minor Works.—Constructing a village road for Rs. 80 from the mouth of Mukbaun to Nolleoniahbit, and another for Rs. 240 from the banks of the river Kurnafoolee to the village of Suhurchurry.
- 30. Communication, River and Canal Works, No. 9, ditto ditto.—Enlarging and deepening the channel at Uttanchuttra between Rungamuttee and Demagiree at a cost of Rs. 500, by cutting and blasting rocks from the bed of the river.
- 31. Maintenance and Repairs, No. 2, ditto ditto.—Repairing three miles of road for Rs. 50 from Chunderghona towards Rungamuttee, and a bridge for Rs. 20 on that road.
- 32. Ditto ditto Road No. 5, ditto ditto.—Repairing twenty miles of road towards Chittagong twice in the year—once during the rainy season, between July and September, again after the rains in December—by cutting and removing sunn grass and undergrowth of trees, at a cost of Rs. 1,000; removing débris and boulders from one mile of road for Rs. 200; repairing the head-quarters road for Rs. 100; a bridge for Rs. 25; masonry ghât for Rs. 100; whitewashing two wells for Rs. 50, and masonry revetment for Rs. 25.
- 33. Maintenance and Repairs, Road No. 7, ditto ditto.—Repairing 24 miles of road from Ruma, the head-quarters of the Sungoo sub-division, towards Rungamuttee twice in the year—once during the cold weather, and again during the rainy season—by cutting and removing sunn grass and weeds. Cost Rs. 1,200.

37. It is necessary, for reasons mentioned in paragraph 16, to keep the roads from Rungamuttee towards Chittagong, and from Ruma, the head-quarters of the Sungoo, to Rungamuttee, open throughout the year, and it may take a long time before a professional survey and estimates are complete and meet the sanction of Government. Even if that sanction is obtained, it will take years before the road from Rangamuttee towards Chittagong can be made practicable for wheeled carts, which fact has been often brought to notice in previous reports; it is therefore proposed to employ the Myoni Tipperas and others, from whom large advances are recoverable, in executing the works detailed in paragraphs 18, 19, 22, 24, 26, and 28 to 33 of this report, by which not only the communication will be kept open, but a great portion of the advances will be repaid in labour. I trust this proposal will be approved of and sanctioned.

A. W. B. Power,
Offg. Deputy Commissioner.

No. 73GM., dated Chittagong, the 28th February 1876.

From—E. E. Lowis, Esq., Commissioner of the Chittagong Division, To—The Secretary to the Government of Bengal, Public Works Department.

In compliance with the instructions laid down in Government circulars Nos. 50 and 51 of the 23rd July 1873 and 8th August last respectively, I have the honor to enclose herein copies of the reports on local improvements, together with the annual accounts of the District Road Fund for the cess year 1874-75, submitted by the Chairman of the District Road Committees of Chittagong and Noakholly and the Deputy Commissioner of the Chittagong Hill Tracts.

Chittagong Hill Tracts.

2. The delay in the submission of the above reports is partly owing to the non-receipt of the report and accounts from the Chairman of the District Road Committee, Chittagong,

until the 13th instant, and partly owing to my having had to await the explanations which I called for from that officer as well as from the Chairman of the District Road Committee of Noakholly with regard to certain discrepancies in the accounts submitted by them. With regard to the date of the submission of the above report and accounts, a reference has also been made by me to Government (ride this office No. 483GM., dated 13th December 1875), but no reply has yet been received on the subject.

The receipts of the year from tolls and cesses, &c., throughout the division amounted to Rs. 21,054-3-5, which, with the balance and advances outstanding on the 1st October 1874, i.e., Rs. 51,985-0-7, as well as the grant-in-aid from Provincial Funds of Rs. 35,000, made up a total sum of Rs. 1,08,039-4-0 available for works of local improvements in this

division for the cess year under review.

4. Out of the total sum of Rs. 1,08.039-4, Rs. 57,726-4-0 were available in the district of Chittagong, Rs. 24,741-0-9 in the district of Noakholly,

Chittagong ... 53,469 3 11
Noakholly ... 22,259 13 5
Chittagong Hill Tracts 29,108 15 3 and Rs. 25,568-15-3 in the Chittagong Hill Tracts. The total estimated receipts amounted to Rs. 1,04,593-0-7, as shown in the margin, including Rs. 55,585-0-7, the unexpended balance remaining at the commencement of the year Total .. 1,04,898 0 7 including Rs. 3,6 0, being the balance 1,04,898 0 7 under review. From the figures given above it will be seen

at credit of deposits. that the actual receipts in the districts of Chittagong and Noakholly exceeded the estimated receipts by Rs. 6,741-3-5. The excess receipts are due to the fact that the canal and ferry tolls for the year 1875-76 fetched at public auction larger amounts than were anticipated, and also to the amounts deposited by the ferry farmers being larger.

5. The accompanying statement (marked A.) will show the several heads of receipts

and the amounts collected under each head during the past cess year.

6. The total expenditure of the year amounted to a sum of Rs. 82,303-3-9, against Rs. 70,809 of the preceding year. The following were the chief heads of expenditure, viz :-

| | | | | | Rs. | A. | Ρ. |
|-----------------------------|-------------|----------|-------|-----|--------|----|----|
| Charges on collection | ••• | | ••• | ••• | 8,318 | 5 | 1 |

l'esides the amount of Rs. 82,229-0-3 just mentioned, Rs. 743 were refunded in the district of Chittagong. The balance at credit at the close of the year amounted to Rs. 25,736-0-3, as detailed below:—

| | | Rs. | A. | P. | |

| | | | | | |

With a view to give a clear idea of the charges incurred by the District Committees of Chittagong and Noakholly, and also by the Deputy Commissioner of the Hill Tracts during each quarter of the year, the statement marked B. is submitted herewith. If this is compared with the annual accounts of the Deputy Commissioner of the Hill Tracts, it will be observed that there is a discrepancy of Rs. 4-4 in the figures entered in column "Total" under the head "Charges on collection of revenue under the Committee's control," and also under the head "Tools and plant." The Deputy Commissioner has not furnished any explanation regarding the difference. I have, however, requested that officer to supply the omission now.

8. The following discrepancies are also observable in the quarterly and annual accounts now submitted by the Chairman of the District Road Committee, Chittagong:—

9. With regard to these discrepancies the Chairman has submitted the following explanations:—

The amount of Rs. 660 which was expended in the purchase of a ferry boat for Kumaria

ferry, and which is now shown in its proper column against heading "Ferries, original works," in the annual accounts, was mentioned under "Tools and plant, other charges," in the fourth quarterly statement. A charge of Rs. 660 having been shown under heading "Original works, ferry boats," in the second quarterly account, which was submitted to the

the second quarterly account, which was submitted to the Controller of Public Accounts on the 28th April last, that officer directed that the above amount should be transferred to heading "Tools and plant, other charges." The Chairman accordingly got his office copy of the accounts corrected. For the same reason the sum of Rs. 660 in question was exhibited under heading "Tools and plant, other charges," in the fourth quarterly statement; but in the annual accounts it has been shown against its proper heading "Ferries, original works." and hence this difference.

Rupces 105, charged under the marginally noted heading (a) in the first quarterly

(a)—Road establishment— Difference ... 100 1 0 (b)—Charges on collection of revenue— Difference ... 61 14 4 statement, were transferred to heading (b) by the Controller, the Chairman accordingly corrected his own office copy. The total of quarterly return under heading marked (a) will therefore be Rs. 3,317-5-10 after deducting Rs. 105 as stated above, and not Rs. 3,422-5-10. Thus there is a difference of Rs. 4-15 only between the totals Rs. 3,317-5-10

and Rs. 3,322-4-10, being the sum expended by the road establishment for the contingent expenses. There being no proper heading for such expenses in the quarterly statement, it is included under the heading "Collection of revenue, contingent charges," in the fourth quarterly statement, but it is now shown in its proper column against heading "Contingent charges of the road establishment" in the annual accounts.

Owing to the transfer of Rs. 105 from heading (a) to (b) as represented above, it will

(b)—Charges on collection of revenue—
Difference 61 14 11 (e)—Charges on district works, maintenance and repairs—
Difference 38 2 8

be seen that the total of quarterly statement under heading (b) will be Rs. 7,941-15-1 instead of Rs. 7,836-15-1. Between this latter sum and Rs. 7,941-15-1 there is a difference of Rs. 43-1-8, deducting from which Rs. 4-15, i.e., contingent charges of the road establishment, included under the heading (b) in the fourth quarterly statement, there will be a difference of Rs. 38-2-8, which was by an oversight included

a difference of Rs. 38-2-8, which was by an oversight included under the heading (c), "Contingent charges of ferry establishment," instead of under heading (b), "Contingent charges of collection of revenue," during the compilation of the annual accounts. Now Rs. 76-5-2 shown as contingent charges of ferry establishment under heading (c) has been altered to Rs. 38-2-6, and Rs. 867-10-11 shown as contingent charges under heading (b) is altered to Rs. 905-13-7 in the annual accounts, and the total is accordingly increased by Rs. 38-2-8 to Rs. 7,937-0-1.

The difference of Rs. 38-2 8 being reconciled as explained above, the total in the annual (b)—Charges on district works, Rs. A. P. maintenance and repairs—

8 being reconciled as explained above, the total in the annual accounts under the heading as per margin should be reduced by Rs. 38-2-8 to Rs. 13,206-2-9.

Difference 38 2 8 10. I now proceed to notice other subjects of importance which require any comments from me.

Committee.—At the close of the year the Road Cess Committee in the Chittagong district consisted of fifteen members, five official and ten non-official, and in the district of Noakholly the said Committee consisted of seventeen members, of which three were official and the rest non-official.

The number of meetings held during the year was seven in Chittagong and eight in Noakholly.

In the former district the Chairman reports that some of the native non-official members, and especially Sheik Abdool Maloom, Baboos Gopee Mohun Ghose and Kant Persad Hajari, have taken considerable interest in the subjects discussed before the meetings. The first of these members and Deputy Collector Baboo Goloke Chunder Roy have prominently been brought to my notice as offering liberal contributions towards the construction of roads in the neighbourhood of their villages. In the district of Noakholly, with the exception of the Chairman and the Vice-Chairman, the other members are reported to have taken little or no interest in matters of local improvements. In the Hill Tracts there was no District Road Committee, and everything was managed by the Deputy Commissioner through the agency of his assistant.

CHITTAGONG.

- 11. Statement of works.—As the report and statement of work done and in progress in the Chittagong district, furnished by the Chairmau of that district and forwarded herewith, give detailed information of roads and other works executed during the year under review. I refrain from transcribing them hers. The total expenditure in original works amounted to Rs. 27,426-1-11, and that on repairs, &c., was Rs. 13,206-2-9. The amount estimated under the former head was Rs. 24,743, and the amount of estimated expenditure under the head of "Repairs" was Rs. 15,154.
- 12. It will be seen that the amount actually spent has exceeded the amount originally estimated for original works. The Chairman attributes the cause of this excess outlay to the works executed on two urgent and new roads, viz. road from Chittagong to Ramghur on the Fenny, and the road from Hathajari on that road to the Hill Tracts boundary, where it will meet the road from Rungamuttee, the head-quarters of the Chittagong Hill Tracts. The falling off in the expenditure incurred in the repairs to several roads was owing to the undertaking of mere surface repairs to the Robertgunge road, the Mahajan's Hât road, and other minor roads.
- 13. The District Road Committee of Chittagong have estimated only Rs 18,600 for original works and Rs. 4,000 for repairs during the current cess year 1875-76. They observe that the contemplated expenditure is, from want of funds, much less than what they should wish to incur, and much less than what is urgently required. They have proposed that in carrying out the present original works, in connection with almost all of which there are old lines of narrow road more or less encroached upon by the ryots, but still with good though narrow bridges, to adhere to the old lines as much as possible, only in special cases (such as where it is remarkably tortuous) diverge from it. In this manner much expenditure in the construction of bridges and the acquisition of land, &c., may be avoided. It is also resolved by them to recover all the lands adjacent to public roads which have been encroached upon by private individuals without authority.
- 14. The Committee have further, with my approval, determined to concentrate their operations in the north of the district, where the want of roads is severely felt, and to starge as far as possible all other localities until the roads from Chittagong to Ramghur on the Fenny and the road to the Hill Tracts boundary are accomplished. This proposal, as I have said, has been approved, for it is impossible, except at great waste of superintending power and great risk of bad work, to carry on simultaneously important works some forty miles north and some forty miles south of the sudder station. The Chairman reports that the southern and central portions of this district are rich in water-routes, and therefore roads are not so much a necessity there as in the northern portion of it. It appears to me that the condensing of operations and the completion of one or two lines of important road, before taking in hand half a dozen other roads of lesser importance, is manifestly desirable.

It is worth while mentioning here that a work of great importance is at present under contemplation of the Chittagong District Committee. It is the deepening of the Moiskhally caual, in which the merchants are largely interested. The importance of the work as opening a safe outlet from the river Kurnafoolee, the mouth of which is at present rendered difficult for navigation by the formation of new churs, to the Bay of Bengal has also been fully recognized by Government, and has formed the subject of a separate correspondence.

NOAKHOLLY.

15. In Noakholly the total expenditure on original works was Rs. 5,765-11-10 and Rs. 10,704-9-3 were expended on repairs. The amounts estimated under each of these two heads of charges were respectively Rs. 9,590 and Rs. 11,379; it will thus be seen that the District Committee of Noakholly have not spent the full amounts which were expected to be disbursed on original works and repairs, although all the works which were contemplated for execution and which were shown in the budget estimates for the past year appear to have been undertaken during the year. The Chairman has failed to furnish a detailed history of the progress of each work in his annual report now submitted. In short, his report is a meagre one; I have therefore requested him to submit a supplementary report which should be as complete as possible, treating of all matters of importance. A list of all original works and repairs has been furnished by the Chairman with his report herewith forwarded, I need not therefore repeat them in my divisional report.

- 16. The construction of, and repairs to, village roads have not been carried out fully, nor was provision made in the budget estimate for that purpose owing to the inadequacy of funds. Moreover, the Chairman of the District Committee of Noakholly reports that there is nothing like regular villages in his district, as the homesteads of the residents are widely scattered instead of being grouped together to form a village. Hence, in his opinion, village roads are not very necessary, or their construction practicable in such a manner as to benefit the population.
- 17. The amount proposed to be disbursed during the current cess year is Rs. 7,075 on original works and Rs. 16,830 on repairs.

The former of these two amounts is comparatively smaller than the amount entered in the estimate of the past year under the head "Original works." The Chairman observes that the works which appeared to the Committee to be of the greatest importance and of urgent nature have been proposed to be undertaken during the current year, and that owing to the inadequacy of the funds the District Road Committee is unable to make any provision for the improvement of the village roads or the subsidary communications, but intend to do so as soon as the cess collections are made.

18. The amount estimated for repairs is comparatively larger than what was estimated during the past year. The Chairman reports that the increase is due to a larger amount being required for putting the roads in proper order, as they have sustained considerable damage during the heavy rains in August last, and to the fact of provision having been made for repairs to the Doomchur bridge which, from the strain put upon it by the flood, has become unsafe for cart traffic.

HILL TRACTS.

- 19. The amount expended on original works in the Hill Tracts was Rs. 8,954-10-1, and the amount disbursed on repairs and maintenance of roads was Rs. 431-2-5. The amount originally estimated for was Rs. 20,860 and Rs. 1,280 respectively, under the above two heads. Although it was contemplated that a large amount of work should be undertaken during the year under report, almost all the important works were postponed, as they required to be professionally surveyed before they were taken in hand.
- 20. The detailed informations regarding the abovementioned works and repairs have been furnished by the Deputy Commissioner in his annual report herewith submitted. I need not therefore reiterate the same.
- 21. The sums of Rs. 19,290-2-0 and Rs. 2,770 have been proposed to be disbursed for original works and repairs respectively during the current cess year. It is contemplated to repair during the current and ensuing years a good many roads and bridges which were washed away or otherwise affected by the late flood. Hence a larger amount than usual has been estimated for repairs.
- 22. Establishment.—Rs. 4,932-4-10 were disbursed during the year under report on account of the road establishment and contingencies. Of this amount Rs. 3,322-0-10 were spent in the district of Chittagong, Rs. 730 in the district of Noakholly, and Rs. 880 were spent by the Deputy Commissioner of the Chittagong Hill Tracts. The amounts originally budgeted for were as follows:—

| | | | | 188. |

| In the district of Noakholly | ••• | ••• | ••• | 862 |
| In the Chittagong Hill Tracts | ••• | ••• | ••• | 3,180 |

Hitherto all the district works of Chittagong and Noakholly were undertaken by the Executive Engineer, but on receipt of the Government Resolution No. 1209 of the 8th March 1875, the District Committees were obliged to entertain separate establishments of their own, though all works of importance still remained under the supervision of the abovementioned officer, whose services are being remunerated by a percentage on the outlay on works supervised by him.

- 23. The total amount of expenditure incurred on account of original works and repairs in this division during the past year amounted to Rs. 66,488-6-3, and that incurred on account of work establishment was Rs. 4,932-4-10, giving a percentage of Rs. 7 on the value of work executed by that agency.
- 24. In the Chittagong Hill Tracts there was no Executive Engineer, and all the works were executed by Mr. Rozario, Inspector of Police, assisted by a mohnrir and two overseers. For the extra duty entrusted to Mr. Rozario Rs. 50 per mensem were allowed him under Government orders. Besides the aforesaid employés, the Deputy Commissioner had to appoint a clerk for six months on a monthly salary of Rs. 40 for keeping up accounts of receipts and disbursements.
- 25. During the year under review an unprecedented flood swept across the Hill Tracts and the northern portion of the Regulation District of Chittagong. The Chairman of the latter district reports that it caused much damage to the masonry works on the roads, while the damage it caused to the Hill Tracts roads is reported by the Deputy Commissioner to be ammense, a full description of which will be seen in his paragraph 16.

E. E. Lowis, Commissioner.

No. 313LF., dated Noakholly, the 25th March 1876.

From—R. Porch, Esq., Officiating Magistrate of Noakholly, To—The Commissioner of the Chittagong Division.

WITH reference to your letter No. 99GM. of the 8th March 1876, I have the honor to state as follows.

- 2. Bamboo bridges (38 in number) were constructed on the district dak and police station roads. They last for about one season only.
- 3. A buttress was made, measuring 1,206 cubic feet, for the Shahebghatta bridge. This bridge has, however, been temporarily abandoned, as it was found that a bridge of the the kind estimated for would not stand in consequence of the strong current in the khall there.
- 4. A portion of the Laksham road, about three miles, has been raised and widened, and the remaining portion between Nowtollah and Barullah was in course of repair. The earthwork done on that portion was 81,099 cubic feet.
- 5. A portion of the Dewangunge road was also widened to the extent of 449,337 cubic feet. The raising of the masonry portion of the new bridges on this road was not taken up, as materials were not ready.
- 6. The raising of the masonry works on the six timber-topped bridges on the Laksham road was completed to the extent of 2,534 cubic feet, with earth-work measuring 19,020 cubic feet. Jungly wood posts and planks have been procured.

- 7. The plastering and raising of the masonry portion of the new bridges on the Begungunge road has been finished to the extent of 1,334 cubic feet; planks have been put on eight bridges. The work remaining to be done is now in progress.
- 8. Bamboo spurs were constructed to prevent encroachment on the Shahebghatta road with jungly wood posts.
 - 9. Three hundred and seventy-six trees were planted out on some of the road sides.
- 10. Rivers and canals.—The deepening of the Attiatully canal has been completed, and the banks have been raised by the earth dug from the canal.
- 11. The two bends of the Chaprassy khall were cut to strengthen the passage and to prevent the encroachment on the bridge; across this khall spurs have been made of bamboos and wood to complete the protection of this bridge, which suffered much in last year's flood.
- 12. Repairs.—The station roads have been metalled to the extent of 47,984 cubic feet. The metal used was khoa jhama. Further improvements in this respect have been undertaken.
- 13. Surface repairs.—Jungle clearing and filling up holes have been executed on 110 miles of the district roads. The earthwork done on the Laksham road has been dressed to the extent of 124,590 superficial feet, and turfed to the extent of 84,000 superficial feet; 2,000 cubic feet of earthwork has been done on the Laksham road in raising and widening a section, which has also been dressed to the extent of 163,000 superficial feet.
- 14. The masonry portion of the old bridges on the Dewangunge, Chittagong, and Lukhipore roads have been repaired to the extent of 1,543 cubic feet. The old planks and the posts of the bridges which have deteriorated have been renewed where it was found necessary.
 - 15. The fences put round the trees planted on the road sides have been repaired.

EDUCATIONAL NOTICES.

Rules for the Examination of Candidates for Vernacular Masterships in Bengal.

1. Candidates for vernacular masterships may present themselves for examination at

any first grade normal school.

2. The examination shall be held in December every year, concurrently with the annual examination of the normal schools of the first grade, and the same papers of questions that are set to the students of the normal schools shall be set to the candidates for masterships

are set to the students of the normal schools shall be set to the candidates for masterships.

3. The examination shall be conducted in three different standards of study corresponding to the three years' course of the normal schools, and all candidates that pass shall be arranged in three grades, each grade having the sub-division of high, medium, and low, according to the proficiency of the candidates.

4. A candidate who obtains 60 per cent. of the total marks and upwards shall be entitled to a certificate of high proficiency in each grade; one who obtains 45 per cent. and less than 60 per cent. shall have a medium certificate; and one who obtains 33 per cent. and

less than 45 per cent. shall have a low proficiency certificate.

5. No vernacular master shall, after January 1877, be appointed to the head vernacular mastership of any middle class school who cannot produce a certificate of having passed the teachership examination in the first grade without the special sanction of the Circle-Inspector.

6. Candidates who pass in the second and third grades shall be eligible to assistant vernacular masterships in middle schools, and to all vernacular teacherships in lower schools

and girls' schools.

- 7. Candidates who desire to appear at the examination must send in to the head-master of any first grade normal school, or the Deputy Inspector of his district, an application containing the following particulars on or before the 1st of October each year:—
 - (1.) His name.
 - (2.) His age.
 - (3.) His father's name.
 - (4.) Residence (i.e., village, district, &c.).
 - (5.) Normal school where he wishes to be examined.
 - (6.) Grade of teachership for which he is a caudidate.
 - (7.) Certificates as to character and antecedents.
- 8. No fee will be charged to any candidate for the examination for the present, but it will be in the power of the Circle Inspector to refuse admission to any candidate whose antecedents may appear objectionable.
- 9. No candidate who is below 16 or above 35 years of age shall be eligible to the examination.

FORT WILLIAM, the 1st May 1876. H. Woodrow, Director of "nublic Instruction.

Rules for the award of Normal School Scholarships.

Young men of the age of 15 years and upwards, who passed the vernacular scholarship examination, may be admitted into normal schools without any further examination.

2. In the event of a sufficient number of admissions not being made under rule 1, it will be in the power of the head-master of the normal school, noting under the orders of the Director of Public Instruction and the Circle Inspector, to invite by public advertisement such candidates as may desire to be admitted, and to subject them to an examination of equal difficulty with that for vernacular scholarships.

3. The examination under rule 2 is to be held so soon, after the result of the vernacular scholarship examination is known, as may be most conducive to the benefit of the normal schools, and not later than the 1st February cach year. The annual examination will

ordinarily be held in December.

4. A limited number of normal school scholarships will be awarded to those students who most distinguish themselves at the annual examination in December. Such scholarships will be of the value of Rs. 3 a month cach; but a scholarship may be raised to Rs. 4 a month if the holder of it distinguishes himself in the examination of the following year. No normal school scholarship will be awarded to any student who shall not have studied at the normal school for at least one year.

5. Scholarships will be liable to forfeiture or reduction for misconduct or want of sufficient progress in study on the part of the holder, with the sanction of the Circle

Inspector.

6. Deductions from scholarships for absence from school shall be made in accordance

with the rules and practice of the Education Department.

7. The following allotment of scholarships for the first grade normal schools is sanctioned for the present:—

8. Scholarships not taken up at one normal school under these rules may be transferred to another normal school with the sanction of the Director of Public Instruction.

9. On the application of scholarship-holders, the Director of Public Instruction shall be competent to sanction the transfer of a scholarship-holder from one normal school to another; but such transfer will be sanctioned only upon very strong grounds, such as illness, removal of relatives, &c.

10. Students of normal schools who may not enter them as scholarship-holders shall be cligible for normal school scholarships if they acquit themselves creditably at the annual examinations of the normal schools. Those who actually hold vernacular scholarships will be allowed to retain their scholarships in addition to the normal school scholarships.

11. The head-master of cach first grade normal school shall forward, on or before the 1st March of every year, through the Circle Inspector, to the Director of Public Instruction the number of scholarships of each grade awarded to the scholars undergoing training in his school.

12. Scholarship-holders shall not be required to pay any tuition fees, but all other pupils of the pundit's department shall pay a fee of eight annas a month at Hooghly, Calcutta, Dacca, and Bauleah, and four annas a month at the five remaining schools.

FORT WILLIAM, the 1st May 1876.

ENDOWMENT FOR A SCHOLARSHIP BY BABOO LUCHMUN PRASAD GORGO:

GENERAL DEPARTMENT-EDUCATION-No. 1354.

Calcutta, the 8th May 1876.

I am directed to acknowledge the receipt of your letter No. 53, dated 4th May 1876, with enclosures, and in reply to say that the Lieutenant-Governor s pleased to accept the offer of Baboo Luchmun Prasad Gorgo to found a scholarship of Rs. 5 a month to be awarded to the best student of the Midnatore High School who fails to obtain a Government scholarship at the First Arts Examination.

2. I am to request you to convey to Babco Luchmun Prasad Gorgo the hanks of the Lieutenant-Governor for his liberality, and to say that the papers on the subject will be published in the next issue of the Gazette.

By order of the Lieutenant-Governor of Bengal,

H. H. RISLEY,

Acting Asst. Secy. to the Govt. of Bengal.

No. 53, dated Burdwan, the 4th May 1876.

From—H. A. Cockerell, Esq., Commissioner of the Burdwan Division, To—The Secretary to the Government of Bengal, General Department.

I HAVE the honor to submit copy of a letter No. 23, dated the 24th ultimo, rom the Magistrate of Midnapore, reporting the offer of a stipend of Rs. 5 a

month by Baboo Luchmun Prasad Gorgo, the zemindar of Mysadul, to be awarded to the best student of the Midnapore High School who fails to obtain a Government scholarship at the First Arts Examination.

2. I beg leave to recommend that the zemindar's offer be accepted, and a suitable acknowledgment made by Government of the foundation.

No. 23, dated Midnapore, the 24th April 1876.

From—H. L. Harrison, Esq., B.A., c.s., Vice-President, District School Committee, Midnapore,

To-The Commissioner of the Burdwan Division.

I have the honor to inform you that Baboo Luchmun Prasad Gorgo, the zemindar of Mysadul, has offered a stipend of Rs. 5 a month, tenable for two years, at an affiliated college teaching up to the B. A. degree standard, to be awarded to the best student of the Midnapore High School who passes the First Arts Examination, but fails to obtain a Government scholarship. The Baboo promises to invest for the purpose a sum of Rs. 2,000 stock in the Calcutta Municipal Debentures at 6 per cent. in the joint names of the Director of Public Instruction and the Collector of Midnapore, according to rule 10 of the rules for the guidance of the District School Committee. I beg therefore to recommend the acceptance of his offer, and request the favor of your obtaining the sanction of Government to the same, and also a suitable acknowledgment of the foundation.

| | 3 | Bankoora, | 99 | 6. | " | 64 | Weather—Occasional dust-storms, with one shower on the 4th instant. The rain was not general, but was of some use when it fell. A few cases of cholera still reported. |
| - | 3 | Beerbhoom, | •• | 6, | " | Nil. | Weather-Hot, with high winds from west and east alternately. Rain is much wanted for oil-seeds, vegetables, and indigo. |
| BUEDWAN DIVE. | 4 | Midnapore, | n | 6, | p | ·42 | Weather—Exceptionally high winds from sonth and sonth-east during the week. A good shower fell on Thursday night at the Sudder, and apparently there have been rain-storms during the week in other parts of the district. Want of rain is much felt, especially by indigo. The river in the beginning of the week was lower than has been known for years. |
| Bo | 5 | Hooghly, | 99 | 6, | ,, | ·31 | Weather—Very hot. Cloudy on the night of the 4th instant. Strong south wind throughout the week. A few drops of rain fell. Sugarcane plantings are over. Sowings of aous and arkur are at a stand-still from want of rain. The crops on the ground, such as October indigo, onions, cucumbers, &c., as well as mangoes, have been slightly injured from want of rain. A good shower of rain is greatly needed. Boro harvest is going on. Cucumbers, water-melous, and mangoes are being gathered. Cholera is abating. |
| { | | Howrab, |)) | 6, | " | 16 | Extraordinary high winds for the time of the year. Skies cloudy, with signs of rain, but hardly any rain has fallen notwithstanding. In this district the crops will be none the worse if no rain falls between this date and the middle of June next. |

| . | 6 | 24-Pergunnah | s, May | 8,† | '76 | -09 | Weather—Hot and windy. No crops on the ground. Rain is wanted. Cholera cases reported from Baraset, Barripore, and Satkhera. |
| REGE DIVE | 7 | Nnddes. | 39 | 6, | " | -07 | Weather—Hot, with strong winds. Rain is much required. Some of the lands sown will have to be resown. October indigo is doi g very well, hut want of rain stops the spring sowings. |
| Paketox | 8 | Jessore, | 99 | 16. | ** | -04 | Weather-Hot, with a strong gusty sonth wind. Rain is generally wanted. Rice, indigo, and til (oil-seed) are doing well. The spring rice has yielded a good ontturn. |
| Į | 9 | Moorehedabad | , ,, | 6, | ** | -4 | Weather—Intensely hot everywhere. The rainfall at Jnngypore has been 282 inches, but none at other sub-divisions. The sky was cloudy at Rampore Haut, and rain seemed probable. Tha rain where it fell has done good. Indigo and mulberry are well reported of. Prospects of crops are otherwise fair. Cholera has decreased. |
| DITE. | 10 | Dinagepore, | ,, | 5, | ** | Not enough to measure. | Weather—Cool and cloudy. Wind shifty, but mainly north-east. Probably showers of rain fell somewhere. Ploughing going on. Bhados rice, pat or juto, showing above ground, but late; sugarcane is fair. Cholera still in the district, but abating. Small-pox in several quarters. |
| RAJSHANTB DIVE. | 11 | Meldah, | 31 | 6, | " | Nil. | Weather—Great heat. Slight rain fell over a very small tract to the sonth-east. Rain again wanted badly. Mangoes, which promised exceedingly well, will be worth little without rain. Clouds gather daily, but disperse without a fall. Thirteen deaths from cholera. |
| - { | 12 | Rajshahya, |)1 | 6, | 39 | Nil. | Weather—Very unfavorable. It has been excessively hot. There has been a sontherly wind throughout the week, and though it has been generally clondy in the mornings, the clouds have been dispersed by the wind. There has been no rain. The long protracted dronght and the scorebing heat have put a stop to the sowing of the rice crops, and have injuriously affected the til and sessamum crops. The boro disas, however, is doing well. Heavy rain is much wanted, and if it does not soon fall, the prospects of the rice crops will be seriously affected. Cholera and small-pox have almost altogether disappeared. |

Things are much the same as last week, i.e., at present indigo promises well everywhere it the district. Cholera of a sporalic form has made its appearance, and cases of small-pox have also been reported. The requirements of those tracts of the Mudhoobunnee sub-division affected by last year's drought are being met. |
| | 80 | Mozufferpore, | ,, | 6, | ** | Nil. | Weather-Warm, with cast wind. Rain is much wanted, especially for Indig crop. Prices continue very low. |
| | 81 | Sarun, | ** | 6, | " | Nil | Weather—Hot and clear, with cast wind prevailing. No change in the state an prospects of the crops since last report. Kain is much wanted for indig cheena millet, and sugarcaue. Cases of cholera and small-pox have been reporte both from Sewan and the Sudiler sub-division, but the outbreak of the forme was only local, and has considerably abated. |
| | 82 | Champarun. | ,, | 5. | ,, | Nil. | No rain. The weather is very hot and close; constant east winds. More rain will be wanted shortly. At present the prospects of the crops are good. |
| | 33 | Monghyr, | " | 6, | ^ ,, | Plil. | Weather—Fsir, with high cast winds. No change since last week. Bhade sowings will commence with the first rain. The district is now in the eight month with only one shower—Prices continue unusually low, and the ryots find difficulty in selling their surplus grain for each. |
| 1 | 34 | Bliagulpore, | ,, | 8* | 74 | Nil. | A very severe nor-wester on the night of the 1st instant at Mudehpoorah an Scopole, with large hall and pleuty of rain, except in Bongong thans. Stron east winds. Weather like that of rains. All agricultural prospects are goo General health is very good. Small-pox and cholera less frequent. |
| | 35 | Purneah, | ,, | 6, | ,, | ·31 | Weather—Cool; strong east winds. Rain is still wanted. Some has fallen, but has been very partial. The sowing of the bhadoe is seriously retarded for war of it. Cholera is very prevalent in the north, but it is spreading westward. |
| | | Sonthal Pergha | . ,, | 7, | | •53 | Weather—Dust-storm followed by rain from the south on Friday. Itainfall Deoghur has been '15 inches. Nothing anywhere else. Wells and tanks vedry in Deoghur. Water is had. Indigo lately sown in Rajmehal is witherin Indian-corn is being sown on Desrah. Cholera and small-pox are still hanging about. |
| | 35 A. 37 | | April | 29, | '76 | Nil. | Weather—No rain in any part of the district. Some anxiety is felt, as the plong ing and sowing for the early rice crop is being retarded. Canal water is being leased more freely this year than last in consequence of the long-continu drought. Prices are still low, and show no signs of rising. Public health is fair good, with the exception of a little cholera here and there |
| - | 38 | Poorce, | ** | 4. | ,, | Nil. | Weather—Very hot. Rain is very urgently required for tillage. The harve- ing of the dulua paddy crop is nearly completed. The new sugarcane crop being planted. Cotton is in flower. Mangoes are ripening. Cholera is so raging in Pooree. |
| 1 | 39 | Balasore, | ,, | 5, | " | -55 | In the north and south of the district the ploughing has been checked for was of rain. Cholera has broken out with renewed virulence, though still sporad Small-pox also is occasionally futal. |
| но | AT | NAGPORE South-Wester | | onti | er | | Similar pod miso to occasionally facility |
| | 40 | Hazareebagh. | - | 5, | '76 | Nil. | Weather—Very hot. Winds variable, bringing up clouds which disperse, I change in the state and prospects of the crops to report, i.e., the motion or has been a full one. Rain is much wanted to comble the ryots to plough the land. Cholera is still reported from the interior of the district. |
| | 41 | Lnhardugga, |), | 6, | " | Traces only. | Weather-Very hot indeed. No ploughing is going on for want of rain, a consequently no crups to report about. Rain is urgently wanted, and if so does not fall soon, the consequences may be serious. |
| | 42 | Singbhoom, | 19 | 5, | ,, | Nil. | Weather—Seasonable. A dry north-west storm on the evening of the instant, and possibly some rain fell in the district, though none at head-quarte No crops to report about. The continued drought is drying up fast to pasturage, and renders it impossible to prepare any ground for cultivation, a agricultural prospects are altogether unfavorable. Choice has absted the mofussil, and no fresh cases in the station. |
| | 43 | Manlihoom, | 11 | 6, | ** | Nil. | Weather—Hot. Sugarcane plantings are poor. The little rice sown on hi ground has suffered from want of rain. There has been a little rain duri the week, though too late to include in this report. Ploughing has not commenced owing to the ground being is acd. The district is unhealthy, and un there be steady rain for some days, the Deputy Commissioner is afraid the present sickness in the district will continue. In Purulia it is fairly health but both man and beast are suffering from the continued drought in t mofussil. |

[•] Telegram of the 8th May, received on the same day, shows rainfall during the seven days immediately preceding.

The mean barometer, as likewise the dry and wet bulb thermometer means, are derived from the twenty-four hourly observations made during the day.

The dew-point is computed with the Greenwich constants. The figures in column 10 represent the humidity of the air, the complete saturation of which being taken at unity. The receiver of the lower rain-gauge is 1½ feet, and that of the anemometer 70 feet 10 inches above the level of the ground. The velocity of wind, as indicated by Robinson's anemometer, is registered from noon to noon.

The Calcutta Gazette.

WEDNESDAY, MAY 17, 1876.

PART IA.

Orders and Notifications by the Cobernment of India.

The following orders, issued by the Government of India in the Home Department, are republished for general information:—

No. 272.—Simla, the 2nd May 1876.—Appointments.—Notifications.—Establishments.—Mr. T. J. Murray, c.s., Assistant Commissioner of the 2nd Grade in Assam, to be Assistant Sceretary to the Chief Commissioner of Assam vice Captain H. J. Peet, who returns to his appointment in the 2nd Grade of Assistant Commissioners.

No. 280.—The 4th May 1876.—Mr. T. C. Mitchell, B.C.s., to be a Supernumerary Assistant Commissioner in British Burmah vice Mr. A. C. Bainbridge, deceased.

The following order, issued by the Government of India in the Foreign Department, is republished for general information:—

No. 1088 P.—Simla, the 5th May 1876.—Notification.—Political.—Subject to the confirmation of Her Majesty's Government, His Excellency the Viceroy and Governor-General in Council-is pleased to recognize the appointment of Mr. Richard Macallister, American Vice-Consul General at Calcutta, as in charge of the office of Consul General for the United States of America at Calcutta during the absence of Mr. Litchfield.

The following orders, issued by the Government of India in the Financial Department, are republished for general information:—

No. 44.—Simla, the 4th May 1876.—Leave and Allowances.—The daily travelling allowance of a public officer, while absent from his head-quarters on duty, is sometimes erroneously called Tentage. As confusion arises from this practice, the term "Tentage" should in future be applied only to an allowance made to enable an officer to provide tents, and not to any form of travelling allowance.

No. 34.—The 4th May 1876.—Pensions and Gratuities.—The Governor-General in Council directs that the Table printed as Appendix F to the Civil Pension Code be headed as follows:—

.Table A.—Calculation of present value of a monthly pension.

and that the following Note be added to the Table :-

[Note.—To calculate the amount of a temporary life annuity granted under Section 90A, the following formula will be employed:—

$$Y = 12 \left\{ \overline{A x - A x + n} \frac{D x + n}{D x} \right\}$$

y = amount payable monthly on account of annuity.

G = amount of gratuity.

x = agc last birth day.

n = number of years for which the annuity is payable.

A x and A x + n are the numbers shown in column headed "Adjusted value" opposite Age x and Age x + n respectively.

D x and D x + n are the numbers shown in column headed D x opposite Age x and Age x + n respectively.]

The Governor-General in Council directs that the following be inserted as Table B in Appendix F to the Civil Pension Code: -

Table B.—Shewing Monthly Payments, independent of any life, equal to a present Capital Payment.

No. 35.—The Governor-General in Council directs that the following be inserted as Section 90A in Chapter XIX of the Civil Pension Code :-

Section 90A.—A gratuity may, at the discretion of the Government of India. or, with the sanction of the Government of India, on the application of the recipient, be converted either to a life annuity, or to a temporary life annuity, or to an annuity payable for a certain number of years, with remainder to the recipient's heirs in case of his death.

The Governor-General in Council directs that the following be inserted as Rules 1 to 4

under Section 90A of the Civil Pension Code:-

1. The amount of a life annuity will be determined in accordance with the rates shown in Table A printed as Appendix.

2. The amount of a temporary life annuity will be determined by the formula given in

the Note to Table A in Appendix F.

3. In calculating the amount of an annuity for a fixed number of years, the Savings' Bank rate of interest will be employed. For the present that rate is 33 per cent.,—vide Table B in Appendix F.

4. The Government of India will never insist on the conversion of a gratuity into a life annuity, or temporary life annuity, unless the expectation of life of the recipient be

reported by competent medical authority to be equal to the average.

The Governor-General in Conneil directs that the following be inserted as a Note at the

end of the Rules under Section 90A of the Civil Pension Code:-

[Nors.-These Rules for the commutation of gratuities do not in any way modify the periods of service for pension required by the existing Rules.]

The Indian Law Reports.

Published under Authority.

THE first Part of the "Indian Law Reports," published under the authority of the Governor-General in Council, will appear as soon after the 1st January 1876 as can be arranged for. The Reports will appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and will comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court will be reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court will be reported in the Calcutta Series. The Parts of each Series can be had separately, or all four Parts can be had stitched into one wrapper at the option of subscribers and purchasers. It will be observed from the-following statement of the terms of subscription and sale, that a considerable reduction is allowed to persons taking the complete set.

Terms of subscription, payable annually in advance.

The mean barometer, as likewise the dry and wet bulb thermometer means, are derived from the twenty-four hourly observations made during the day.

The dew-point is computed with the Greenwich constants. The figures in column 10 represent the humidity of the air, the complete saturation of which being taken at unity. The receiver of the lower rain-gauge is 1½ feet, and that of the anemometer 70 feet 10 inches above the level of the ground. The velocity of wind, as indicated by Robinson's anemometer, is registered from noon to noon.

No. 171.—Notification.—The following rules, having reference to the Main Western Canal, first section; the Arrah Canal; the Buxar Canal, first section; the Main Eastern Canal, first section; and the Patna Canal, have been passed this day by the Lieutenant-Governor under the provisions of Sections XI and XII of the "Canals Act, 1864" (No. V, B.L.C.) :-

I. Every vessel, on entering any of the above canals, shall be liable to measurement for the purpose of ascertaining the amount of toll the vessel should pay according to the schedule of rates authorized by Government to be charged on the canal,

11. The tonuage of every vessel, whether laden or empty, shall, for the purposes of the "Canals Act, 1864," and of these rules, be determined by the following measurements:—

(a.) The product of half the length of the vessel, from stem to stern, measured

along the water line, multiplied by the interior greatest breadth of the vessel, multiplied by the depth from the water line to the bottom of the vessel, is to be taken as the number of maunds upon which toll shall be levied.

The measurement of the length is to be made in feet, fejecting inches, and the measurement of the breadth and depth in feet and quarters of feet, rejecting portions of

less than a quarter of a foot.

- (c.) In calculating the amount of toll to be levied on vessels exceeding 100 maunds tonnage, any fraction of 100 maunds less than 25 maunds is to be omitted; exceeding 2e and not exceeding 50 maunds, is to be charged as 25 maunds only; exceeding 50, and no, exceeding 75 maunds, to be charged as 50 maunds only; and exceeding 75 maunds as 75 maunds only. Above 1,000 maunds no fraction of 100 maunds tonnage is to be charged. Toll will be charged on vessels under 100 maunds tonnage on the actual measurements of the vessels, omitting fractions of tens of maunds.
- III. Every vessel entering any of the above canals shall be furnished with a ticket on paying the prescribed toll. The ticket shall specify the station at which it has been issued, the name of the person in charge of the vessel, the date the vessel entered the canal, the point to which it may proceed in the canal, the maundage of the vessel, the amount of toll charged, and the number of days for which the vessel may remain in the canal, and the date of such last day. The number of days which the vessel may remain in the canal without additional payment shall be calculated at the rate of one day for every eight miles, or portion of eight miles, to be traversed.
- IV. Toll may be paid at the first station, either for the entire number of toll-stations on the line of navigation, or for any less number of stations.
- V. The tickets thus given may be demanded for inspection by any duly authorized canal officer, and must be kept on board and at hand for that purpose. They must be shown at each toll-station the vessel has to pass, as a passport that no further payment of toll is to be demanded. The tickets shall be delivered up at the last toll-station.
- VI. Owners of vessels may compound by the payment of a fixed sum for the use of the whole or a portion of any of the above canals for any period that may be agreed upon, not exceeding one year. Each vessel so compounded for shall be furnished with a ticket showing the amount of toll paid, the period for which the toll has been compounded for, and the limits of the canal within which the vessel may pass; such ticket shall be kept on board the vessel, and shall be produced when required under rule V, but shall be given up only on the date of the expiry of the period for which granted, and at the station from whence issued.
- VII. Duplicates of lost tickets, of which the numbers and the dates of entry can be satisfactorily established, will be granted by officers in charge of toll-stations on payment of a fee of one rupec.
- VIII. Vessels remaining in the canals for a period exceeding that allowed under rule III will pay a demurrage of eight annas per 100 maunds per diem for each day or part of a day that they may remain in excess.
- IX. No boats above 18 feet beam over all, and no rafts or floats of more than 10 feet width and 150 in length, will be allowed to cuter the canals.
- X. It will not be compulsory for the locks to be opened to single vessels of less than 500 maunds burden, except in the case of mail or despatch boats; but the locks shall be opened for the passage of boats at least twice a day.
- XI. Vessels must have their masts fitted so that they can be let down with ease and speed; and when under sail, vessels must always keep in the middle of the canal. When being tracked, vessels are, as far as practicable, to keep to their port or left side of the canals.
- XII. All vessels anchoring at night are to keep to their port or left bank of the canals.
- XIII. Only one vessel shall be allowed to make fast along and in a line with the canal banks, and no vessel shall be made fast, or be placed outside of vessels so secured, without the permission of a canal officer. No vessels shall, however, be placed in such a position as to endanger the safety of other vessels, to obstruct their passage, or to impede the navigation; and no bamboos or poles shall be allowed to be erected on vessels when at anchor. Any infringement of this rule will be punishable by a fine not exceeding Rs. 5 for each offence.
- XIV. Every vessel when put to shall be securely fastened, and shall at all times have some person in attendance on board of it. Any infringement of this rule will be punishable by a fine not exceeding Rs. 5 for each offence.
- XV. In every case of wreck or obstruction of the channel by sunken vessels, the canal officers may call upon the person in charge of the vessel to remove the same without delay, and shall give every reasonable assistance towards so doing. But should the owner of the vessel or raft be not forthcoming, or should he not use reasonable expedition in removing the obstruction, or should he decline or fail to use proper assistance which may be offered to him by the canal officers, these officers may undertake the removal of the obstruction themselves at the cost of the owner of the boat, recovering the expense in the manner laid down in Section IX of the "Canals Act, 1864."
- XVI. If the canal officers be unable to ascertain the name and place of business or of abode of the owner of the cargo of any vessel or boat seized under the "Canals Act," he shall notify the seizure in the most public manner available.
- XVII. In the event of any damage or injury being occasioned to the canal works by wilfulness or negligence on the part of any person in charge of a vessel, the canal officers may detain the vessel within the canal for a period not exceeding 24 hours: provided that

within that period the canal officers shall lodge a complaint against such person in charge of the vessel before a Magistrate under Section XVI of the "Canals Act."

- XVIII. The banks or berms of the canals shall not be used as wharves for the deposit of goods, under a penalty of Rs. 10 for each offence; but, except in special cases, when the permission of the canal officers will be necessary, all articles shall be removed to the outer banks of the canals, and all such articles as shall not be finally removed from within the boundaries of the canals within a period of six days after being so deposited shall be liable to the charge of four annas per 100 maunds.
- XIX. The canals may be closed once a year for effecting the necessary repairs to them, on one month's notice of the intention so to close them; but in the event of any sudden emergency, the canals may be closed at any time without prior notice, and no claim shall be made in such case by owners of vessels or others for compensation on account of detention.
- XX. All officnces against the provisions of these rules shall be punishable as provided for in Section XVIII of the "Canals Act, 1864," and all fines imposed may be recovered in the manner mentioned in Section XVII of the same Act.
- XXI. The term "caual officers" in the foregoing rules shall include the persons alluded to in Section VIII of the "Canals Act, 1864," and any other persons who may be specially appointed to exercise such powers by the person appointed to collect the tolls.
- No. 172.—Declaration Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the public expense for a public purpose, viz. for enlarging the compound of bungalow No. 12, in mouzah Aspara, pergunnah Masaurah, zillah Patua, it is hereby declared that for the above purpose a plot of land measuring 1 rood and 2 poles, more or less, adjoining the bungalow compound aforesaid of the 62nd mile of the Patua Branch Canal as marked out by the Irrigation Branch of the Public Works Department, is required within the aforesaid village of Aspara, pergunnah Masaurah, zillah Patua.

The land plan of the above strip may be seen in the Office of the Assistant Engineer

at Bikram between the Office hours every day (Sundays and other holidays excepted).

This declaration is made under the provisions of Section 6 of Act X of 1870 to all whom it may concern.

EDUCATIONAL NOTICES.

Rules for the Examination of Candidates for Vernacular Masterships in Bengal.

1. Candidates for vernacular masterships may present themselves for examination at any first grade normal school.

2. The examination shall be held in December every year, concurrently with the annual examination of the normal schools of the first grade, and the same papers of questions that are set to the students of the normal schools shall be set to the candidates for masterships.

- 3. The examination shall be conducted in three different standards of study corresponding to the three years' course of the normal schools, and all candidates that pass shall be arranged in three grades, each grade having the sub-division of high, medium, and low, according to the proficiency of the candidates.
- 4. A candidate who obtains 60 per cent. of the total marks and upwards shall be entitled to a certificate of high proficiency in each grade; one who obtains 45 per cent. and less than 60 per cent. shall have a medium certificate; and one who obtains 33 per cent. and less than 45 per cent. shall have a low proficiency certificate.
- less than 45 per cent. shall have a low proficiency certificate.

 5. No vernacular master shall, after January 1877, be appointed to the head vernacular mastership of any middle-class school who cannot produce a certificate of having passed the teachership examination in the first grade without the special sanction of the Circle Inspector.

6. Candidates who pass in the second and third grades shall be eligible to assistant vernacular masterships in middle schools, and to all vernacular teacherships in lower schools and girls' schools.

- 7. Candidates who desire to appear at the examination must send in to the head-master of any first gravie normal school, or the Deputy Inspector of his district, an application containing the following particulars on or before the 1st of October each year:—
 - (1.) His name.
 - (2.) Ilis age.
 - (3.) His father's name.
 - (4.) Residence (i.e., village, district, &c.).
 - (5.) Normal school where he wishes to be examined.
 (6.) Grade of teachership for which he is a caudidate.
 - (7.) Certificates as to character and antecedents.
- 8. No fee will be charged to any candidate for the examination for the present, but it will be in the power of the Circle Inspector to refuse admission to any candidate whose antecedents may appear objectionable.
- 9. No candidate who is below 16 or above 35 years of age shall be eligible to the examination.

FORT WILLIAM, the 1st May 1876. H. Woodrow, Director of Public Instruction.

Rules for the award of Normal School Scholarships.

Young men of the age of 15 years and upwards, who passed the vernacular scholarship examination, may be admitted into normal schools without any further examination.

2. In the event of a sufficient number of admissions not being made under rule 1, it will be in the power of the head-master of the normal school, acting under the orders of the Director of Public Instruction and the Circle Inspector, to invite by public advertisement such candidates as may desire to be admitted, and to subject them to an examination of equal difficulty with that for vernacular scholarships.

3. The examination under rule 2 is to be held so soon, after the result of the vernacul lar scholarship examination is known, as may be most conducive to the benefit of the normaschools, and not later than the 1st February each year. The annual examination will ordinarily be held in December.

- 4. A limited number of normal school scholarships will be awarded to those students who most distinguish themselves at the annual examination in December. Such scholarships will be of the value of Rs. 3 a month each; but a scholarship may be raised to Rs. 4 a month if the holder of it distinguishes himself in the examination of the following year. No normal school scholarship will be awarded to any student who shall not have studied at the normal school for at least one year.
- 5. Scholarships will be liable to forfeiture or reduction for misconduct or want of sufficient progress in study on the part of the holder, with the sanction of the Circle Inspector.
- Deductions from scholarships for abscuce from school shall be made in accordance with the rules and practice of the Education Department.
- 7. The following allotment of scholarships for the first grade normal schools is sanctioned for the present :-

ROAD CESS COLLECTIONS DURING 1874-75.

REVENUE DEPARTMENT.-LOCAL TAXATION.

Calcutta, the 23rd May 1876. RESOLUTION.

READ-

A letter from the Board of Revenue, No. 201A., dated the 31st March 1876, submitting two statements of the demands, collections, and balances of road cess for the cess year 1874-75, ending on the 30th September 1875.

Or the two statements submitted with this letter, the first gives the results of the cess upon lands and mines, and the second those of the cess upon houses. The valuations for each district, and the rates at which the cess was levied, have been given, as well as the totals in each statement.

2. In two districts in which the valuations have been completed, Hooghly and Burdwan, the collection of the cess was suspended during the year in consequence of the representations of the local authorities that, owing to deficiencies in the crops for several years in succession, the people were in a condition in which the levy of the cess would be attended with great hardship and inconvenience. The collections shown opposite to the Hooghly district in statement No. I are on account of lands appertaining to estates borne on the towjih of the district of Hooghly, but locally situated within other districts.

3. The total demand on account of the cess upon lands and mines was Rs. 10,05,960, of which Rs 75,453 were for arrears of the year 1873-74, and Rs. 9,30,507 were the demand of the current year 1874-75. Of the arrear demand, Rs. 67,965, and of the current demand, Rs. 8,45,488, making a total of Rs. 9,13,453, were collected within the year. The collections thus amounted to 90.81 per cent., and the outstanding balance is Rs. 92,507, a result which the Lieutenant-Governor accepts as satisfactory, though it is

observed that the uncollected balance is in excess of the arrears of the previous year. The percentage, however, of the collections on the demand shows a marked improvement, it having been 81.16 in 1873-74.

- 4. Excluding Hooghly, the figures for which are of an exceptional character, the returns given in statement No. I show that the cess was collected in eighteen districts; in eleven of these the full rate was levied, in two districts the rate was three-fourths of the full rate, and in the remaining five districts the rate was one-half of a full rate. These five districts were the three Orissa districts, and the districts of Monghyr and Bhagulpore. It might have been expected that in these five districts the percentage of collections would be higher than in others; and this has been the case in Pooree, where the whole of the demand has been realized. But in Cuttack the percentage of collections amounted to only 84.33, and in Balasore to only 80.31. Next to Pooree, the district which shows the most satisfactory percentage is Tipperah, where the full rate was levied, and 99.23 per cent. of the demand was realized. The most unfavorable return is that from Moorshedabad, in which district the collections were only 79.80 per cent. of the demand.
- 5. The Member in charge observes that the principal difficulty in collecting the cess is found to be in the realization of the demand on account of lakheraj lands. In the case of valid lakheraj tenures this difficulty will be removed if the Bill for the registration of possessory titles shall become law. But it is remarked that the difficulty is still greater in the case of invalid lakheraj lands, and the Lieutenant-Governor would ask to be favored with some further particulars showing the exact nature of the difficulty which has been felt in dealing with these lands. If the lands have been omitted from the schedules, no demand on account of them will have been made, and consequently the non-realization of the cess from them will not affect the percentage of collections; if, on the other hand, they have been included in the zemindar's return, the Collector has to look to the zemindar, and not to the lakherajdar, for the payment of the cess.
- 6. The statement regarding the cess upon houses under Part IV of the Act gives results which are not so satisfactory as those of the cess upon lands. The arrears of 1873-74 were Rs. 13,275, and the demand of the current year was Rs. 67,084, making a total demand of Rs. 80,359, of which only Rs. 55,633 were collected, giving a percentage of about 69.3 on the total demand. It is explained that this unfavorable result is owing to the variations arising from the poverty, deaths, or evasion of the house-holders. But the Lieutenant-Governor observes that this explanation does not appear sufficient to account for such cases as that of Bankoora, in which the collections of house cess were only 3.41 per cent. of the demand.
- 7. Pooree was the only district in which the full amount of the demand on account of house cess was collected. But there seems reason to think that this result has been attained by an undue limitation of the demand, as the total amount of the demand was only Rs. 33, and it is difficult to believe that even at half rates this amount can adequately represent the cess payable in a district with three quarters of a million of inhabitants. The percentage of collections in Hazareebagh (99.69), Tipperah (92.84), and Bhagulpore (91.71), was satisfactory; while the most unfavorable returns are those from Bankoora, Balasore, Rajshahye, and Beerbhoom.
- 8. The Lieutenant-Governor observes with satisfaction that though the report refers to difficulties which have been met with in the collection of the road cess, there is an absence of complaints on the part of those from whom it is levied, and he accepts this as showing that the realization of the cess has been carried out with moderation and discretion. The thanks of Government are due to the Member in charge, Mr. Schalch, for his efficient supervision of this branch of the Land Revenue Administration.

By order of the Lieutenant-Governor of Bengal,

OPERATIONS OF THE OPIUM AGENCIES DURING 1874-75.

REVENUE DEPARTMENT.—MIS. REVENUE. Calcutta, the 23rd May 1876.

READ-

A letter No. 290B, dated 17th April 1876, from the Secretary to the Board of Revenue, submitting the reports of the Opium Agents of Behar and Benares on the operations of the Agencies during the season 1874-75.

The total number of beeghas under poppy cultivation in the Behar and Benares Agencies during the year 1874-75 was 869,666, which yielded an outturn of 98,178-25-24 maunds of opium. An opium beegha contains 3,015 square yards, or about five-eighths of an acre. The following table shows the extent of land devoted to opium cultivation, its outturn, and the average produce per beegha in each of the opium divisions during the year 1874-75.

The extent of land under opium cultivation, the outturn, and the average produce per beeglia in the Behar and Benares Agencies during the past five years is as follows:—

3. It will thus be observed that in the past year, with an increase of cultivation, there was a decrease of outturn in both the Opium Agencies. The

results of the season will be briefly considered in detail.

4. Behar Agency.—The entire cultivation of this Agency, south of the Ganges, is irrigated. In the Sarun district, north of the Ganges, nearly the whole cultivation is under irrigation; but in the Tirhoot and Chumparun districts nearly two-thirds of the cultivation is unirrigated. The increase in cultivation during the year under review amounts to about 100,000 acres, and is almost entirely in the unirrigated districts. There was no decrease in cultivation in any of the districts. There was, however, a decrease in the produce, the average yield per beegha being 4 seers 10 chittacks, against 5 seers 15 chittacks in 1873-74. On the whole, then, the season was not a favourable one.

5. The outturn of the Chota Nagpore Sub-Agency amounts to only 265 maunds, and the proportion of produce per beeglia is only 2 seers 2 chittacks. This Sub-Agency was established in 1869-70, since which year the production

and cultivation have been as follows:-

| | | | YEA | RS. | | | | | Cultivation per beeglas. | Produce. | Proluc been | eo per fin. |

| 1874-75 | | | • | ••• | ••• | ••• | ••• | • | 4,887 | 265 | | |

The season at its close is reported to have been especially unfavourable in Chota Nagpore, but it is noteworthy that in no subsequent season has the proportion of outturn been so considerable as it was in that of the first season of this Sub-Agency. The Agent has been requested, when he next visits Chota Nagpore, to enquire into and report fully on the question of the permanent retention of this Sub-Agency.

6. The Robinee factory in the Monghyr district, which has yielded an increase of eleven chests as compared with 1873-74, will be retained for another

year, in compliance with the recommendation of the Board of Revenue.

7. It is explained that no manuring advances were made during the season under review, the reasons being, firstly, that manure cannot be procured cheaply or in sufficient quantity; secondly, that such manure as is available is always used by the cultivators in the fields near their homesteads; and thirdly, that there are no means of ascertaining that such advances would be made use of in the manner required. As a ryot does not cultivate his poppy land under a long agreement, there is a probability that his manured lands would be taken up by the landlord for the cultivation of indigo and other crops. The Sub-Deputy Opium Agents have unanimously expressed their opinion that manure advances should not be made.

8. The experimental sowings during the season were confined to seed selected by Mr. Scott, Curator of the Botanical Gardens, now on special duty in the Opium Department. The experiments were not made in as complete a manner as they might have been. In seven instances only out of twenty-two was the produce of seed supplied by Mr. Scott larger than the yield from the ordinary seed. During the present season it is hoped that the experiments

will be conducted on a more eareful plan.

9. The experiments in Persian and Malwa seeds have been discontinued, as they were not attended with success. The result of an interchange of seeds hetween the sister agencies of Behar and Benares, and, in the case of Behar, of a further interchange between the districts lying north and south of the Ganges, was at first attended with greater success. The first success has not, however, been repeated, and the results have not answered expectations. It was accordingly recommended by the Agent of the Behar Agency that the interchange of seeds should be confined within the several districts of the

Agency, and it was suggested that as Shahabad seed appeared to give the best results and to be preferred by the ryots, that seed from that district should be collected for special distribution among the cultivators. The results reported correspond also with those attained by Mr. Scott. In his reports on the experimental cultivation of the poppy; Mr. Scott has carefully noted the results of several instances of sowings of Benares seed on Behar soil, from which it appears that the plant raised therefrom has invariably turned out a poor drug-producer. Under these circumstances, the recommendations of the Agent have been approved, and Government has passed orders directing the abandonment of Benares seed in Behar, and a more general distribution of seed of the Shahabad district.

10. Mr. Scott has submitted elaborate reports on the experimental culture of the opium poppy for the seasons ending with the 15th April 1874 and 31st May 1875 respectively. He has since been desired to prepare a short practical treatise on the subject, devoid of scientific terms, showing the results of his operations and the conclusions derived therefrom; and also setting forth, in the form of rules or instructions, what steps should be taken at each stage of cultivation and under varying conditions, with full explanations of any changes that it may be necessary to introduce. On receipt of this treatise the desir-

ability of continuing the experiments longer will be considered.

11. The practice which was in force before the year 1870, and which has been since revived, of sanctioning an expenditure in each agency for presenting shawls and turbans, &c., to such of the principal cultivators as may be considered deserving the distinction, yields satisfactory results. Rs. 10,000 are now annually sanctioned for this purpose in each agency. The proposal to grant a bonus of Rs. 10 for each maund of opium produced in excess of the estimate framed at the beginning of the year was only sanctioned on a very limited scale, and as there were objections to continuing this experiment it has been discontinued.

In the chapter on opium in the last annual administration report, it was stated that the Lieutenant-Governor had found himself unable to sanction the proposal of the Board of Revenue to abandon and dispose of the steam saw-mills attached to the Behar Opium Agency for the manufacture of packing chests. The Lieutenant-Governor was of opinion that every effort should be made to work the mills up to their full power, and that, if properly worked, the mills could not fail to pay. The issue has fully borne out these expectations, and it is observed that in the past year the outturn of work has been greater than it was before, while at the same time there has been a considerable decrease in the cost of each chest manufactured by the The Opium Agent at Patna reports that the saw-mills saw-mills. this year have been worked in a very satisfactory manner, and that they should certainly be retained. It was also proposed by the Board to substitute mangoe-wood for sal-wood chests; but a difficulty has always existed in getting a sufficient supply of mangoe-wood, and it is not probable that this wood will be always available. Dr. Durant, the Principal Assistant at the Behar Agency, shows clearly in his report the objections to using mangoe-wood exclusively for opium chests.

13. Benares Agency.—The land under cultivation in the Benares Agency is almost all irrigated; only about 11,000 beeghas, mostly in the district of Goruckpore, are unirrigated. The actual cultivation in 1874-75, deducting the lands in which the sowings failed, came to 359,353 beeghas. This is an increase of nearly 40,000 beeghas over the cultivation of the previous year; but there was a considerable decrease in the produce, the average outturn per beegha being only 4 seers 6½ chittacks, compared with 5 seers 3½ chittacks in 1873-74. The crop, which had promised very luxuriantly, was injured by violent hail-

storms in February.

14. It was proposed in 1871 by the Chief Commissioner of Oudh, as a remedy against the consumption of illicit opium, that opium of 80° consistency should be supplied at a reduced price in place of the present excise opium, which is at 90° consistency. After much consultation and discussion, the preparation of 80° consistency opium and its sale for Rs. 14 a seer was at length authorized, the reduction in the selling price being regulated by the

reduction in intrinsic value caused by lowering the consistency. The experiment was carried on during the past year on a small scale in Oudh. It has not, however, so far met with favour, and it is said that the public does not appreciate the change. The Lieutenant-Governor will await a separate report from the Board of Revenue regarding the continuance of the experiment.

15. The reports of all the Sub-Deputy Agents in the Benares Agency show that the system of granting rewards is favourably regarded by the

cultivators, and has had the desired encouraging effect.

- 16. The experimental sowings with Behar seed, even though that seed was procured from the Shahabad district, have not turned out favourably; nor has the special seed supplied from Mr. Scott's garden at Bankipore yielded such good results as the local indigenous seed. On the other hand, the results of the selection of poppy capsules for seed purposes on a plan recommended by Mr. Scott have turned out very satisfactorily. The practice, which is said already to exist among experienced cultivators, should be made more general.
- 17. Mr. R. Abercrombie, the late Opium Agent at Behar, retired from Government service at the close of the past season, after a tenure of office as Opium Agent extending over ten years. Mr. C. F. Carnac similarly resigned his appointment at the Benares Agency on the 15th March 1875, after having been Agent for eight years. The services rendered to Government by both these experienced officers have frequently been recognized, and the Lieutenant-Governor is glad again to have this opportunity of testifying to the zeal and ability with which they have always administered the affairs of the Opium Department. Their successors, Mr. H. Rivet-Carnac at Ghazipore, and Mr. H. W. Alexander at Bankipore, have assiduously entered upon their new duties.
- 18. The Principal Assistants, Dr. Sheppard and Dr. Durant, continue to merit the acknowledgments of Government. In particular the Government and the public are indebted to Dr. Sheppard for his labour in connection with the preparation of morphia and narcotine at the Ghazipore factory. Dr. Sheppard's labours have at last been attended with complete success, and there is now a steady demand for morphia from all three presidencies, while, financially speaking, it is estimated that the saving to Government during the last five years has been considerable.
- 19. Mr. Alexander had not been sufficiently long in charge of his appointment to be able to bring the names of his subordinates who had done specially well to the notice of Government. The Lieutenant-Governor is glad to acknowledge the services of the following officers, who are specially mentioned by Mr. Rivett-Carnac as deserving of favourable notice:—

Sub-Deputy Opium Agents.

Assistant Sub-Deputy Opium Agents.

Mr. A. Turnbull.

" Anderson.

" Armstrong.

" Gennoe.

" Campbell.

" Ridsdale.

Mr. Francis.
, Lloyd.
, Bean.
, Luard.
, H. Hastings.
, R. A. H. Russell.
, A. Bryson.
, A. Osborne.
, Parrott.

20. The thanks of Government are due to Mr. Money for the ability and care with which he has continued to supervise this most important department of the administration.

By order of the Lieutenant-Governor of Bengal,

H. J. S. COTTON,

Junior Secy. to the Govi. of Bengal.

NOTE.

Wind Resultant.—The resultant wind direction and its comparative predominance are calculated from the whole number of wind observations recorded during the month. The relative predominance in the direction of the resultant is given as a percentage of the whole number of observations. The direction is computed in the usual way by Lambert's formula.

Cloud.—This column gives the average proportion of clouded sky, a cloudless sky being indicated by 0, and one completely overcast by 10.

CALCUTTA,
The 20th May 1876.

Henry F. Blanford,

Meteorological Reporter to the Govt. of India,
in charge of the Meteorological Office, Bengal.

The mean harometer, as likewise the dry and wet bulb thermometer means, are derived from the twenty-four hourly observations made during the day.

The dew-point is computed with the Greenwich constants. The figures in column 10 represent the humidity of the air, the complete saturation of which being taken at unity. The receiver of the lower rain-gauge is 1½ feet, and that of the anemometer 70 feet 10 inches above the level of the ground. The velocity of wind, as indicated by Robinson's anemometer, is registered from noon to noon.

| | 40 | Hazareebagh, | May | 19, | '76 | 1.05 | Weather—Intensely warm. No erops on the ground. The little rain that he fallen has not been of any appreciable benefit, as it was insufficient to softer the ground. Cholera is still prevalent. |
| | 41 | Lohardugga, | • | 20, | " | ·52 | Weather—Very hot. More rain is still urgently required for ploughing and sowing. The recent fall of rain is quite insufficient, and it has been only partial, as in some parts of the Sudder sub-division there has been no rain, and none has been reported in the whole of the Palamow sub-division. Small pox is still prevalent at Palamow. There have been a few more cases of cholera Public health is otherwise good. |
| | 43 | Singbhoom, | p | 19, | " | 1.24 | Weather—Seasonable. Things are very much more cheerful, as rain has faller everywhere in the district, and the people are able now to prepare their lands Siekness is also reported to be less. |
| | 43 | Manbhoom, | ** | 20, | " | *85 | Weather—More rain is wanted. There has been a little rain with storms at Purulia, but not enough for purposes of cultivation. In the west and south of the district sufficient rain has fallen for present purposes, but from the north of the district reports are bad on the whole. It may be said if rain falls soon—and there are indications of it—all will be so far well, though the gors dhas will be short. Sugarcane plants have dried up in places. Cholera is raging in the northern pergunnahs of the district. |

[•] Telegram of the 23nd May, received on the same day, shows rainfall during the seven days immediately preceding.

RESTRAINT OF INTEMPERANCE AMONG THE SONTHALS.

Minute by the Lieutenant-Governor of Bengal, dated the 27th May 1876.

The subject of intemperance among the Sonthals has for some time past been causing anxiety to the Government of Bengal. The Sonthals in Sonthalia proper constitute a population of 1½ million, inhabiting an area of 5,510 square miles. And the questions relating to intemperance which affect them must equally affect the Sonthals who dwell in the districts of the Chutia Nagpore province which adjoin Sonthalia, and in some degree also other aboriginal races who resemble the Sonthals in habits and disposition.

2. Recently a memorial was presented to Government by several Reverend Missionaries,—whose benevolence, local experience, and devotion to the best juterests of the people entitle their opinion to great weight,—describing the vils of intemperance among these people, and urging the Government to adopt remedial measures. Thereupon enquiries were made from them through the Commissioner regarding the particulars of this intemperance—specially as to what kind of drink is, and what is not, largely or chiefly consumed—and regarding the measures which could or could not, in their opinion, be adopted by the Government.

- 3. The following is an abstract of their replies. The Revd. Mr. Brown does not think the evil quite so great as has been represented, or that it is any worse now than formerly. He would prohibit home-brewing, and would set up Government breweries, to which people should be allowed to bring their rice to be turned into beer. The Revd. Mr. Cole thinks private brewing might be stopped, just as private distilling has been effectually put down; he also advocates Government breweries, and says that, if the people are prevented from getting rice-beer, they will take to drinking spirits. The Revd. Mr. Stark's conclusions and recommendations are of much the same kind. The Revd. Messrs. Boerresen and Skrefsrud repeat their former statements in even stronger terms than in their memorial. They would prohibit all home-brewing, shut up all the "pachwai" or rice-beer shops, let the people drink spirits if they will drink, but make spirits so dear that hardly any one will be able to buy them.
- 4. Now, as regards licensed shops, it is clear that the local authorities have, with the entire approval of Government, done very much to check drinking and to lessen facilities for buying drink, as is proved by the figures given below:—

| | | | 1879-73. | 1873-74. | 1871-75. | 1875-76. |
|----------------------|-----|-----|----------|----------|----------|----------|
| Country-spirit shops | ••• | ••• | 532 | 469 | 409 | 207 |
| Pachwai shops | ••• | ••• | 113 | 98 | 58 | 35 |

- 5. The result of these figures seems to me to be satisfactory. If necessary, a further diminution can be carried out, especially in the neighbourhood of Christian villages, the inhabitants of which are opposed to drinking. If in such neighbourhood there still remain any shop, whether for the sale of country-spirits or of beer, I desire that it be immediately closed on objection being made.
- 6. The fact remains, however, that the drinking is not so much of country-spirits nor of pachwai beer sold at licensed shops, but chiefly of the home-brewed rice-beer called "pachwai" or "handia." While the distillation of spirit other than under regulation is strictly prohibited, which prohibition is fully obeyed, the brewing of beer from rice for consumption at home, and not for sale, is permitted without restriction, the permission dating so far back as 1835. It is certain that the Sonthals drink very little of distilled spirits or of rice-beer purchased at the licensed shops. But they do drink very much of the home-brewed rice-beer at all seasons habitually, and at some seasons to such an extent as to cause long-sustained inebriation among the mass of the people for days, even for weeks, consecutively.

7. The Commissioner (Mr. G. N. Barlow, c.s.i.,) remarks:—

- "I think the ventilation of the present discussion has established one thing clearly, viz.—that it is the privilege of home-brewing pachwai that is held by all alike to be the prominent cause of Southal drunkenness. The existing country-spirit system escapes criticism in the later replies of the missionaries, when it is not spoken of in terms almost of commendation on account of the restrictive effect of its operation. Even Messrs. Boerrosen and Skrofsrud, who in paragraph 8 of this memorial dated 22nd December 18.7 spoke in severe terms of the over-numerous spirit-shops in their neighbourhood, now advocate the abolition of pachwai brewing and the delegation of the Sonthals to country-spirit shops, to obtain what liquor they require, on the grounds that "although they now and then could buy country-spirit, still the shops would be at sufficient distances as to provent it becoming a daily occurrence; and besides, they could neither get it on credit, nor for anything but hard cash;" and again—
 "from what we know of the Sonthals, there would be no fear of their taking to excessively drinking country-liquor, for besides the already-mentioned obstacles for so doing, its great expensiveness would be a safe-grand against it. When country-spirits were prevalent, there was very little drunkenness amongst, the Sonthals." I do not mention this matter because I have any intention of departing from the policy laid down by Government in your No. 762, dated 30th March 1874, viz. that the excessive uses of fermented liquors amongst the Sonthals should be checked; Government revenue-being even sacrificed, if necessary, to save the people. I am acting now in accordance with such view, and shall continue to do so; but I wish clearly to indicate that the ground has been somewhat changed, and the distinct question is now the withdrawal of the indulgence accorded to the Sonthals of home-brewing pachwai."
- 8. There is much truth in the Commissioner's remarks. And no doubt the benevolent gentlemen who interest themselves in the welfare of the Sonthals are quite right in passing by the question of the spirit-shops and the licensed beer-shops, and in concentrating attention on the larger and more important

question of the home-brewing. Doubtless the evil of the unrestricted consumption of the home-brewed nice-beer is very great among the Sonthals; it probably is not growing greater than it was, but it is as great as ever. If continued, it must affect very injuriously not only the physique, but the character and qualities of the race: inter alia it must render them irritable and excitable, and difficult to manage in an administrative and political point of view. On higher considerations, however, the evil now asserted by so many competent witnesses to exist, and the existence of which is admitted by the local officers, is such as a civilized Government, having the responsibilities which we have in regard to the people, cannot tolerate, and must seek to mitigate or to prevent, so far as such mitigation or prevention may be possible. There remains the question as to how a remedy may be possible at the present time.

9. The Reverend Missionaries, in the main, recommend the entire prohibition of the home-brewing of rice-beer. The Commissioner and the local officers (with only one exception) earnestly deprecate this: they doubt whether it could be enforced; or if it could, then they apprehend that the enforcement would bring a fresh class of serious evils into existence. I must say at once that looking to the present circumstances of Sonthalia, and to the several administrative measures which are now being carried out there, I am not at all prepared to announce or enforce any such general prohibition. On the other hand, I am not prepared to be content with expressing in general terms a regret that such an evil should exist, and a hope that it may remedy itself during the

progress of society. Something practical must be attempted.

10. I think that Government must make it clearly understood, both by the local officers and by the people themselves, that this excessive drinking of homebrewed rice-beer is a very serious evil, which must be remedied sooner or later. The other races of Bengal do not indulge in this vice: neither can the Sonthals be allowed to do so. And the Sonthals must be clearly made to comprehend this. Whatever may be thought or said to the contrary, the Sonthals have a feeling of fear and respect for the commands of the Government. And the knowledge that the Government is fully aware of the prevailing drunkenness, condemns the evil, and purposes to mitigate or to prevent it, so far as possible, will per se have some effect. But this is not enough. The Commissioner should instruct the local officers to send for the various headmen of pergunnahs, of circles of villages, and of villages, and to concert with them measures for restricting the excessive consumption of the rice-beer. men must well know that the Sonthals are the worse cultivators, the worse tenants, the worse woodmen, the worse traders, for all this inebriation. And their co-operation can, more or less, be reckoned upon. *Imprimis*, they must be made to set a good example, and they must understand that hard drinking will be held to be a disqualification for the office of headman of any grade, whether of a village or of a circle of villages. It is probable that in the first instance the Sonthals will be induced to agree to some restriction or diminution of the brewing and the consumption. Much will depend on tact and management on the part of the local officers in obtaining such agreement, and in ensuring its being acted upon to some extent. Full reliance cannot, of course, be placed upon voluntary agreements in such a case as this. And thereafter, when the people shall have become accustomed to a partial restriction carried out with their own co-operation, and when their moral sense shall have been roused to its necessity, it may become quite feasible to render the restriction authoritatively absolute. When the way shall have been paved for it by degrees, the people may hereafter be induced to accept it. Meanwhile, the endeavours, made in consultation and concert with the people themselves, will have practically shown in detail the particular shape which the restriction should tiltimately take. I therefore urgently commend this matter to the ear-nest attention of the Commissioner and his officers.

11. Among other things, it is remarkable that the practice of early marriages, (which is not among the original institutions of the Sonthals) is taking root among these people. And as hard drinking always forms a part of their marriage festivals, the vice of intemperance is being taught to the young, especially to the girls. The admonitions of the local authorities should be

directed to some social reform in this respect.

Though the local officers have hardly any police or other district establishments through whose agency reforms can be carried out; yet they have a special advantage in the presence of the Reverend Missionaries, who are constantly touring about among the villages during the cold season. The Missionaries should be asked to be good enough to report to the nearest local officer any extraordinary case of drunkenness which they meet with, especially cases where whole villages are found drunk for days together.

12. Education, if it were effectually to spread among the peasantry, would indirectly do much in the way of prevention. Primary education in Sonthalia, as elsewhere, is to be constantly encouraged. And in every Sonthal school an appropriate ethical treatise must be used, showing the evils of intemperance: so that the coming generation of Sonthals may be brought up in a dread of this vice. The attention of the Director of Public Instruction will be drawn to

this point.

13. I trust that the Commissioner and the local officers, perceiving the importance of the matter to the welfare of the Sonthals, will apply themselves to it with real earnestness, and that the result of their endeavours will be the social advancement of an interesting race, whose frankness, courage, and energy have always won for them the respect of Europeans, whose skill, industry, and diligence in reclaiming waste, subduing the jungle, and colonizing distant provinces have rendered them valuable as an element in the power and resources of the country generally.

RICHARD TEMPLE.

RESOLUTION ON THE POLICE ADMINISTRATION OF THE TOWN OF CALCUTTA AND ITS SUBURBS FOR THE YEAR 1875.

POLICE.

Darjeeling, the 29th May 1876.

READ-

The Annual Report on the Police Administration of the town of Calcutta, and its suburbs, for the year 1875.

The administration of the police in the town and suburbs of Calcutta during the year 1875 was fairly successful. Although the total number of offences reported exceeded that of the previous year by 114 cases, this increase is shown to have occurred in offences of a petty character under local and special laws, while, as regards serious crime, punishable under the Penal Code and cognizable by the police, there was a large decrease of 983 offences. This decrease is specially marked under the head of offences affecting property, which, as well as offences against the person, were fewer than during the previous year. No extensive robbery took place by night either in the European or native quarter of the town throughout the year, nor was a single grave act of violence committed in the public streets. As compared with the previous year also there was a decrease of 1,413 in the number of persons summoned or arrested; and the percentage of persons convicted to those arrested shows that heinous offences were dealt with by the police with more than average success.

2. The following table exhibits the number of cognizable and non-cognizable offences reported in the town and suburbs during the past four years:—

| | | | 1873. | 1873. | 1874. | 1878. |
|---------|-------|-----|--------|--------|--------|--------|
| Town | ••• | | 38,879 | 39,169 | 29,833 | 30,528 |
| Suburbs | ••• | ••• | 8,659 | 9,153 | 7,821 | 7,240 |
| | Total | | 47,538 | 48,322 | 37,654 | 37,768 |
| | | | | | | |

The improvement which was observed in the statistics of 1874 has been sustained during the year under review.

Distinguishing cognizable from non-cognizable crime, and miscellaneous offences from offences punishable under the Penal Code, the comparative results of police action for the years 1874 and 1875 were as follows:—

| | | | Cognizable. | | Non-Co | | |
|--------------------------------|--------------|-----|----------------|--------------------|------------------------|------------------|--------------------------|
| | | | Penal Code. | Miscellaneous. | Penal Code. | Miscellaneous. | _ Total. |
| Cases reported | 1874 1875 | | 6,706 5,723 | . 11,912 13,365 | 5,957 6, 085 | 13,079 12,595 | 37,654 37,768 |
| Persons summoned for arrested. | 1072 | ••• | 6,418 5,339 | 15,618 17,201 | 6,467 6,045 | 9,840 8,845 | 38,343 36, 930 |
| Persons convicted { | 1075 | | 3,405 2,685 | 8,312 8,448 | 3,775 4,314 | 9,032 7,345 | 24,524 22,792 |

As during the previous year, the proportion of persons convicted to those who appeared before the courts charged with non-cognizable offences under miscellaneous Acts is favorable, and shows that good discretion was exercised in instituting prosecutions under those Acts; but the Lieutenant-Governor regrets to observe that the proportion of persons acquitted to those shown to have been arrested by the police in miscellaneous cognizable offences still continues to be very large, and is much in excess of the previous year. This is becoming a serious matter, regarding which the Lieutenant-Governor will presently make further remark.

8. The total number of cases and persons dealt with in the courts of the Police Magistrates of Calcutta, and the results, are abstracted in the following table:—

| , | , | Number of cases instituted. | Total number of persons put on trial. | Acquitted. | Convicted. | Committed. |
|----------|-------|-----------------------------|---------------------------------------|--------------|----------------|------------|
| Southern | | 5,729 8,071 | 7,451 7,616 | 1,501 662 | 5,821 6,953 | |
| | Total | 13,800 | 15,067 | 2,163 | 12,774 | 187 |

Comparing these figures with those of the previous year, they show an increase of 1,530 cases, which has chiefly occurred in the Southern Division, with an increase of 58 only in the number of persons brought to trial. The results also are more favorable, as 86 per cent. of the persons placed on trial were either convicted or committed as against 83 per cent. in 1874.

Cognizable crime. Town.—In Calcutta serious offences, both against person and property, have fallen from 222 to 179; but there has been an increase in the total number of cognizable offences which were accepted as true, the number being 14,894 as against 13,561 in 1874. The case of trading in defaced Government stamps was one of considerable importance. The Lieutenant-Governor observes with satisfaction that the offender was convicted, and that Sir Stuart Hogg is able to bear favorable testimony to the zeal and ability with which. Mr. J. B. Roberts and Superintendent Lamb labored to bring the offender to justice. Only one petty case of rioting was reported. Of offences against the person, 279 cases were reported as against 281. There were three murders against two in 1874 and seven Convictions were obtained in two cases: in the third, the in 1873. difficulties in the way of detection were almost insuperable. The Lieutenant-Governor would have been glad to have received some explanation of the large increase (nearly 50 per cent.) in cases of hurt, as 123 cases were reported under this head in 1875 as against 87 in 1874. Offences against property, on the other hand, decreased in number from 3,705 to 3,055. Burglaries and attempts at burglary show satisfactory decrease from 170 to 103. This result, the Lieutenant-Governor notices, has been attributed by Mr. Dickens, Magistrate of the Northern Division, to the vigilance of the police employed on night patrol. The action of the police also in these cases was successful, convictions having been obtained in 30 cases. There is perhaps no class of offence which in all countries presents such difficulties to successful detection as burglary; and the Lieutenant-Governor considers that the Calcutta Police have shown creditable results both in the prevention and detection of this crime. Convictions were obtained in 32 per cent. of the theft cases reported, and property valued at Rs. 35,410 was recovered out of a total value of Rs. 93,686 said to have been stolen. The Lieutenant-Governor concurs with the Commissioner in absolving the police from blame for failure to detect the majority of thefts by servants. The practice of hiring utter strangers as servants, and giving them access to the valuables of the house, is understood to be too prevalent in Calcutta; and the police cannot be held answerable for all the results which ensue. It is noticeable, however, that not a single theft of importance was reported to have occurred in houses occupied by Europeans.

5. Turning to the heading of miscellaneous cognizable offences, the Lieutenant-Governor observes that an increase of 1,453 cases has been attended by an increase of 136 only in the number of convictions obtained. This, doubly unsatisfactory result is generally attributable to three causes: (1) the continuance of the practice of summary arrest by the police for miscellaneous offences in the streets; (2) the serious indiscretion evidenced by the results of the action of the police in arresting persons suspected of possessing stolen property; and (3) the very large number of persons arrested under the Contagious Diseases' Act who were subsequently discharged by the Deputy Commissioner. The first subject was prominently noticed in the Resolution on the

report for 1874; and the Lieutenant-Governor must therefore express his dissatisfaction at the results, as the number of persons thus arrested has only decreased from 4,675 in 1874 to 4,184 in 1875, and of these no less than 1,135 were discharged without trial. The Lieutenant-Governor is willing to suppose that in most of these cases the commission of the offence was established, and that the offender was discharged with a warning by the Deputy Commissioner; but a short period of police custody, and appearance before the Deputy Commissioner, is not a recognized punishment under the law; and it is evident that a very large number of persons were needlessly arrested. The Lieutenant-Governor has recently had occasion to point out the danger of hardship to individuals which this tendency to indiscriminate arrest involves, and he must now insist on the observance of the rule laid down in the Resolution on the report for 1874, viz. that the police should be permitted to resort to arrest in these petry cases only in instances where the offence is committed in their view, and the name of the offender is unknown and cannot be ascertained. The great majority of these cases should therefore be entered under non-cognizable crime in future reports. Of 563 persons arrested in the town with property suspected to be stolen, all were subsequently discharged by the police. In no case, apparently, were sufficient grounds found to exist for placing any of the persons thus arrested before the Magistrate. These results are far from creditable to the police. They have not been explained by the Commissioner, but demand his immediate attention; for such a general and injudicious exercise of the powers of arrest must have been attended by much individual hardship to innocent persons, and is calculated to render the police an object of apprehension and distrust to the public. Again, of 4,954 persons arrested under the Contagious Diseases' Act, no less than 4,749 were discharged by the Deputy Commissioner. In reviewing the report on the working of this Act during the past year, the necessity which exists for more vigorous action in dealing with established offences against the law has been already pointed The Lieutenant-Governor is confident that, if flagrant offenders were more frequently prosecuted and punished by the Magistrates, there would be fewer offences and fewer occasions for arrest. Sir Kichard Temple trusts that the Commissioner will be able to show a marked diminution of unnecessary arrests under each of the heads above noticed in the report of the current

6. Cognizable crime. Suburbs.—The returns show a large and satisfactory decrease of crime in the suburbs, which is noticeable under each head except that of minor offences against the person. In all, 2,845 cognizable cases only were accepted as true against 3,179 in 1874; offences punishable under the Penal Code decreased from 1,685 to 1,259; while the number of persons convicted rose from 757 to 804. In burglary cases, however, the action of the police was far from successful. Only 26 cases were detected out of 120 reported, and only property of the value of Rs. 223 was recovered out of the total value of Rs. 4,777 reported to have been stolen. In theft cases the results were better, success attending the investigation of 314 out of 783 true cases. The result of the enquiry in the case of the theft of the jewels of His Highness the Maharajah of Travancore was particularly creditable, and the action of Inspector Kalinath Bose has already met with an appropriate reward under the orders of the Supreme Government. In the suburbs, as in the town, the statistics of miscellaneous cognizable crime again point to injudicious or ignerant action on the part of the police, more than half of the total number of

persons arrested having been discharged without trial.

7. Non-cognizable crime.—Reported crime under this denomination shows a decrease in the number of cases both in the town and in the suburbs. The only case that calls for remark is that of the swindler Dundas, who was

cleverly followed up by Inspector Reid, and arrested in Bhopal.

8. Shipping Act.—The Lieutenant-Governor observes with much concern that convictions under this Act rose from 247 in 1874 to 319 in 1875. As the matter is obviously one of increasing importance, the Lieutenant-Governor would have been glad to have received any remarks which the Commissioner of Police or the Magistrate of the Southern Division might have had to offer on the subject, as well as some details of the cases, and explanations, if any.

of the increase. The question of the survey of cargo vessels, which is intimately connected with this subject, and was referred to in the Resolution of the previous year, is, it is understood, included in a measure now under the consideration of the Imperial Legislature.

- 9. Arms' Act.—The Lieutenant-Governor accepts Sir Stuart Hogg's assurance that the rules in force under the Arms' Act have worked well, securing, on the one hand, complete control over all transactions connected with the trade in arms, and, on the other, causing no inconvenience to such trade in its legitimate branches. The figures given show a moderate increase of all fire-arms as compared with 1874, but a large decrease as compared with the importations of the two previous years. There is considerable weight in the observations of the Commissioner regarding the seemingly imperfect gauge which the inland transport figures give of the actual quantity of arms and ammunition imported into the provinces beyond the north-western frontier of Bengal. These figures, as well as the Commissioner's remarks on the subject, will be duly brought to the notice of the Government of India.
- 10. Fires.—It is satisfactory to note that no extensively destructive fire broke out during the year. It is observed that 11 out of the 16 fires which occurred in the suburbs happened during January and February. In only five cases, however, did the conflagration last beyond one hour; and as they were all fairly distributed over the different sections, there seems to be no reason to suppose that their origin was other than accidental.
- 11. Strength, cost, constitution, &c., of the force.—No change was made in the strength or cost of the Town or River Police during the year. In the suburbs reductions were made in the salaries of officers, and in the number of constables, under a scheme previously approved by Government. The number of dismissals continues to show a satisfactory decrease. On the whole, the conduct of the force, with the exception of the European sergeants and constables, appears to have improved. The Lieutenant-Governor, however, regrets to observe that it was found necessary to fine so many as 507 constables. He would prefer to see offenders subjected to extra drill, or to some other punishment not involving loss of stipend. The Lieutenant-Governor is glad to observe that some advance continues to be made in raising the number of Bengali constables in the force. The superiority of up-country constables over Bengalis for purposes of watch and ward is undoubted; but the attempt to procure intelligent Bengali recruits, who will submit to discipline, is of vital importance to increasing the popularity as well as the efficiency of the force, and the Lieutenant-Governor desires that it may not be relaxed.
- 12. Old offenders.—The registers of previous convictions appear to have been compiled with care, and the movements of noted bad characters have been attentively watched. Twenty-four habitual thieves were committed to the High Court, and severely punished. This, however, indicates but little improvement in the proceedings of the Magistrates in dealing with such offenders. With reference to the remarks contained in the Resolution of the previous year, the Lieutenant-Governor regrets to observe that no less than 259 old offenders were summarily convicted by the Magistrates, and that of these no less than 48 were thieves or burglars who had been previously convicted four times or more. In the absence of any explanation on this point, the Lieutenant-Governor is unable to say whether the police are to blame for not proving former convictions before the Magistrates, or the Magistrates for not committing the offenders to the higher tribunal. His Honor desires that a special report may be submitted on this subject, with particular reference to the remarks recorded on this head in the Resolution on the last report.
- 13. As already remarked, the results of the past year are on the whole satisfactory, and indicate fair progress and improvement in the prevention and detection of heinous crime; the lower grades of the police, however, have much to learn. In dealing with them, the issue of general orders, which necessarily leaves much to a discretion which they are not in a position to exercise, must be avoided. They are fully capable, however, of receiving all the simple instruction which is necessary, and means must be adopted to make them understand their legitimate duties and powers, and the responsibilities which they incur by exceeding these powers in making unnecessary and

indiscriminate arrests. It so often happens that orders, in themselves good, are spoilt by the thoughtless execution of them by individual policemen; and the fault is too often attributable to their want of respect and consideration for the people with whom they come in contact. The Lieutenant-Governor cannot but think that this fault would be mitigated at least, perhaps even disappear, if the superior officers of the police would carefully instruct their men in

regard to this.

Sir Richard Temple will not let this opportunity pass of again impressing on the Metropolitan Police generally (what he has so often urged upon them in particular cases or on special occasions) the importance of exercising their functions in a considerate manner towards the people. urban population is not troublesome nor unmanageable; on the contrary, it is quiet, orderly, and law-abiding. There is not therefore any real excuse for off-hand rudeness, roughness, or violent demeanour on the part of the police. There have, the Lieutenant-Governor is sorry to observe, been recently two somewhat flagrant cases in point, in one of which the police were quite wrong, while in the other case the occurrences originated in a somewhat uncalled for and questionable proceeding on the part of a policeman. The Lieutenant-Governor earnestly hopes that he may hear no more of such cases occuring; if he does, however, he will be obliged to make an example, if the affair is traceable to a mistake on the part of the police. He is glad to think, however, that on one important occasion, namely the visit of His Royal Highness the Prince of Wales, the general bearing of the police towards the crowds and multitudes was tolerably conciliatory and considerate. He hopes that this judicious behaviour will be at least maintained on all occasions habitually, and perhaps even carried further still. It is unsatisfactory to see the people pushed and knocked about unnecessarily.

15. During the year the Metropolitan Police specially distinguished themselves in the varied arrangements which had to be made during the visit of His Royal Highness the Prince of Wales to Calcutta. The good service

rendered by them on that occasion has been separately acknowledged.

16. In conclusion, the Lieutenant-Governor has to express his thanks to Sir Stuart Hogg, and to Mr. Lambert, the Deputy Commissioner, for the zeal and ability with which they have supervised the administration of the police in the town and suburbs during the past year. The Lieutenant-Governor also desires that an expression of his approbation may be conveyed to the subordinate officers who have discharged their duties in an efficient manner.

By order of the Lieutenant-Governor of Bengal, R. L. MANGLES, Offg. Secy. to the Govt. of Bengal.

RESOLUTION REGARDING THE ESTABLISHMENT OF A HIGH SCHOOL AT CHITTAGONG.

GENERAL DEPARTMENT—EDUCATION—No. 1514.

Calcutta, the 26th May 1876.

READ-

- The Minute of the Lieutenant-Governor of Bengal, dated the 80th August 1975, on additional colleges and high schools in the Lower Provinces.
- A letter from the Commissioner of Chittagong, No. 74, dated the 16th March 1876, reporting the receipt of a donation of Rs. 10,000, given by Baboo Goluck Chunder Chowdhry a zemindar of the Chittagong district, for the establishment of a high school at Chittagong, and for the furtherance of other works of public utility.
- A letter from the Director of Public Instruction, No. 2457, dated the 9th May 1876, reporting upon the proposals made for the expenditure of Baboo Goluck Chunder Chowdhry's douation.

In the Minute of the 30th August 1875, the Lieutenant-Governor reviewed the existing provision for the highest kind of education in the provinces under the Government of Bengal, and explained to what extent, and in what manner, he was prepared to assist the foundation of high schools and

colleges in those localities in which such institutions appear to be most urgently required. Among other suggestions it was remarked, that some time ago an attempt had been made to raise the zillah school at Chittagong into a high school, but that the experiment had been unsuccessful. In view of the fact that at present students of Chittagong, who desire to go through the course of study for an University degree, must either cross the sea to Calcutta, or must travel up the river to Dacca, the Lieutenant-Governor proposed that another trial should be made to raise the zillah to the status of a high school, at a cost of Rs. 7,500 for the two years, on condition that six students were forthcoming for the first year class, and that one-third of the cost, that is Rs. 2,500, were contributed by fees and private subscriptions. If these conditions were fulfilled, the Lieutenant-Governor expressed his willingness to grant the remaining sum of Rs. 5,000 from Government funds.

- 2. The Commissioner of Chittagong has now reported that Baboo Goluck Chunder Chowdhry, a leading zemindar of the Chittagong district, has placed at the disposal of the Magistrate, the munificent donation of Rs. 10,000, of which he desires that Rs. 2,500 may be devoted to the foundation of a high school at Chittagong, in accordance with the scheme proposed by the Lieutenant-Governor, and the remainder to the carrying out of other educational and sanitary improvements in the district of Chittagong.
- 3. The Lieutenant-Governor has much pleasure in accepting the allotment for the establishment of the high school, and he desires to return his cordial thanks to the benevolent donor, and to express a hope that the gift may fructify for the lasting good of the Chittagong district. The Director of Public Instruction will now be requested to make the necessary arrangements, in communication with the Commissioner and the Circle Inspector, for opening a first year class at the Chittagong zillah school, which will henceforth be known as the Chittagong high school. It would be the Lieutenant-Governor's wish that Baboo Goluck Chunder Chowdhry should be consulted as to the teachers to be appointed to the high school. The actual opening of the class must, according to the conditions laid down in the Minute, be contingent upon there being at least six boys to enter it: but the Lieutenant-Governor trusts that there will be no difficulty in obtaining this number of students from the schools in the Chittagong division, which teach up to the standard of the University Entrance Examination.
- 4. As regards the remaining sum of Rs. 7,500, the Lieutenant-Governor recognizes the usefulness of the objects to which the Magistrate has recommended that the money should be appropriated, and it would be Sir Richard Temple's desire to see that the wishes of the liberal donor should be fully carried out. But it has been suggested to the Lieutenant-Governor that this balance, or some considerable part of it, would be most usefully expended in the endowment of scholarships in the middle and intermediate schools of the district. These scholarships would bear the founder's name, and would be a permanent monument of his liberality.
- 5. The Licutenant-Governor is inclined to think that this suggestion deserves consideration, as there is no doubt that the state of the middle schools in Chittagong is not altogether satisfactory, and might be much improved if assistance and encouragement were given to these institutions. The Lieutenant-Governor would accordingly request the Commissioner to draw up, in communication with the Director of Public Instruction, the details of a plan by which this balance could be made available for the endowment of such scholarships as have been referred to above; and then to ascertain the wishes of Baboo Goluck Chunder Chowdhry upon this particular point. The Lieutenant-Governor does not doubt that the Baboo has the best interests of the district at heart, and that he will be ready to assent to any scheme by which it can be shewn that the greatest benefit will be reaped from the donation he has so generously made.

By order of the Lieutenant-Governor of Bengal,

H. J. REYNOLDS,
Offg. Secy. to the Gost. of Bengal.

SCHOOLS FOR EUROPEANS AND EAST INDIANS IN THE MOFUSSIL.

GENERAL DEPARTMENT—EDUCATION—No. 1529. Calcutta, the 29th May 1867.

READ-

The Minute by the Lieutenant-Governor of Bengal, dated the 18th May 1875, on the education of the poorer classes of Europeans and East Indians in the interior of the Provinces under the Government of Bengal.

Oircular Order of this Government in the General Department (Education), dated the 21st February 1876, calling on the Commissioners of Divisions to report what action had been taken to carry out the orders conveyed in the above Minute.

The replies of the Divisional Commissioners to the above Circular.

A letter No. 410, dated the 8th April 1876, from the Venerable the Archdescon of Calcutta, enclosing a report on the educational requirements of European and East Indian children in the stations of Dacca, Hooghly, and Cuttack.

As a year has now elapsed since the issue of the Minute of the 18th May 1875, the Lieutenant-Governor desires to take this opportunity of explaining what has been done to carry out the orders of the Minute, what proposals are still under consideration, and in what localities further assistance appears to be most urgently required.

2. The additional aid which has been given during the year to advance

European education in the mofussil has been as follows:—

In the Rajshahye Division, the Government grant to St. Paul's School at Darjeeling has been raised from Rs. 238 to Rs. 400 per month, and an arrangement has been made with the Committee of the school by which the school fees have been reduced from Rs. 40 to Rs. 25, so as to bring the advantages of this Institution within the reach of a much larger class of the community. The Lieutenant-Governor is glad to learn that the numbers of the school had already risen in January last from 37 to 60, and were still increasing. It is expected that the opening of the Northern Bengal Railway will add considerably to the number of pupils in the school.

A grant of Rs. 200 per month has also been made to a school at Darjeeling for European girls, which has been established by the Diocesan Board of

Education.

3. In the Presidency Division a grant of Rs. 30 per month has been

made to a new school for boys at Barrackpore.

A grant of Rs. 30 per month has also been made to Mrs. Walters' School (a mixed school for boys and girls) at Rampore Haut in the district of Moorshedabad.

4. In the Burdwan Division a new school has been established at Howrah by the exertions of the Revd. D. B. Morris, the Chaplain of the station. To this school the Government has made a donation of Rs. 1,000 towards meeting preliminary expenses, and has also given a school-house rent free, and has made a grant of Rs. 30 per month to the school.

5. In the Patna Division a grant of Rs. 89 per month has been made to the school at Buxar in Shahabad. A grant of Rs. 50 per month has also

been made to the Dinapore school.

6. In the Bhagulpore Division the grant to St. Mary's School at Jamalpore in the Monghyr district has been raised from Rs. 80 to Rs. 185 per

7. It is to be understood that these donations and grants have been made in addition to the amount previously devoted to European education in the mofussil, and also that, in this review, no mention is made of the measures which have been taken in Calcutta, as the question of the requirements of European children in Calcutta has formed the subject of a separate Minute.

8. It is next to be considered what further assistance is proposed or required to be given. Upon this point the Government has lately been favoured with a letter, which is appended to this Resolution, from the Venerable the Archdeacon of Calcutta, setting forth the educational necessities of the stations of Dacca, Hooghly, and Cuttack. The Lieutenant-Governor desires to return his cordial thanks to Archdeacon Baly for his careful and interesting report.

- When the Venerable Archdeacon visited Dacca, he found two schools there for European children—one kept by Miss Cowan, the other by Mr. and Mrs. Vyse. The former of these was under the Diocesan Board of Education and had no grant from Government. It was closed at the end of February last, having been found to be not suitably established: apparently the fees were fixed at too high a sum. Mr. Vyse's school has 54 pupils, and receives a grant from Government of Rs. 90 per month. Further experience is required to show whether this school is likely to be permanently successful: at present it is doing much useful work, and there appears to be a strong local feeling against the establishment of any rival school. Out of 115 children of school-going age in Dacca, Archdeacon Baly found 85 at school and 30 not at school. Under these circumstances, the requirements of Dacca do not appear to be pressing; and the Licutenant-Governor is disposed to assent to the recommendation of the Venerable Archdeacon that a further trial should be allowed to Mr. Vyse's school, and that Government should at present make no attempt to establish a second school at Dacca.
- 10. With Hooghly, Archdeacon Baly has grouped Chinsurah and Chandernagore, and he found altogether 68 children of school-going age in these three stations. But the statistics are confessedly incomplete, as the Roman Catholic children at Chandernagore have been omitted, and no account is taken of the convent school at that station, though it is probably attended by some Protestant children. It is also open to question whether the British Government is under any obligation to assist education in the settlement of Chandernagore. But, taking Hooghly and Chinsurah together, it appears that they contain 39 children of a school-going age, and that there is only one school attended by 11 young children, some of whom are Native Christians. The Archdeacon recommends the reconstitution of this school, and a grant of Rs. 50 per month to it from Government.
- 11. It is observed that the Archdeacon has not noticed the Hooghly College and Collegiate School, which appear by the latest returns to contain several Christian students, though whether these are Native Christians or Europeans is not stated. The return furnished by the Commissioner gives 18 as the number of children at school in Hooghly and Chinsurah, and 37 as the number not at school.
- 12. Whichever of these returns may be accepted as correct, the Lieutenant-Governor is of opinion that there are good grounds for reorganizing the school in the manner suggested by the Venerable Archdeacon, and he desires that the necessary steps for this purpose may be at once taken by the Director of Public Instruction. The Hooghly School Committee should be invited to make the necessary grant of Rs. 50; but if their funds are all appropriated, the amount can be provided for the present year from general educational savings.
- 13. The Venerable Archdeacon visited Cuttack in January 1876, and he has furnished a detailed and valuable report on the condition of European education there. He found the number of children of school-going age to be 233, of whom only 62 were at school. But these figures include 68 children in the 41st Madras Native Infantry, and it would appear that the great majority at least of these must be Native Christians, and not Europeans or East Indians. The regiment, moreover, has lately been removed from the station. However, even if these children are excluded, there remain 103 children of school-going years who do not attend any school. Of these, 34 are of a higher class, and require a good preparatory school, and 69 want a good local school in which they might complete their education.
- 14. There is a school, known as the Cuttack Christian School, under the management of a Committee, of which the Chaplain is Secretary, and conducted by a master and mistress. It receives a Government grant of Rs. 64 a month, and contains 25 children. Archdeacon Baly desires to reorganize this school in the form of a good boarding school, with a Government capitation grant of Rs. 2-8 per head, estimated to amount to Rs. 225 per month. He hopes to get 80 pupils, paying 1 rupee each, of whom 10 will be boarders, and will pay a further sum of Rs. 20 each for their board. He would raise the salaries of the master and mistress, and would employ an assistant master and assistant mistress in addition to the present staff.

The scheme, in its main features, is similar to one which was propounded last year by the Commissioner of the Division, though it involves a smaller expense to Government. The Commissioner's proposals were eventually disallowed, on the ground that the estimated local receipts were insufficient to justify the grant of so large a sum as was asked for. And, from a reference to the correspondence which then passed between the local authorities and the Government, it appears probable that Archdeacon Baly has somewhat under-estimated the expenditure which will be required to bring the scheme into operation. However this may be, the Lieutenant-Governor acknowledges the necessity for some further effort being made to improve European education at Cuttack, and he is willing to give the capitation grant asked for of Rs. 2-8 per head, and to grant an equivalent from public funds of all moneys subscribed for building. The Director of Public Instruction will be requested, in communication with the Committee of the school, to arrange for the re-constitution of the school in the manner proposed in the report of the Venerable Archdeacon. It may be hoped that the Diocesan Board will be able to make a grant in assistance of this useful project.

16. Of the remaining proposals which are still under the consideration of Government, one relates to the establishment at Darjeeling of a lower-class boarding school for children whose parents are unable to afford the expense of their education at St. Paul's School. The need for such a school is not of immediate urgency, and further experience is required to show how far the recent reduction of the fees at St. Paul's School will render it unnecessary to establish a lower-class institution. The Lieutenant-Governor will give this

proposal his further consideration hereafter.

17. A plan has also been suggested by the Inspector of Schools, Behar Circle, for the establishment at Jamalpore in the Monghyr district of a large central boarding-school for Behar, to which the other schools in that province might serve as feeders. Mr. Croft hopes that the East Indian Railway Company would co-operate in the formation of such a school, and he estimates that the cost to Government would be Rs. 900 per month, including the grant of Rs. 185 now given to the present school. Looking to the returns of the number of European children of school-going age in Behar, the Lieutenant-Governor is compelled to feel some doubt whether the school has not been designed on a larger scale than is adapted to the actual requirements of the province. He therefore thinks it desirable that the aid of Government should be afforded in the form of a capitation grant rather than of a fixed contribution; and he will be prepared to give a capitation grant of Rs. 2-8 per head to any school which may be founded at Jamalpore on the plan proposed by the Inspector. The Director of Public Instruction will be requested to ascertain whether the Railway Company will be willing to co-operate in the establishment of this school.

18. The replies of the several Commissioners to the Circular of the 21st February 1876 appear to show that no urgent want for increased school accommodation for European children is felt in other parts of the Lower Provinces than those which have already been referred to; but the Lieutenant-Governor will be glad to receive the further report promised by the Venerable the Archdeacon on the schools at Khagoul, Assensole, Dinapore, Patna, and

Ranecgunge.

19. In concluding this review, the Lieutenant-Governor desires to remark that the results already attained, though falling short of what he had hoped for when recording his Minute of the 18th May 1875, do yet show some progress in the desired direction, and the orders embedied in the present Resolution will, it may be hoped, do something more to supply the necessities which are felt. Sir Richard Temple desires to reiterate the determination which he has already expressed, to give all the aid he can to every sound and practical scheme which may be submitted for the consideration of Government.

By order of the Lieutenant-Governor of Bengal, H. J. REYNOLDS, Offg. Secy. to the Goot. of Bengal. No. 410, dated Calcutta, the 8th April 1876.

From-The VEN'BLE J. BALY, Archdescon of Calcutta,

To-The Secretary to the Government of Bengal, General Dept.

I have the honor to submit, for the consideration of the Government of Bengal, a report as to the education requirements of European and Enrasian children in the stations of Cuttack, Dacca, Chinsurah (Hooghly), and Chandernagore. Schools, or rather the improvement of existing schools, are much needed in all these stations, as in none of them is there a school capable of imparting to boys of the middle classes such an education as will enable them to get their own living on a level with their parents' class.

Khagaul, Assensole, Dinapore, Patna, Raneegunge, I was hindered from visiting by the unexpected death of the Bishop of Calcutta; but I hope at some future time to submit to His Honor the Lientenant-Governor a report on the educational requirements and their

supply at these places.

The scale of fees ranges from 4 annas to Re. 1.

As the Master and Mistress live in the school-house and use the servants, their united salaries are really Rs. 132-8.

(2) Character of school-

Subjects taught are reading, writing, arithmetic, geography, English grammar, dictation, religious knowledge.

I examined the schools, January 19th and 20th. There were three classes, viz.—
1st, consisting of 2, a boy and girl, 14 years of age.

2nd, ditto 10 boys and girls from 8 to 12; but one girl, the most ignorant, aged 15.

3rd, ditto 13 ditto ditto 6 to 7 years of age.

First Class.—Reading, fair; dictation, good; meanings of English words, fair; writing, poor; arithmetic, boy professed vulgar fractions, but could only work compound division—girl worked a sum in compound addition with only one mistake; geography, very had; Gospel history, fair; catechism, unknown—only one boy could repeat the Creed and knew the number of the Commandments.

Second Class.—Reading, words of two syllables read with fair correctness, but standard below the level of their age; writing, bad; dictation, fair for elder half of the class, very bad for the younger; geography, almost unknown; arithmetic, not beyond the multiplication tables, and that imperfectly known by half the class; Gospel history, fair; catechism, none; with two or three exceptions, all could repeat the Lord's Prayer imperfectly and unintelligently, but none could say the "Grace of our Lord."

Third Class .- Just learning alphabet and to spell out words of one syllable.

B. Roman Catholic School, has 10 boys, 19 girls; total 29. Not examined by me; but judging from one or two specimens of its pupils, the education given is lower even than in school A. The children are very poor.

C. Baptist Mission School, has only three Eurasian boys. A good school for native boys; but as instruction is given in Corya, unsuited for Europeans.

D. Government High School, was not examined by me. I could only hear of one

European boy, the son of a Portuguese or East Indian, attending.

i. c. there are, or were in January 1876, 203 in Cuttack of school-going years, of whom 171 attend no school.

Note.

(1) I was most careful in ascertaining the correctness of the data as to the number of children, collecting several returns, making enquiries from several independent sources, and calling on a large number of the parents. I have a nominal list of all the children, and the profession and religion of the parents, so that I am sure that the numbers are correctly stated; the only point on which I am not quite certain is whether some of the regimental children (of bandsmen and drummers), who are principally Roman Catholic. did not attend the Roman Catholic school when their own regimental school was closed.

(2) Since my visit Mr. and Mrs. Browne have left the school, and Mr. and Mrs.

Harcourt, formerly at Howrah, have replaced them.

(3) There can be no doubt that there should be a good school for Europeans at Cuttack, of the same character as the Calcutta Martinière or the Allahabad High School. There is no European school in the whole province; so that a Government school with boarding accommodation would probably receive other children than those in Cuttack and the immediate district. Cuttack is also isolated with a large number of children of its own, and the journey from Cuttack to Calcutta is both difficult and expensive. The result of this is shown in the fact that only 4 out of 233 children are scut to boarding-schools.

(4) The cost of a good school I should estimate at Rs. 500, on this scale of receipt and expenditure :-

| Receipts. | | Expenditure. | | |
|------------------------------|-----|----------------------------|-----|-----|
| • | Rs. | • | | Rs. |
| Eighty pupils, at Rc. 1 each | 80 | Head-Master | ••• | 120 |
| Local contributions | 60 | Assistunt Master | ••• | 50 |
| Tea boarders, at Rs. 20 each | 200 | Mistress | ••• | 80 |
| Government grant, at Ra. 2-8 | per | Assistant Mistress | ••• | 30 |
| head | 225 | Reut | | 60 |
| | *** | Cost of boarders | | 100 |
| Total | 565 | Servants and contingencies | ••• | 50 |
| | _ | Total . | ••• | 490 |

I do not think that the school should at once be started on this scale, but if well administered, that it would eventually attain to it. The residents at Cuttach expressed themselves as most desirous of establishing a good school for Europeans, and willing to contribute towards it; but as a large number of the children are very poor, and the average receipts from fees cannot fairly be reckoned at more than a rupee per head, the liberal grantin-aid will be necessary for the maintenance of the school.

The purchase or building of a house for a school is decidedly preferable to renting one, and I have recommended it to the attention of the School Committee. This would, however,

necessitate special local contributions and grants-in-aid for building.

Total of children of school-going years at Dacca ... 115

III. - Character of existing European schools-

A. "Miss Cowan's."

(1) Miss Cowan is sole teacher. Number of pupils 14, viz. 8 boys and 6 girls. Ages

of 12 pupils vary between 4 and 7. Two girls, much neglected, are 11 years old.

(2) Finance.—This school had hitherto no grant-in-aid from Government, but was maintained by fees and the grant given by the Diocesan Board for first start, of Rs. 1,000. When this grant was exhausted the school could no longer be carried on, and ceased to exist on 29th February. The following shows the necessity of this:—

| Actual monthly expenditure. | | Actual monthly recei | pts. |
|--|----------------|--|------|
| | Ra. | | Rs. |
| Salary of Miss Cowan Rent Servant Keop of ponies for bring- | 150 60 7 | Fees, at Rs 5 per head, and 6 if using school conveyance | 75 |
| ing children to school | 20 | Monthly deficit | 162 |
| Total | 287 | Total | 237. |

Even with such a grant-in-aid from Government, it would still be impossible to carry on the school; for estimating this at Rs. 2-8 per head, it would amount, for 14 children, only to Rs. 35, and leave a monthly deficit still of Rs 127. The committee had no other alternative than to close it.

3. Character of instruction given.—Two or three can read fairly well words of one or two syllables, the rest spell words of one syllable. Writing very rudimentary, not going beyond single letters; arithmetic and every thing else have still to be learnt. It is, in fact, an infant school. This is not Miss Cowan's fault, who is a good and experienced teacher, but results naturally from the children being so very young and so short a time under instruction.

I quite agree with the remarks of Mr. Robson, Officiating Inspector of Schools, Eastern

Circle, in the report of his examination of the school, made 9th December 1875.

Two reasons would have always prevented this school from meeting the educational requirements of Dacca—

1st.—It was under a mistress, whereas there are 61 boys in Dacca of school-going years, ranging from 5 to 17 years of age.

2nd.—The charge of Rs. 5 per head, Rs. 6 if using school conveyance, would pfohibit all, except some 15 or 20 out 115 children of school-going years in Dacca.

B. Mr. Vyse's School staff ... Head-Master, Mr. Vyse (Eurasian).
Mistress Mrs. Vyse (Native Christian speaking English).
Two Assistant Mistresses (Eurasians).

Pupils on school-roll—26 boys, 28 girls; total 54. Average attendance, 86.—The income of the school is from fees, an average of about Rs. 80; from Government, grant-in-aid of

Rs. 2-8 per head on 86 children, Rs. 90—in all Rs. 170. On this Mr. Vyse pays Rs. 40 rent, and the salaries of two assistants; so that his net profits must be very small indeed, and the maintenance of the school, as at present carried on, must be regarded as extremely precarious.

Character of instruction given.—Two or three boys, the first class, read fluently and well, spelt correctly, and could explain the meanings of words moderately well. The second class read and spelt fairly, but not on a level with their average age. In arithmetic only one boy in the school did a sum in rule of three: incorrectly. Two or three only could work compound division; the rest, if they knew any thing beyond their tables, worked no higher than simple multiplication. English grammar, has been just commenced, and is carefully taught. Writing is not good; Gospel history, very slight; catechism, none (the school not being Church of England). All the elder pupils knew the Lord's Prayer; but some of the Armenian children could only repeat it in their own language. There are 10 boys above ten years of age, and 16 below.

The girls' school is generally on a lower level as regards instruction than the boys'; but Mrs. Vyse is a careful and diligent teacher. There are 10 girls above ten years of age,

18 below.

This school has only been 18 months in existence, and its constitution, as regards its teaching staff and the scale of fees (averaging about Rs. 1-8 per head), is much more suited to the wants of Dacca; and there is a very strong feeling among all classes at Dacca that another school should not be set up in opposition to this, but that Mr. Vyse should be allowed time to prove how far he can make it a success.

My own opinion is that this event is not likely-

1.—Because Mr. and Mrs. Vyse, though very diligent, and taking great interest in their work, are not exactly suited to have the charge of such an European school as Dacca really requires, not only for its own children, but for those in the neighbouring district.

2.—I do not think that they can make it pay, and it must eventually collapse for want

of means.

I would, however, recommend that further trial should be allowed to this school, and that no other school should be established here until experience shows that it is manifestly inadequate to the wants of the place.

Nore. - I saw almost all the children in Dacca, and am sure of the accuracy of the above

statistics.

Chinsurah, Hooghly, and Chandernagore.

Number of European children, Protestant and Roman Catholic, at Chinsurah and Hooghly of school-going years—boys 23, girls 16; total 39.

Number of Protestant European children at Chandernagore of school-going years-

boys 19, girls 10; total 29.

Total for Chinsurah, Hooghly, and Chandernagore-boys 42, girls 26; total 68.

These returns were sent me by Sir W. Herschel, Collector, who, I presume, omitted Roman Catholics from the Chandernagore list, as there is a convent school at that place.

The only European school for Chinsurah, Hooghly, and Chandernagore is a very small one maintained by a grant of Rs. 50, handed down by the old Dutch Government, and the very trifling amount of fees which the mistress is able to collect. Her name is Miss. Babonau. When I visited Chinsurah in January last she had only 11 pupils, all young, about 7 to 9 years of age. Several of these were the children of native Christians, omitted in the list given above. Her receipts from fees were only Rs. 3 per mensem for four pupils; the rest paid nothing.

The children at these three stations are generally very poor, their parents being either pensioners or clerks on small salaries: the few who can afford it send their children to the Calcutta schools; but a large proportion receive no education at all, or next to none. A* good school is urgently required; and if the existing school is to be made of any use, it must be thoroughly reconstituted. It is little better than an infant school, and quite unadapted for boys.

CALCUTTA,
The 7th April 1876.

J. BALY, Archdeacon.

The school, well conducted, and with fees at Re. 1-8 per child, ought to have about 40 or 50 children, for whom the following estimate of receipt and expenditure might be assumed:—

[First Publication.] RESOLUTION.

GENERAL DEPARTMENT-MARINE-No. 1526.

Calcutta, the 27th May 1876.

READ-

The following papers on the subject of the grounding of the ship Mahableshwar:—
Letter from Messrs. Lyall, Rennie and Company, dated the 29th February 1876.
Letter from the Officiating Master-Attendant, No. 1730, dated the 8th March 1876.
Letter from the Officiating Deputy Master-Attendant in charge, No. 2653, dated 13th April 1876.

Letter to the Deputy Master-Attendant in charge, No. 1179, dated 21st April 1876. Letter from the Officiating Deputy Master-Attendant in charge, No. 3269, dated

5th May 1876.

1. Messrs. Lyall, Rennie and Company have complained that this ship, of which they are agents, grounded in the Rungafulla Channel on the 14th January, when going to sea under the pilotage charge of Mr. Wells, Acting Branch Pilot. They say that an alteration in the channel was communicated to the Master-Attendant on the previous day, the 13th, but was not made known, as it should have been, to the pilots.

The ship's grounding, they add, has caused a loss of Rs. 25,000: and they request that enquiry may be made into the practice of the Master-Attendant's office, in giving information to pilots of changes which occur in

the channels.

2. In this case, the Lieutenant-Governor considers that it is clearly established that the pilot and the Master-Attendant's office were in no way in fault, and that the entire blame attaches to the River Surveyor. It is the duty of the River Surveyor, when he finds any change in the channels, at once to send to Bankshall a report and a duplicate sketch. The report is copied into the channel order book, and one of the sketches is kept there: this makes the change known to the pilots in Calcutta, who are bound to inform themselves of all entries in the channel order book. The original report, with the duplicate sketch, is then sent down to the Sandheads, for the information of the pilots on board the brigs.

3. Besides these special reports and sketches, the River Surveyor sends up, from time to time, charts showing those alterations which have already been embodied in the special reports. These charts are not examined in the Master-Attendant's office; they are sent on at once to the Surveyor-General for reproduction by photozincography, and copies are then available for sale to merchants and to the public. It is understood that no change will appear in the chart, which has not already been made the subject of a special report.

4. The River Surveyor, Mr. Laycock, had sent up, on the 28th December, a report, with sketches in duplicate, of certain changes in the Rungafulla Channel. On the 8th January he sent a chart, which reached the Master-Attendant's office on the 13th, and was as usual sent on to the Surveyor-General without examination. But this chart showed an important change in the channel, of which no report and sketch had previously been given. A spit of sand had run out into the usual navigation channel, and it was upon this spit that the Mahableshwar grounded. If the channel had been in the condition shewn by the report and sketch of the 28th December, the pilot would have had 23½ feet of water at the place where the ship grounded. She was drawing 21½ feet, and the chart of the 8th January showed 20½ feet in this place.

5. Mr. Laycock's explanation is to the effect that he thought the change of no great importance, and that, if the pilot had kept more to the eastward, he would have had plenty of water. The Master-Attendant shows, in the 8th paragraph of his letter, that this explanation cannot be accepted as

satisfactory.

6. The Master-Attendant was not, the Lieutenant-Governor thinks, to blame for not examining the chart. He might reasonably presume that it would not contain any information which had not previously been specially communicated. The pilot was not to blame for not keeping further to the eastward, as he had every reason to suppose that he was keeping a perfectly safe course.

7. The River Surveyor seems to the Lieutenant-Governor to have committed a grave neglect of duty in omitting to report, in the usual manner, a material change in one of the navigating channels; and it is to this neglect that the disaster to the ship is to be attributed. Mr. Laycock is in general honourably distinguished by vigilance and attention to his duties, and the Lieutenant-Governor regrets the necessity for passing this censure upon him. But in this case it is evident that Mr. Laycock's omission to report the alteration resulted in causing a considerable loss of property, and endangered the safety of the vessel and the lives of those on board. The Lieutenant-Governor therefore directs that Mr. Laycock be informed that his neglect of duty in this instance is regarded by the Government with serious displeasure, and that he be warned that inattention and oversight cannot be excused in an officer who holds so responsible a post as that of River Surveyor.

Offg. Secy. to the Govt. of Bengal.

[Second Publication.] NOTIFICATION.

The 16th May 1876.—In continuation of the orders published at pages 338-39 of the Calcutta Gazette of 24th March 1875, the Lientenant-Governor is pleased to notify that at the granting of a 20 years' lease under those orders, after the expiry of the preliminary lease, and also at every subsequent renewal of any such 20 years' lease, the amount of rent to be paid for the land per acre will be fixed at an amount not exceeding the rate of rent paid per acre in the neighbourhood at the time for the highest class of land under ordinary arable cultivation.

2. If at any future time the administration of the tracts in the Western Dooars under tea cultivation should entail on the State any considerable increase of expenditure, it will be competent to the Government, with the sanction of the legislature, to impose such special taxation as may be deemed necessary to defray the additional expenditure so incurred, either by raising the rent or in some other mode. But under no other circumstances will the rent which has been once fixed for a term of years on the principle above enunciated be raised during such term.

H. J. REYNOLDS, Offg. Secy. to the Govt, of Bengal.

Norz.—The local jurisdictions of the sub-divisions shewn above are as at present existing.

The present boundaries of the thanas were defined in the Bengal Government notification dated 9th February 1875, and published in the Calcutta Gasette of the 24th idem.

The pergunnahs of Rakab, Pulma and Bagus, forming part of thana Pooroolia, but hitherto appertaining to mounifie Manbazar, are transferred to the sudder mountifies of Pooroolia.

That portion of pergunnah Khasbail which is in thana Chass is transferred from the sudder mounsifes of Pooroolia to mounifies Rughoonathpoor.

- 3. The name of Bukshee Jainundan Das is to be removed from the list of members, as that gentleman has since died.
- 4. There were seven meetings during the year, all of which were presided over by the Chairman. Of these seven meetings one was not attended by a quorum.
- 5. Ten days' notice was given of every meeting held during the year, and the business to be transacted at each was duly notified, as directed in section 57 of the Act.
- 6. The minutes of the proceedings of every meeting held during the year were recorded in the book opened for that purpose under section 61 of the Act.

- The following changes occurred in the Committee during the year:-
- (1) The charge of the office of Chairman was taken over by Colonel H. M. Boddam in February 1875 on Mr. Beadon, the Officiating Deputy Commissioner's transfer from the
- (2) Baboo Rajgopal Roy, Road Cess Deputy Collector, who was the Vice-Chairman of the Committee, was transferred to the district of Lohardugga, and Captain Blathwayt was elected in his place, but this gentleman held the office only for three months, viz. from January to March, when Mr. Wilson, Senior Assistant Commissioner, was appointed Vice-Chairman.
- (3) Captain Blathwayt, Assistant Commissioner, and Mr. T. F. Parkinson, Executive Engineer, Hazareebagh Division, were made members of the Committee during

- 9. From the above statement it will be seen that the attendance of the members during the year was as unsatisfactory as in the previous year. In almost all the meetings held during the year the number of members present scarcely exceeded one-third of the total number of members forming the committee. Some of the non-official members never attended the meeting at all. The only conclusion to be derived at is that either these members take no interest in the working of the road cess, or that the distance they reside from the station will not admit of their attendance.
- 10. There is no separate official building for the Committee. The Deputy Commissioner has provided accommodation for the road fund establishment in one of the buildings attached to his office.
- The Committee had no separate office establishment during the first quarter of the year, as the duties of both the offices of Collector and Chairman were performed by the Collector's road cess establishment; but as, under orders of the Commissioner, the road cess establishment of the Collector had to be reduced, the portion of establishment done away with was appointed as Committee's office establishment from January 1875. It, however, made very little difference to the Committee in fact, as the whole establishment was paid from the same fund.
- The following is the list of the principal business transacted by the Committee during the year under review :-
 - The annual accounts for the ccss year 1873-74 were passed.
 - Preparation of the estimate of receipts and disbursements for the cess year 1875-76.
 - (3)Determination of the rates of assessment for the ensuing cess year 1875-76, viz.
 - at three-fourths of the maximum rates, as in the previous year.

 Selection of Vice-Chairman in the place of Baboo Rajgopal Roy transferred to (4) the district of Lohardugga.
 - Revision of budget-estimates for the cess year 1874-75, necessitated in consequence (5)of the reduction of Government grants. In preparing this revised estimate the Committee was obliged to abandon some of the roads in consequence of its limited resources.
 - Selection of an Engineer in the place of Mr. Pereira returned to his own depart-(6)ment, Public Works.
 - There were no Branch Committees appointed during the year.
 - 14. The amount collected under Act X of 1871 during the year was Rs. 28,026-1-6,

Re. 25,670 15 21 640 13 31 1,708 7 0 110 14 0 Coss on lands Ditto mines Ditto houses Fines and penalties... Total... 28,026 1 6 as per details given on the margin, but of this sum Rs. 572-4-5 had to be subsequently refunded.

15. When the budget-estimate for the year was prepared, it was supposed that the Government would give Rs. 20,000 as grant-in aid, but only a sum of Rs. 5,000 was granted, and of this sum Rs. 4,108-8 was repaid to Government as pay of the Eugineer establishment.

- 16. Besides the above sum of Rs. 5,000 there was a special grant of Rs. 2,400 for the completion of the Churwa and Gonda bridges.
- 17. The total amount available for expenditure during the year was Re. 43,888-12-11. The annual account shows in sufficient detail the sources from which the sum was derived.

The expenditure during the year amounted to Rs. 33,107-1-8.

19. The charges for establishment in the collection of revenue amounted to Rs. 1,826-14-1 against Rs. 1,294 in the budget. The excess charge (Rs. 32-14-1) was owing to an extra clerk being appointed under orders of the Board of Revenue for statistical purposes. The amount was, however, met from the savings under other heads. 20. The cost of the Committee's office establishment during the nine months from January to September 1875 amounted to Rs. 600 against Rs. 850 in the budget.

21. The expenditure on account of contingencies was Rs. 233-12-6, against Rs. 500 in the budget.

The savings effected on the above two heads were available to meet other charges. 22. The savings effected on the above the the year was Rs. 572-4-5 as stated below,—23. The total amount refunded during the year was Rs. 572-4-5 as stated below,—

Rs. 563-10-5.—This amount was recovered from the East Indian Railway Company on account of their collieries in Gadee Kurhurbaree, but their entire property having been exempted from taxation under orders of the Government of India the amount had to be subsequently refunded to the Company.

Rs. 8-10-0 were refunded to the Executive Engineer on account of the house cess recovered from him for the inspection bungalows of the Public Works Department, but the amount

was subsequently paid by the Collector of the district.

24. The total outlay on works amounted to Rs. 24,148-14-11, namely, Rs. 18,448-4-9 on original works and Rs. 5,700-10-2 on repairs.

25. The total charge for cstablishment employed on works was Rs. 6,152. amount includes Rs. 4,103-8-0 paid on account of share of pay of the Public Works Department establishment for the year 1874-75, as per Government order No. 3432, dated 8th July 1875.

26. The sum of Rs. 73-3-9, charged in the account against the head "Tools and Plant,"

was on account of conveyance and other miscellaneous charges.

27. The following are the details of the several works executed during the year:-

ORIGINAL WORKS.

Hazareebagh and Chuttra Road .- The Committee in its budget-estimate sanctioned Rs. 6,671 for expenditure on this road during the year under review, but the actual outlay amounted to Rs. 6,003-12-8. Mr. Pereira reports that ten miles of the road were finished during the year as regards earthwork; besides jungle was cleared off from about five miles and turfing and dressing completed for ten miles. In addition to these the first mile of the road was metalled and gravelled. A 10-feet culvert and a bridge of two spans of sixteen feet each with masonry abutments and pier, with timber top, over the Nullaband river were built. Three other culverts besides the above, viz., one 14 feet arched, one 2 feet arched, one 4 feet arched, with timber top, were constructed during the year.

The Gonda bridge, which is also on this road, was completed during the year.

This bridge was commenced in 1873-74 to complete the circle of station roads ordered to be constructed by the late Lieutenant-Governor, Sir George Campbell, but was stopped by the Executive Engineer under orders of Government, and made over to the Road Cess Committee unfinished.

I inspected this road during my cold weather annual tour.

The earthwork is, I regret to say, far from being finished. For many miles no earthwork whatever has been done beyond cutting a drain about eighteen inches wide and eighteen inches deep each side of the proposed road, and throwing the earth thus obtained on the road. Many of the culverts are not placed in the middle or square to the road, and have been made with outrageously high parapet walls.

The tracing of the road and general supervision appear to have been left entirely to some native subordinate, who has worked according to his lights, unchecked by the Engineer.

Burhee and Gawan Road.—This road was taken in hand during last year in consequence of the distress that prevailed in the district, and a sum of Rs. 29,499-10-9 was expended. During the year 1874-75 a further sum of Rs. 4,220-2-8 was disbursed on the road. The work on the road was stopped in the middle of the year for want of necessary funds.

Mr. Percira reports that thirty-two miles of the road, as regards earthwork, were completed up to the end of the year. Of this length twenty-eight miles were completed in 1878-74, and the remaining four miles in 1874-75. Masonry abutments of four bridges of a single span of thirteen feet each, and the abutments and piers (except one) of a bridge of five spans of thirteen feet each, made during the year, besides ghat cutting and a great deal of turfing and dressing.

This road was also inspected by me. It is a very useful road and should be finished,

and the necessary culverts built as fast as possible.

Giridhi and Khurukdeha Road .- The earthwork on the road was completed last year. The sum of Rs. 1,558-15-11 expended during the year was almost all on account of construction of culverts. Twenty five culverts, varying in span from two to four feet, were built during the year.

This was one of the roads inspected by me. The earthwork is reported as completed, but for some miles the road has not ever been lived out; in many places the virgin jungle is untouched; for much of the lengths where the jungle has been cut the roots have not been

grubbed up.

The culverts built I have directed the present District Engineer to pull down at once and to see them re-huilt at the cost of the contractor, as they were constructed of bad materials and were unsafe.

Gya and Deoghur Pilgrim Road.—The total expenditure on this road up to the close of the year amounted to Rs. 7,017-12-2, of which Rs. 4,523-5-3 were disbursed during 1874-75. Earthwork for 203 miles of the road has been completed. The work has since been stopped for want of necessary funds. The estimate of the road was received from the Executive Engineer during the year under review, but the road having been abandoned it was not submitted to the Commissioner for professional scrutiny by the Superintending Engineer, as required by paragraph 11 of the Government order No. 173, dated 7th May 1872.

I would call attention to Mr. Beadon's remarks on last year's report on this road:-

- "It has been improved off the face of the earth. Formerly carts could with a little difficulty pass along the road, now it is almost impracticable for man or beast, vast gaps being left where bridges were to be built; but as there is no chance of the Committee having any funds to build these bridges for the next twenty years, if then, the road may by the action of time and weather washing away the embankments become again passable by country earts."
- (1) Giridhi and Toondi Road; (2) Moheshmoondi and Bengabad.—These roads were completed before the 30th September 1874, when the cess year 1873-74 closed. The expenditure, Rs. 332-2-9 and Rs. 501-14-6, shown on the accounts against these roads were all defrayed in rice before that date, but owing to an oversight on the part of Mr. Campbell, the Sub-divisional Officer, Pachumba, it was not included in that month's accounts; hence it is charged in the present year's account.

Old Benares Road, west of Hazareebagh.—There was no money spent on the road itself. A culvert on the approach of the Churwa bridge, which is on this road, was built during the year at a cost of Rs. 474-15, which was met from the savings effected on the allotments of the Churwa and Gonda hridges, as there was no provision made for the culvert in the budget-estimate for the year.

A sum of Rs. 1,400 was given by Government for the completion of this bridge; the sanction arrived so late that, although the work was commenced, it was stopped by the setting

in of the rains, which carried away the centering.

REPAIRS.

Station Roads.—The expenditure on these roads during the year amounted to Rs. 997, which was merely on repairs. Of this sum Rs. 542-12 was paid in repairing the roads on the occasion of the Viceroy's visit to Hazareebagh. The balance, Rs. 454-4, was spent in gravelling part of one of the roads as well as in paying the salaries of the maintenance establishment.

The burden thrown on the District Committee of maintaining these roads has been so fully recorded by the late Officiating Deputy Commissioner in last year's report that I need not reiterate what has been already recorded.

It is impossible for the Committee to maintain those that have been completed, much less complete those left unfinished.

Balcomut and Sherghotty.—The Engineer reports that four miles of this road have been remodelled and one 4-fect arch and two 4-fect timber top culverts built, besides extensive repairs done to Bhoraghat, making its gradients easier. Up to the end of last year seventeen miles of the road out of fifty have been repaired.

I inspected the work done at Bhoraghat. It has, evidently not been properly supervised. No side drain to carry off the water from the road was constructed, and the consequence has been that the road down the ghât has been cut into deep channels, which

must be repaired.

The remodelling would have been better left undone, as no one will ever use the new line of road, as it is cut off from the present line by a river which cannot be bridged for very many years to come. The money expended has been simply wasted.

Old Ranchee Road.—The sum of Rs. 21-12 charged in the accounts against this road was on account of last year's expenditure.

Chuttra and Chowparan Roud.—This is a metalled road. Mr. Pereira reports that three miles of the road have been remodelled and twelve miles gravelled, besides other necessary repairs.

Gola and Govindpore Road.—The sum of Rs. 94-10-9 charged against this road was on account of pay of maintenance establishment.

Paharpore and Buggodhur Road.—The expenditure on this road during the year amounted to Rs. 519-9-2. There was a nokur coolic establishment entertained for the maintenance of the road, and the expenditure shown above was incurred in paying their salaries as well as filling up the places left for culverts during the famine.

Ramghur and Gola Road.—Petty repairs done through nokur coolies entertained for the maintenance of the road at a cost of Rs. 197-4-3.

Kodurma and Jainuggur Road.—Petty repairs done through maintenance establishment. The amount disbursed was Rs. 88-1-3 only.

Chuttra Inspection Lungalow.—A sum of Rs. 64-15 was expended on the repairs of this bungalow during the year.

28. The following are the works proposed to be taken in hand during the ensuing year 1875-76. The sums allotted by the Committee are noted against them:—

A. G. WILSON, Vice-Chairman.

No. 17, dated Ranchee, the 31st December 1875.

From—H. L. OLIPHANT, Esq., Chairman, District Road Committee, Lohardugga, To—The Commissioner of the Chota Nagpore Division.

In pursuance of Government orders contained in circulars Nos. 4952 of the 24th September 1872, and 50 of the 23rd July 1873, I have the honor to submit herewith my annual accounts, together with the required report of the expenditure incurred on roads in this district during the year ending 30th September 1875.

2. My annual preliminary report was, I may observe, submitted with my letter No. 51RC of the 26th July last.

3. The Road Cess Act was not introduced into this district till after the commencement of the year. It nominally came into force from the 1st November 1874 in pursuance of Government Notification No. 2088 of the 5th October 1874, but operations under the Act were not commenced till nearly the end of December. The work is proceeding satisfactorily, but no collections have yet been made, nor will any be made for some time to come.

but no collections have yet been made, nor will any be made for some time to come.

4. The total balance standing at the credit of the fund on the 30th September 1874 was Rs. 23,275-4-3. To this must be added a sum of Rs. 20,000, which was allotted to this district as a grant from the provincial reserve fund under Government Notification No. 469 of the 29th December 1874, and which, together with the other items of receipt, makes the total aggregate receipts of the year to amount to Rs. 45,437-3-0, as shown below:—

| | | | • | | Rs. | A. | P. |

| | | | | | | | |

Out of the above sum Rs. 5,000 were withdrawn from the fund and credited to Government in pursuance of orders No. 1262 of the 10th March 1875, thus leaving a net balance available for expenditure of Rs. 40,437-8-0. Out of this latter item Rs. 33,639-5-10 were expended during the year, thus leaving a balance to the credit of the fund at the close of the year of Rs. 6,797-13-2.

of Rs. 12,480-8-0 was incurred on account of the cost of establishments and refund of fines, as detailed in the margin. With regard to the first heading, as long as the valuations under the Road Cess Act are going on the establishment must necessarily be costly. With regard to the grant to the Public Works Department on account of establishment, I am

not aware as to the exact principle on which the amount was calculated. The actual cost of the Public Works establishment employed during the year in connection with district works was only about Rs. 2,300, though the sum ordered to be transferred to that Department exceeded that amount by about Rs. 3,000.

7. The balance to be accounted for is Rs. 21,158-18-10; and the whole of this sum

was expended in the two main divisions of the district in the proportion shown in the table in the margin.

8. The total sum expended on each line of road in the district during the year will be found in the usual table of annual expenditure, and a brief account

of the general condition of the several lines of road, and the manner in which the money

has been laid out, in the statement hereto appended.

9. In conclusion I beg to add that since the preparation of the annual return and report, instructions have been received from the Controller of Public Works Accounts in his letter, No. 15194, of the 27th November last, intimating that a sum of Rs. 2,921-5-8, which represents the value of rice expended in the payment of labourers on the several roads in the Palamow sub-division during the famine which prevailed in the previous year, and which was not shown in that year's accounts, should be adjusted in the accounts of the year now under review by "crediting deposits and debiting the heads of service concerned." The above amount has accordingly been exhibited in both the credit and debit side of the return, particulars of the expenditure being furnished in Part II of the same. As however this expenditure does not appertain to the year under report, it has been thought advisable to keep it quite distinct from the accounts of the year, and it has accordingly been shown separately at the bottom of the statement.

Statement showing the work done on the several Roads in the District of Lohardugga during the year ending 30th September 1875.

RANCHEE AND BUNDGAON ROAD, 38 MILES.

First section, from Dorundah to Hattia, 5 miles.—This portion of the road is in good order; the first three-quarters of a mile was re-gravelled during the year, and one of the abutments of a bridge, which was in a decayed condition, was thoroughly repaired, as well as the wing walls.

Second section, from Hattia to Khunti, 18 miles.—This also is in good order, having been lately repaired. The approaches to rivers and streams have been put in order, and the wooden bridges rendered secure.

Third section, from Khunti to Murhie, 8 miles.— This portion is in fair order; it was last repaired in the cold weather of 1874-75, and will require attention during the ensuing season.

Fourth section, from Murhie to the boundary, 7 miles.—This portion is more hilly than the rest of the road, and consequently suffers more during the rainy season, and requires a larger expenditure to keep it in proper order.

a larger expenditure to keep it in proper order.

On the whole the line is in tolerable fair-weather order. The road leads to Chyebassa, but the traffic is little more than local. During the year 33 miles of roadway were repaired, 258,399 cubic feet of earthwork, and 2,580 cubic feet of rubble stone masonry, at a total cost of Rs. 1,580-8-3.

RANCHEE AND LOHARDUGGA ROAD, 45 MILES.

First section, Ranchee to Murma, 18 miles.—This portion is in good order, the first three miles and six chains being gravelled. The approaches to the first river were put in thorough order, and a stone breakwater thrown out into the stream to prevent the east bank from being cut away, an arrangement which has answered admirably.

At the 12 and 13 miles the line crosses two nullahs over which two bridges are in course of construction, and will be completed during the current season. These two nullahs have always been a great impediment to traffic.

Second section; Murma to Opa, 11 miles.—This portion is in fair order, though the roadway is rather narrow.

Third section, Opa to Kuru.—In fair order, but a few bridges are much wanted.

Fourth section, Kuru to Lohardugga, 11 miles.—In good order, but more earthwork is required in places, and the approaches to streams demand attention. The line is a good fair-weather road, but some bridges are urgently required to render the road available for traffic all the year round. Lohardugga is the great trading mart of Chota Nagpore Proper, and the traffic is annually increasing. During the year eight wooden bridges and eighteen miles of roadway were repaired, and two stone drains erected, total earthwork 391,191 cubic feet, and 9,368 cubic feet of brick masoury, at a total cost of—

RANCHEE AND PALKOTE ROAD, 53 MILES.

This road branches off from the Ranchee and Bundgaon road at Hattia.

First section, from Hattia to Lodmah, 11 miles.—This portion has been repaired and put in good order, but a wooden bridge still remains to be repaired.

Second section, from Lodnah to Lowkel, 10 miles.—The roadway has been repaired, but the approaches to streams require looking to.

Third section, from Lowkel to Jhurria, 10 miles.—The first half is in good order, but the latter indifferent.

Fourth section, Jhurria to Bassia, 18 miles.—With the exception of four miles this piece is in very fair order, but the south approach to the Kuru river requires to be re-cut and some earthwork added to the north approach.

Fifth section, Bassia to Palkote, 12 miles.—The first eight miles have been kept in good order, but the last four miles are little more than a jungly track: on the whole this line is in good fair-weather order. The traffic is considerable and is steadily increasing, large quantities of grain being brought from Bassia and Govindpore to Rauchce and carried away in an easterly direction.

During the year 28 miles of the road were repaired, 14,603 cubic feet of earthwork, at

a total cost of Rs. 697-8-6.

KURU AND LATEYHAR ROAD, 28 MILES (TOWARDS DALTONGUNGE).

This road branches off from the Ranchee and Lohardugga road at Kuru.

First section, from Kuru to Chandwa, 10 miles.—This portion passes over a very steep and difficult ghât, and it consequently requires great attention. It has been kept in good order during the year.

Second section, Chundwa to Lateyhar, 18 miles.—Twelve miles of this have been thoroughly repaired, but the remaining six requires attention. This line is an important one, leading to the head-quarters of the Palamow sub-division, and is in fair order, though bridges are much wanted. At present the road is maintained as a fair-weather one, but the nullahs and streams in the rains are a great obstacle to traffic. The road carries a good deal of traffic during the cold and hot weather months, all done on pack-bullocks. Total roadway repaired 18 miles, 316,075 cubic feet earthwork, at a cost of Rs. 966-7-9.

LOHARDUGGA AND CHUTTRA, 42 MILES TO BOUNDARY.

From Lohardugga to Champi, 10 miles.—The whole of this portion has been repaired and a new bridge erected across some low boggy land.

From Champi to Balumath, 20 miles.—This portion of the road runs through a wild and jungly country, and crosses difficult ghâts and many streams; it is partially bridged. The greater part of the roadway has been repaired, and on the whole it is in good order.

Balumath to Gooma, the boundary, 12 miles.—The first five miles have received a good surface dressing, and the whole is in fair order. This road runs through a very hilly difficult country, but it has been fairly maintained. It carries far the heaviest traffic in the district, and is certainly one of the most important communications. Rice and food-grains are exported by this line in large quantities from Lohardugga and the south. Total work done 21 miles repaired; 462,455 enbic feet of earthwork and 5,695 cubic feet of rubble stone masonry, at a cost of—

KHUNTI, TOORPA, AND KAMDERA ROAD, 29 MILES.

From Khunti to Toorpa, 17 miles.—This portion of the road has not come under repair during the year under review. It requires surface dressing, which will be carried out during the current year. The line is in fair order.

From Toorpa to Kamdera, 12 miles.—This portion of the road has been thoroughly repaired during the year, earthwork being thrown up in low places, jungle cleared, and the approaches to streams and rivers sloped and improved. This road branches off from the Ranchee and Bundgaon road at Khunti, and, passing through the Turpa police station, joins the Ranchee and Palkote road at Kamdera, some few miles north-east of Bassia. The traffic on the road is chiefly local, but the line passes through a highly cultivated country, and is very useful as being a connecting link between the two roads above named. Total work done nearly 12 miles repaired; 266,474 cubic feet of earthwork, at a cost of Rs. 750-9-6.

Ranchee to Tamar, 35 miles.—The first twelve miles of this road have been thoroughly repaired and two wooden bridges replaced. The remainder of the road is in fair order, but it will require attention during the current season. This road was the original route from Ranchee to Chyebassa, but it was given up for a more westerly line (Ranchee and Bundgaon road), which possesses two advantages over this one, inasmuch as it avoids a difficult ghât and heads the rivers, taking as near as practicable the watershed of the country. As however there are two police stations (Bundee and Tamar), which are also large market places on this line, it was considered advisable to keep it up as far as Tamar, and opportunity was taken of the scarcity to put it into fair-weather order. The traffic on the line is chiefly local, but still the road is much used. During the year 12 miles and 3 furlongs were repaired, 127,385 cubic feet of earthwork, at a cost of Rs. 383-5-10.

Balumath, Janjhu, and Chumatu Road, 27 miles.—This road runs through the Tori Pergunnah between Chota Nagpore and Palamow. The first portion is from Chumatu on the east to Balumath (ten miles), and thence to Janjhu (seventeen miles) on the Palamow boundary. The line is a very jungly one, running through hilly and broken ground, and it carries little or no traffic except on one occasion during the year, when a fair is held at Heringi. It forms, however, a connecting link between the sub-division of Palamow and the district of Hazarcebagh. During the year ten miles of road were put into good order; total earthwork 281,445 cubic feet, at a cost of Rs. 862-4-3.

Ranchee and Gola Road, 12 miles.—This road branches off to the north-east from the Ranchee and Hazarecbagh road (provincial) about thirteen miles from Ranchec. There is a heavy ghât on the road which requires constant attention. The traffic is purely local. During the year seven miles were thoroughly repaired; 97,384 cubic feet earthwork at a cost of Rs. 259-8-6.

Petty works, Pit/oria Road, 10 miles.—In fair order. During the year 7 furlongs and 3 chains were gravelled and 7 miles 1 furlong repaired; 83,718 cubic feet earthwork at a cost of Rs. 348-0-6. Traffic purely local.

Ranchee to Nugri, 10 miles.—The first eight miles of this road were put into good order, and the last two smoothed over. Earthwork 235,890 cubic feet at a cost of Rs. 682-6.

Village Roads.—Under this heading a sum of Rs. 1,044-15-6 was expended during the year, Rs. 500 being laid out in the Palamow sub-division and the remainder in Chota Nagpore Proper. The following is a brief account of the works carried out:—

In Palamow.—A good road was made to connect the market of Cheynpore with Shahpore, which is on the river Koel, opposite Daltongunge, the head-quarters of the sub-division, distance two miles, and cost Rs. 200. A large number of villages in the neighbourhood will be benefited by the work: also a road branching from Shahpore to the market of Pittoria. This track was formerly a very difficult one for all the villagers going to market, but it has now been put in good order; distance four miles, and cost Rs. 300.

In Chota Nagpore.—Roads connecting the villages of Hurma, Argora, and Karoo, were well raised and put into thorough order. These villages and many others in the neighbourhood have been greatly benefited, as the roads are much used by people attending the local markets. Total distance about five miles, at a cost of Rs. 314-10-9. The Revd. Mr. Whitley kindly effected some improvements for me in the roads in the neighbourhood of villages Kachabari and Maranghada, Mandhu and Ramchu, at a cost of Rs. 85-4-9.

Moonshee Mohiput Lal also carried out some improvements on the village track between Morhabadi and Koochoo Bazar, at a cost of Rs. 53.

Captain Lowis, the Manager of the Chota Nagpore estate, also kindly lent his services and effected improvements on the roads in a large number of villages at an aggregate cost of Rs. 92, as shown below:—

PALAMOW SUB-DIVISION.

Daltongunge Station Roads.—The station roads are in very fair order, but masonry drains are required on those roads running down the slope of the bank on which the

station stands. The roadside trees have made a good start this year, and are a great addition to the appearance of the station. The main station road running from the lock-up to the hospital has been well raised and gravelled at the northern end for about 1,000 feet. Three other roads have also been re-gravelled for about 1,800 feet. One small drain erected, 22½ miles of road superficially repaired, upwards of 2,000 trees have been tended and protected.

Daltongunge and Lateyhar Roud, 42 miles (leading to Chandwa).—This is part of the main line to Ranchee. It meets the Kurn and Lateyhar road at Lateyhar, and unites at Kurn with the Lohardugga and Ranchee road.

It is divided into three sections -

(1) Daltongunge to Satburwa 18 miles.
(2) Satburwa to Munka 8 ,,
(3) Monka to Latcyhar 16 ,,

The first division is in very good order, and quite fit for cart traffic in the dry weather. The second section is in very indifferent order. It crosses many water-courses and several steep spurs composed entirely of hard gneiss rock. Some of the gradients too are very steep, and render necessary, to make the line easy for traffic, deep cutting into rock and raising heavy earthwork. It is proposed accordingly to adopt another route, which has the advantage of heing shorter and altogether a far easier and more practicable one.

The third section is in fair order, but this part of the line also crosses deep water-courses, besides having some very steep gradients. During the dry season, from November to June, there is a considerable traffic along this line by pack-bullocks. During the year six and a half miles of roadway were thoroughly repaired, several hollows were filled up, approaches to nullahs improved, and a long strip of very low land, liable to inundation in the rains, well

raised. The parapets and wing walls of four bridges were also repaired. Total work 249,014 cubic feet of earthwork, and 2,700 cubic feet of masonry work, at a cost of Rs. 1,250.

Daltongunge and Behar Road, 36 miles.—This road for about twelve miles passes over a keywal soil which, when newly thrown up, is liable to great damage during the rains, and it consequently requires repairs every season. Twenty miles are in good order, six miles fair, and ten miles indifferent. During the year the roadway and twelve feet on each side of it was cleared of jungle for twenty-eight miles, and superficially repaired and drains cleared for about ten miles. Total earthwork 200,225 cubic feet, and cost of works Rs. 800.

Daltongunge and Maharajgunge Road, 42 miles.—Ten miles of this road are not quite complete. Of the remaining 32 miles, 20 are in good and 12 in fair order. The earthwork and roadway suffered considerable damage during the unusually heavy rain in the preceding year, and the principal work this year consisted in repairing the damage done. Nine miles were cleared of jungle and roots; seven miles superficially repaired and drains cut. A further improvement was also made in the slope of the Sultani ghât. This road carries a considerable traffic, and bridging is much required. Total work 1,040,280 cubic feet earthwork, and 6,600 cubic feet of rock cutting in the ghât, at a cost of Rs. 1,500.

Dallongunge and Gurwah Road, 20 miles.—With the exception of a short distance here and there, this road may be said to be good along the entire length. It is unbridged. A heavy pack-bullock traffic passes along the road during the greater part of the year. The road has been superficially repaired. Over eighteen out of the twenty miles hollows have been filled up, drains cut and cleared, slopes to rivers and nullahs repaired, and two bridges repaired. Work done 244,400 cubic feet earthwork, and 1,740 cubic feet masonry, total cost Rs. 750.

Gurwah and Untari Road, 28 miles.—The first sixteen miles of this road are in good order and the remainder are indifferent. The slopes and approaches to most of the rivers and nullahs are long and easy and fit for cart traffic. A considerable pack-bullock trade passes along this line from and to Gurwah and Mirzapore and Benares. The road was superficially repaired over thirteen miles. Side drains were cleared out and damage to embankments, which had suffered from the heavy rain, repaired. The wing parapet walls of several culverts were also repaired. Total work 241,940 cubic feet earthwork, and 2,217 enbic feet of masonry, at a cost of Rs. 800.

Gurwah and Manjhewan Road, 14 miles.—Nine miles of this road are in very good order, the remaining five are indifferent owing to the undulating character of the ground. The pack-bullock trade along the road is very large and bridges are much wanted. Superficial repairs were carried out, and 175,500 cubic feet earthwork thrown up. Total cost Rs. 500.

Mijheewan and Jupla road, 26 miles.—This road crosses a country with a keywal soil for nearly the entire length. There is a heavy coal and timber traffic on it during the dry menths, and in the rains the road becomes very boggy and much of the soil is washed away. There are several wooden bridges on the road but they are continually giving way. The road ought to be metalled and bridged to meet the requirements of the heavy traffic which it carries. Nineteen miles of the road are in fair order and the remainder indifferent. Twelve miles were repaired and jungle cleared; 302,795 cubic feet of earthwork at a cost of Rs. 800.

Lesliguage or Kote to Pankey (28 miles), towards Balumath.—This line of road was brought under repair during the recent famine. It meets the Balumath and Janjhu road at the latter place, and is a connecting link between Palamow and the district of Hazareebagh. Eighteen miles of the road are complete, but little has been done to the remaining ten miles, which pass through much jungle and cross a heavy ghat, the latter of which will always be a great obstacle to traffic. There is very little traffic on the road, and the line is by no means an important one. The work carried out during the year consisted of drain-cutting, reducing slopes and gradients, filling in hollows, clearing jungle and roots, and superficially repairing 18 miles; 282,700 cubic feet earthwork at a cost of Rs. 800.

Oonlari to Benares Road, 11 miles.—This road was taken up during the famine with a view to afford relief to the people in the Beloujah perguanah, but now that Doodhi in the Mirzapore district has been created into a sub-division, and there is a good main road direct from that place to Mirzapore, this road is not likely to be much used. The line, too, is a very difficult one, crossing steep and difficult ghâts with many water-courses. During the year a small sum only was expended in repairing damage done in the preceding rainy season. Five miles were superficially repaired; hollows were filled up and embankments repaired, the total work being 184,256 cubic feet of earthwork at a cost of Rs. 500.

Works for the ensuing year.—It only remains to notice briefly the works which are

contemplated during the year just commencing.

Budget-estimates in the prescribed form were submitted to the Commissioner with this office letter, No. 4 of the 3rd September 1875, and approved and confirmed by the Commissioner under his letter, No. 409T. of the 4th October.

A grant of Rs. 25,000 from the provincial reserve fund was made under Government order No. 364 of the 20th July last, and inclusive of this, the total amount available for expenditure during the current year is Rs. 29,877. No collections will be made under the Road Cess Act within the year, but nevertheless a large establishment will have to be kept up; and the estimates, after providing for this, as well as for public works establishments and general working establishments, show a balance available for roads of a sum only slightly in excess of Rs. 15,000.

The first work to be attended to is that of repairing and maintaining in fair weather

order the existing lines of road which aggregate some 570 miles in length, and the expenditure has been allotted as set forth in the margin. In addition to this it is proposed during the current year to draw up plans and estimates for several bridges on those lines of road where they are most urgently required, so that they may be ready to be taken in hand during the following year, when it is hoped further funds will be available.

GANESH CHUNDER NIHATTEE. Vice-Chairman, District Road Committee, Singbhoom.

(Sd.) W. H. HAYES, Surgeon, Deputy Commissioner and Chairman.

No. 21, dated Purulia, the 25th February 1876.

From—Lieux.-Col. B. W. Morton, Deputy Commissioner of Manbhoom, To—The Commissioner of Chota Nagporc.

I have the honor to submit the following report on the work done on the roads under charge of the District Road Committee of Manbhoom for the cess year 1874-75.

2. As stated in my report, dated the 6th August last, there are 18 roads in this district, of which three are called first class, five are second class, and ten are third class roads. My own helief is that the roads in the second class are of equal importance as those in the first class, so that it may be said there are but two classes of roads under the Committee, and that in the first class there are eight roads and in the second class ten roads.

3. The relief operations in the district led to a great deal of desultory work in the way of road-making, the primary object not being the making of roads, but the finding of work for people who might otherwise have starved.

4. A great deal of money was spent in attaining this object, and was so far well spent; hut so far as my information goes, I am not aware that a single road under the Committee is in a complete state.

5. The means of the Committee are limited, and it will be many years before they can hope to complete all the roads under their charge. As I have elsewhere reported, I think it would be a saving in the end to borrow a sufficient sum, and to complete or at any rate to put into a safe condition all the works undertaken during the famine.

So long as these works remain in their present condition there will be a fear that the money already spent on them will be more or less lost, owing to the action of water, the

- growth of jungle, and the thoughtlessness of cultivators.

 6. I have the honor to annex a statement showing the work done and the expenditure incurred on 16 of the 18 roads under the Committee during the year. You will observe that of the expenditure a sum of Rs. 44,398-15-2 represents the value of part of the surplus famine rice made over to the Committee. The remainder of this rice was spent in the previous year. It would have been a good thing could it have been arranged to have expended this rice on one road; but this was found impossible. The contractor to whom the greater portion of the rice was made over hy my prodecessor explained that he had distributed the rice in different parts of the district, and that those who had received it in advance could not be concentrated on one road.
- 7. During the year a sum of Rs. 7,000 was taken in loan from Government for the purpose of turfing embankments. This money was duly expended for this purpose, and it is
- helieved that a great deal of waste has thoreby been prevented.

 8. During the current year, I may remark that the Committee has arranged to complete two entire roads (Purulia to Bankoora, Purulia to Govindpore) and to push on with a third road (Purulia to Manbazar) so far as the funds will admit of its so doing. Repairs to the completed portion of the Bankoora road and to the station roads, which will cost in all some Rs. 3,500, are also in hand.
- 9. The regular accounts of income and expenditure (in duplicate) were submitted to you with this office memorandum No. 907, dated the 7th December last.

Punulia,
The 7th December 1875.

(Sd.) W. B. Morton, Lieut.-Col., Chairman.

No. 669, dated Chota Nagpore, the 31st March 1876.

From-W. LEF. Robinson, Esq., Commissioner of the Chota Nagpore Division, To-The Secretary to the Government of Bengal, Public Works Department.

WITH reference to the Government orders No. 4952 of the 24th September 1872.

Hazareebagh, No. 122, dated 19th February 1876. Lohardugga, No. 17D, dated 31st De-cember 1875. Singbhoom, No. 36D, dated 13th Janu-

and No. 50 of 23rd July 1873, I have the honor to submit in original the local improvement reports* and returns from the District Committees in this division for the cess year 1874-75.

ary 1876. Manbhoom, No. 21D, dated 25th February 1876.

2. The Manbhoom report came latest to hand, and has delayed the submission of my divisional report. It is moreover a very meagre one, and contains no information

regarding the operations under the Road Cess Act. I have called Colonel Morton's attention to the orders on the subject, and pointed out what details his future reports should give.

The year under review was the second year of the road cess collections in Hazaree-The assessment was fixed, as in the preceding year, at three-fourths of the maximum rate, and the total demand on account of the cess on lands was therefore the same as in 1873-74. The total collections of the year on account of lands, mines, and houses amounted to Rs. 28,026, but out of this sum Rs. 572 had to be refunded for reasons detailed in paragraph 23 of the Committee's report. On the whole, the provisions of the Cess Act have been carried out in this district smoothly and satisfactorily, and it is a matter of congratulation that, as reported by the Deputy Commissioner, "there was not a single instance during the last two years in which it was found necessary to have recourse to sale of any moveable property or to attachment of the estates themselves for the recovery of the arrears."

The system of collections adopted answered well; the house cess was collected by the excise establishment of the district, and so there was no additional expenditure on this

score.

- In the Manbhoom district the road cess was collected for the first time during the year under report; but as the district was under great pressure in the previous year on account of the scarcity, collections were made from seven pergunnahs only, and hence the total amount shown in the present accounts is comparatively very small. The Deputy Commissioner, however, reports that the zemindars and tenure-holders of his district were very slow in the payment of their cess instalments on due dates, and he was therefore obliged to resort to the stringent measure of attaching the defaulters' properties under section 23 of the Act.
- 5. The total demand of the cess on lands was for the year Rs. 8,358, of which Rs. 4,126 was realized and Rs. 2,707 refunded to Bankoora, being collections from pergunnah Mohesara, transferred to that district, and the bulk of the remaining balance falling due on 28th September last it could not be recovered during the year. The house cess of the year amounted to Rs. 1,325, out of which Rs. 1,164 was realized, and Rs. 3 was written off, as it was erroneously twice entered in the accounts. These latter collections were made by paid peons, but towards the close of the year I directed the Deputy Commissioner to make these collections through the excise establishments, as in Hazareebagh, and this system is now being pursued during the current year.

The provisions of the Road Cess Act were extended to the Lohardugga district during the year under report under Government Notification No. 2088 of 5th October 1874, but the operations did not commence until the end of December. The valuation

work is proceeding satisfactorily.
7. With regard to the action of the Road Committees, the real work is done by the official members, the non-official members seldom taking any interest in the proceedings; and when they do attend meetings of the Committee, they do so as a matter of form or stiquette, and seldom take any active share in the proceedings, and vote as they think will be pleasing to the local authorities, which is perhaps the best thing they can do until the country is further advanced in civilization.

8. Information regarding the District Road Committees has been furnished only by the Deputy Commissioner of Hazareebagh; the other Deputy Commissioners have been called on to supply the necessary information, which will be submitted to your office separately, as directed in paragraph 10 of the proceedings of the Public Works Department No. 1286

of the 18th instant.

9. Under notification of the Public Works Department, No. 469 of the 29th December 1874, the following assignments were made to the several districts in this division for the cess year under report :-

| • | | | | | | Ks. |
|----------------|-------|-----|-----|-----|-----|--------|
| To Hazareebagh | ••• | ••• | ••• | ••• | ••• | 5,000 |
| " Lohardugga | . ••• | ••• | ••• | ••• | ••• | 20,000 |
| ,, Singbhoom | ••• | ••• | ••• | ••• | ••• | 10,000 |
| ,, Manbhoom | | ••• | ••• | | ••• | 15,000 |

But subsequently, by orders of your office No. 1262 of the 10th March 1875, a sum of Rs. 5,000 was withdrawn from the grant to the Lohardugga district and credited to Government, and a special grant of Rs. 2,400 was made to Hazareebagh under order No. 1601 of 24th March 1875 for completing the Churwa and Gonda bridges.

- 10. The total amount at the disposal of the Hazareebagh District Committee was during the year of report Rs. 43,859, and the total expenditure amounted to Rs. 33,107; of the latter, Rs. 18,448 was spent on original works and Rs. 5,701 on repairs. The details of these works are given in the Committee's report, but from the Deputy Commissioner's remarks on some of the roads inspected by him, it is quite clear that when the work was in Mr. Pereira's hands it was not well done and not sufficiently supervised. The necessity for visiting other parts of the division prevented my seeing much of the roads in the Hazareebagh district during the past year, with the exception of the main line from Hazareebagh to Giridhi, which being provincial, does not come within the scope of this report. The only local road I did go over was the one from Kurrukdeha to Pachumba; and that can scarcely be dignified by the title of a road, as it is a mere cart track.
- 11. During the year of report the Lohardugga District Committee had a net sum of Rs. 40,437 available for expenditure, out of which Rs. 33,640 were spent. Of this latter sum an expenditure of Rs. 12,481 was incurred on account of cost of establishment and refunds of fines, as detailed in the 6th paragraph of the Committee's report. The charges for establishment are rather heavy, but it will be borne in mind that the valuation work under the Road Cess Act is now going on, and consequently this item must necessarily be costly. The remainder, or Rs. 21,159, was spent on roads, &c., in the two main divisions of the district, viz. Chota Nagpore Proper, or Sudder division, and Palamow sub-division, the amount spent on original works being Rs. 1,832 and that laid out on repairs being Rs. 19,327.
- 12. Full details of these works will be found in the Committee's report, and it does not appear necessary that I should make any further remarks on the subject. The only road referred to, which I have travelled over, is the one from Daltongunge to Ranchec, which is in tolerable order considering the difficult nature of the country through which it passes.
- 13. In Singbhoom the total amount to the credit of the Road Fund was Rs. 16,807, and the total expenditure amounted to Rs. 14,888, leaving a balance of Rs. 1,919 on the 30th September 1875. The amount spent on repairs is somewhat more than double of what was laid out on original works. A beginning of road cess operations will be made in Dhulbhoom this year.
- 14. The Manbhoom Committee had a total sum of Rs. 76,976 available for expenditure during the year, but of this sum Rs. 54,586 represents the value of surplus grain received from Government during the famine year. The Committee further received from Government a loan of Rs. 7,000 for turfing embankments, and this money was duly spent, but it does not appear in the Committee's accounts submitted for the year. The total expenditure of the year was Rs. 71,468, and of this sum Rs. 55,920 were laid out in original works, and only Rs. 17 on repairs. The details of these works are given in a separate statement submitted by the Deputy Commissioner, which shows that of the total sum spent on them, Rs. 44,399 was given in rice.

HIGH COURT NOTICES.

Circular Orders Issued by the Authority of the High Court of Judicature at Fort William in Bengal.

CIVIL.

No. 6, dated 24th April 1876.

District Judges are directed to submit all applications for the construction of new Court-houses, or for repair of the existing buildings, direct to the Government of Bengal, and not to or through the High Court.

No. 7, dated the 1st May 1876.

The Court adopts the following Circular Order issued by the High Court, North-Western Provinces, and directs careful compliance with the practice enjoined:—

- "It has been noticed by the Court that when a Civil Court allows a plaint to be amended, instead of the amendment being forthwith made in the plaint itself, the order to make the amendment is merely filed with the record.
- 2. "The Court points out that when such permission or order is given, the amendment must be made in the plaint at once, and orders that it be attested by the signature of the presiding Judge."

No. 8, dated the 12th May 1876.

With a view to avoid wear and tear of the seals recently provided for the use of District Judges, Government has, on the recommendation of the Court, sanctioned the supply of seals of a smaller size and simpler make for use on minor occasions.

- 2. These seals, when ready, will be forwarded by the High Court.
- 3. It must, however, be understood that they are not to be used for sealing judgments, writs, processes, or other documents made or issued judicially; for such purpose the regular seal of the Court should alone be employed, under the superintendence of a responsible officer. But for all other purposes the smaller seals should be used.

Sheriff's Office, the 3rd May 1876.

Notice is hereby given that the Fifth Criminal Sessions of the year 1876, of the High Court of Judicature at Fort William in Bengal, for the Town of Calcutta and Factory of Fort William and the places subordinate thereto, will be holden at the Court-house, in the Town of Calcutta, on Wednesday, the Thirty-first day of May next, at 11 o'clock in the forencon, and so on from day to day until the said Session be over. And it is hereby proclaimed that all persons who will prosecute any of the prisoners to be brought up for trial at the said Session be then and there to prosecute.

J. R. Bullen-Smith, Sheriff.

1. THE Calcutta Medical College Session of 1876-77 will commence on the 15th June next.

Students who may be desirous of commencing their studies are requested to apply to the Principal of the Medical College between the hours of 10 a m. and 4 P.M., on or before the 15th June next, when the ten (10) vacant free presentations will be awarded. These are given to candidates upon their relative position in the University First Arts, B.A. and B.L. Examination, preference being given to those who have passed the highest examination.

3. The possession of the "First Arts" certificate of the Calcutta University will

entitle students to enter the Medical College.

4. The course of instruction given in the Calcutta Medical College is framed to meet the requirements of the Calcutta University for obtaining its degrees in medicine and

surgery.

5. The candidates who may fail in obtaining free presentations may be admitted as students on payment of an entrance fee of Rs. 15, and a further sum of Rs. 5 monthly during the period of their stay at the college, provided they enter into a guarantee to follow out the college curriculum to a close, and to graduate at the Calcutta University. Candidates who do not intend to graduate in Calcutta, or who wish to attend only a few courses of lectures, may be admitted as casual students on payment of a fee of Rs. 40 for each course of lectures, or Rs. 60 for six months' attendance upon any single branch of hospital practice. The cost of educating a casual student to compete at the examination of the Royal College of Surgeons of England amounts to Rs. 810.

6. The certificate of lectures and hospital attendance of the college are recognised by the University of London, the Royal College of Surgeons of England, and the Worshipful Society of Apothecarics of London.

T. Edmonston Chables, M.D., for the Principal, Medical College.
